CHILD WELFARE WEEK.

Last week was child welfare week in Cobourg, Ont. An exhibit and a baby clinic opened in the Methodist Sunday school hall. The necessity and value of education in child preservation is shown by the fact that statistics for 1918 give the child mortality in Cobourg in that year as 208 per 1,000. On Sunday sermons were preached in some of the churches on child welfare, and the need for educative work was impressed. The department instructors were Miss Power, director of child welfare, and Miss Knox of the Ontario Child Welfare Bureau. Medical and dental men gave their assistance in the work, and the convention was in charge of the local

branch of the Ontario Women Citizens' Association and other local women's societies.

From Grave to Gay.

(From the Globe City (Wis.) News-Herald.)
An automobile load of Benton girls, consisting of the Hunter sisters, Miss Calvert and another one, attended the funeral Tuesday and put in the rest of the time fishing, etc. They had a jolly fine time.

John Fox, Jr., who died a few days ago, was married in 1908 to Fritz Scheff, comic opera star. They were later divorced.

DOMINATION OF THE FOOD SUPPLY

Warning of Approaching Control By "Big Five"

U. S. Federal Trade Commission Makes Public First Part of Report to President on Investigation of Meat Industry

Washington, July 11.—In warning of an approaching domination of the nation's food supply by the Big Five Chicago meat packers, the Federal Trade Commission today made public Part I of its report to the president on its investigation of the meat industry, bearing on "Extent and Growth of Power of the Five Packers in Meat and Other Industries."

"An approaching packer domination of all important foods in this country and an international control of meat products with foreign companies," says the report, "seems a certainty unless fundamental action is taken to prevent it."

A fair consideration of the course the five packers have followed and the position they have already reached must lead to the conclusion that they threaten the freedom of the market of the country's food industries and of the by-product industries linked therewith.

The meat packer control of other foods will not require long in developing. Declaring "the history of the packers' growth is interwoven with illegal combinations, rebates and with undiluted control of corporations," the report also urged the importance of full publicity of corporate ownership for all industries.

"As to devices for such control, there does not exist adequate law. In its absence unfair competition may run its course to the goal of monopoly and accomplish the ruin of competitors without the secret ownership being suspected and consequently without complaint to

Not A Blemish mars the perfect appearance of her complexion. Permanent and temporary skin troubles are effectively concealed. Reduces unnatural color and corrects greasy skins. Highly antiseptic, used with beneficial results as a curative agent for 70 years.
