STARR MEDALS.

The late RICHARD NOBLE STARR, M.D., devised certain property for the encouragement of the study of the subjects of Anatomy, Physiology, and Pathology. In fulfilment of this object the Senate have established one Gold and two Silver Medals, called the "Starr Medals." These medals are competed for annually at the same time as the Examination for the Degree of M.B., and are conferred upon the three competitors who have attained the highest marks in the above subjects; the relative rank of each Candidate being determined by the aggregate number of his marks in all such subjects. They are open for competition to all students who have received their medical education in any Medical School or Institution affiliated with the University, and have matriculated or been admitted *ad eundem statum* in the Faculty of Medicine in the University; but such competitors must be of sufficient standing to be entitled to present themselves for the Degree of M.B. Candidates are required to take all the subjects appointed for Examination for the Degree of M.B. Every recipient of the Medal must have attained the standing of first class in each of the subjects of Anatomy, Physiology and Pathology, and must be classed in Honors in all the other subjects of Examination. The "Starr Medal" may be taken and held by any Candidate to whom the University Gold or Silver Medal has been awarded at the same Examination, in which case it is optional for him to receive, instead of such University Medal, the value thereof in money.

N.B.—THE MATRICULATION EXAMINATION OF THE COUNCIL OF THE COLLEGE OF PHYSICIANS AND SURGEONS IS ACCEPTED BY THE UNIVERSITY OF TORONTO.

FEES.

For the course on—1, Physiology; 2, Materia Medica and
