TAKE ONE OF THESE TALKING MACHINES OFF MY HANDS.

25c. - IS ALL YOU NEED - 25c.

THINK OF IT! A HIGH GRADE TALKING MACHINE

Fifteen Different Models to choose from. A boy or girl, as well as older people, can have this Musical Club.

We have arranged with the manufacturers to continue this sale for a few more days, the price remaining the same as last week, although these machines are selling 30 per cent higher everywhere. You should join the Club today—because no better machines exist. Because the first cost is so low. Because the Club payments are so easily made. Because you will never have another chance to buy at these low prices. Because you cannot buy anything that will give so much pleasure in your home.

In many cases music has made cures where medicine failed. Now, if you can make an excuse for not having one of the best machines in the world, come in and tell us, as we feel we have settled the talking machine problem for everyone.

We would be pleased to have you come in and hear the music and let us explain this wonderful saving plan. Better than putting money in the bank. People of every walk in life are joining this TALKING MACHINE CLUB and are enjoying the best music in the world. Just let each one of the family save a few cents of the money they spend foolishly every week and own a High-grade Phonograph.

Try it and encourage the practice of saving anyway. Come in and hear the music. It costs you nothing to investigate.

We will make a liberal allowance for your old machine in exchange.

Belding, in response to a request from the chair, spoke about boys and boys' work and referred to the Boys' Club. Out of a membership of over 400 over sixty lads had donned khaki. Regarding vocational training he suggested that the Rotarians petition the city council and the school board to get vocational classes started in St. John this winter under the new law.
