One of the first players he sent to the local club was Larry Conley, now here with the touring Newburyport, Mass., club, while another notable player he secured was Ray Tift, former Brown University star who was with the New York Yankees before coming to Fredericton. McCarthy and Hugh Duffy, now manager of the Boston Red Sox, were known as "the heavenly twins" when playing in the outfield for the Boston National League Club, then known as the Boston Red Stockings. The team won consecutive championships from 1891 to 1893.

Erin Smith's Performance.  
(Halifax Echo).  
Erin Smith furnished the feature of the Dartmouth A. C. track sports at the Dartmouth grounds yesterday afternoon, when he equaled the Maritime record for the 100 yard dash in 10 seconds flat. Smith's dash was made on a slow track, the rain of the night before making the going rather heavy and his performance is all the more remarkable on that account.

Next in importance and superior in the thrill furnished to the spectators, comes the win of Grant Holmes over Billy Mooney in the Quarter Mile Run. Holmes took the race from Mooney by about a yard after both runners had battled all the way around the circle. Mooney made the pace until the last twenty yards, but Holmes caught him and beat him to the tape.

PART OF GARAGE AND SOME AUTOS ARE DESTROYED.  
Port William, Ont., Aug. 8.—Fire yesterday in the workshop of the Silfrs and Jones Garage gutted half the building and destroyed several cars in storage. A fire wall protected with fire doors prevented the fire spreading into the power half of the building where the most expensive cars were located.

The fire originated from gasolene fumes and before it could get under control the whole of the upper floor was burned out and the cars damaged. The Young Melick was damaged at the end and the water in some places reaching to a depth of three or four feet. The Montreal and New York wires were working badly throughout the afternoon, this evening and for some time there was no direct wire connection from outside points.

OWING to the bravery and presence of mind of Owen Craig, the life of Harold Melick, son of William Melick, 227 Germain street, was saved about 10:30 yesterday morning near Robinson's wharf. Young Melick was falling at the end of the wharf and in some way lost his balance and fell off into the deep water. He was unable to swim. Craig, who lives in Britain street, hearing the cries rushed to the rescue and jumping overboard succeeded in getting to shore with the little chap, where, after some time, the latter was revived. He had swallowed a good portion of water. Craig's action is being highly commended.

"I bought the horse for \$60 on Friday," Hallburg testified. "I was told he was a race horse, and I planned to enter him at Windsor. I just wanted to see what he could really do."  
The judge said he thought the horse was certainly worth \$85 if it was worth a cent, and fined Hallburg \$25. The charge was cruelty to animals.

PREMIER KING  
IN SPEECH TODAY

Address at Political Picnic in Ontario

Unwise at Present Time for the Federal Government to Take Hand in Coal Situation—Speaks of Wheat Board and West.

(Canadian Press.)  
Toronto, Aug. 8.—Premier King spent last night very late in his private car en route to Leamington, where he will address a political picnic this afternoon. He indicated that in his speech he would confine himself largely to a resume of the work of the government during the last session, and to a running up of the present conditions in Canada. Any pronouncement that he had to make, he said, he would prefer to reserve until he spoke.

Speaking of the attitude of the federal government toward the coal situation, Mr. King said he believed that it would be unwise to take any action at present. He felt that this was primarily a matter for the individual, with the aid of the municipalities and the provincial governments. Should the federal government enter upon the business of buying and supplying coal, those whose legitimate business it was to do this might be object, as it would constitute a breach of the government's constitutional duty. But if it were a matter of transportation, such as a car or ship shortage, then there would be cause for action by the federal government.  
The premier confirmed a report that James Stewart and J. W. Riddle had declined to act upon the wheat board. Suggestions had been asked from the governments of Saskatchewan and Alberta, and as a result the federal government had received the names H. W. Wood and Cecil Rice-Jones. These men would be quite acceptable to the government, he said, as it was the government's policy to accede to a request of this nature that the western provinces might make. The matter was, after all, one that concerned the western provinces and any recommendation coming from there would be acted upon.

Detroit, Aug. 8.—John Hurley, two gun bandit, 18 years old, after shooting the proprietor of a west side meat market through both legs and looting the cash register, fled from a rain of police bullets at noon yesterday. He was dragged dying five minutes later from underneath an automobile in a garage, where an officer had shot him through the left lung.

Mildred Jordan, the most market proprietor, told the police that Hurley entered his store, drew two revolvers, and called "Come across with that cash." Two shots, both of which took effect in Laddinsky's legs, followed signs of resistance. Hurley is expected to die. Under the automobile he drew his revolvers again to shoot.
