The providers of all means of using the multiple for each stage of all means of using the multiple of the privilege of all means of using the multiple of the privilege of all means of using the multiple of t

self and His Officers.

As usual a multitude of special attractions and novel features have been arranged for each and every day, including the latest and greatest inventions—wireless telegraphy, wireless telephoning, improved X rays, and other wonderful electric developments. An interesting feature that the Manager aptiy calls "Niagara Falis keversed," will be an exhibition of the marvelous power of explosion of gun cotton on the lake front, when tons upon tons of water will be blown into the air, some of it ascending to a great height. Another attractive water feature will be a practical illustration of life-saying from shipwrecked vessels, including the firing of rockets, the stringing of life-lines, etc. Yet another entirely fresh novelty will be the Plalsance—a street with tents on each side, in which can be seen an almost endiess variety of strange things and clever acts. A refined continuous vanderille, contortes. stringing of life-lines, etc. Yet another entirely fresh novelty will be the Plaisance—a street with tents on each side, in which can be seen an almost endiess variety of strange things and clever acts. A refined continuous vaudeville entertainment of an exceptionally high order will be an innovation and will provide pleasing and restful amusement for the weary and the satiated, as well as affording the visitor a good-sized gilmpse of real metropolitan entertainment.

The specialty program will include three cruisers sunk in and upon which he places a value of \$425, of the amin upon which he places a value of \$425, of the amin upon which he places a value of \$425, of the amin upon which he places a value of \$425, of the will be a great day at Munro Park, judging by the very large attendances at each performance through the week. The program for next week has many novel features, including comedy by Hirsch and Randall, and illustrated songs by Prof. Rice. The military bands have been secured for a series of concerts, and these will be in addition to the usual excellent program.

A Shuffle at Minro Park.

This will be a great day at Munro Park, judging by the very large attendances at each performance through the week. The program for next week has many novel features, including comedy by Hirsch and Randall, and illustrated songs by Prof. Rice.

popular success at the Exhibition two years ago.

Although the entries do not close until Saturday, Aug. 5, it is already possible to predict from the number already in, that the displays of manufactures, of minerals, of live stock and of agricultural and industrial products will excel the same at all the years that have gone, many of the promised exhibits never having before been on view. As usual, the most favorable arrangements have been made with railways and steamboat lines, extending all over Canada and into the States of New York, Massachusetts, Pennsylvania, New Jersey, Michigan, Ohio, Illinois, and Wisconsin. Considering the excellence and comprehensiveness of the program and the growing times, it seems reasonable to expect that the attendance at the Exhibition of 1899 will even surpass the enormous attendance of last year, which was the largest in the Fair's history.

When the entries do not close until Adelalde-streets, or from any of the following committee: Bros. Geo. Tait, Geo. J. D. Bennett, H. T. Smith, J. C. Gardiner, Chas. E. Edmonds, W. H. Shaw, R. J. Beeman, and the undersigned: W. C. Wilkinson, or address H. Parry, general agent, 308 Main street, Buffalo, N.Y.

Look Out for Goenczi.

Inspector Stark received a communication yesterday afternoon from the Royal police President, Berlin, Germany, asking that the Toronto police keep a lookout for Joseph Geonczi, wanted on a charge of murder. The said crime is alleged to have been committed some weeks before Aug. 25, 1897, but was not discovered till that wife left Berlin on Aug. 18, 1897, and it is thought that they may have come to Canada.

Here is Good News.

Here is Good News.

Halifax, N.S., July 21.—The remainder of the shipwrecked crew of the schooner Hattle E. Worcester of Gloucester, numbering 14 men, arrived at Jeddore, N.S., this morning, having rowed from Sable Island. They were in a boat partly filled with water, and for three days and three night were without food or water. All the crew are now actounted for.

Halifax, N.S., July 21.—The remainder of the schooner Hattle E. Worcester of Gloucester, numbering dark curly hair, mixed with grey, dark brown eyebrows, broad nose and whisters parted in the centre. There is a reward of 1000 marks offered for his arrivest.

S. Ackerman, commercial traveler, Belleville, writes: "Some years ago I used Dr. Thomas' Eclectric Oil 1000 marks offered for his arrivest."

Sakerman, commercial traveler, Belleville, writes: "Some years ago I used Dr. Thomas' Eclectric Oil for Inflammatory Rheumatism, and three bottles effected a complete-jeure. I was the whole of one summer unable to move without crutches, and every movement caused excruciating pains. I am now out on the road and exposed to all kinds of weather, but have never been troubled with rheumatism since. I, however, keep a bottle of Dr. Thomas' oil on hand, and I always recommend it to others, as it did so much for me.

Chief Surgeon Woodhull, at Manila, Enters a Vigorous Protest Through Gen. Otis.

Manila, July 16, via Hong Kong, July 21 -Chief Surgeon Woodhull has sent a vigorous protest to the War Department, through Gen. Otis against the inadequat force, equipment and accommodations of the hospital service in Manila. He declines further responsibility for the health of the army unless the improvements which he recommends are adopted.

The chief aliment of the troops is dysentery, which is largely the result of the heavy army rations served, it being the same as that given the soldiers in Alaska.

Pedlar's Steel Shingles

Are the best kind of covering for farm buildings, as well as city and town houses. Best, because they can be applied on any building that a wooden shingle can be put on, besides having a neat and attractive appearance. They are absolutely water, wind and stormproof and afford ample fire protection. They are made from Galvanized and Black Sheet Steel, painted, and compare favorably in cost with a good wooden roof.

Prices from any progressive dealer, or direct on request.

Doctor Howard, Manager Orien's Mfg. Co., Carleton Place, Ont.

Carleton Place, Ont.

Dear Sir,—I have been a great sufferer from Piles. The last attack was the most severe I have experienced. For ten days I could neither sit nor stand, and walking was out of the question, so great was my suffering. I could find no relief anywhere until your Pile Ointment was recommended to me. I got a box. I was relieved by the first application. In two days I was able to resume work and felt perfectly cured within a week. I volunteer this testimonial. I desire that people who suffer as I have done may know where to get such prompt relief as I found in the use of Orien's Piles. Ointment.
