CARTER'S LITTLE LIVER PILLS

Two Splendid Things

One is plenty of open-air exercise.

If you can't get all of that you should, it's all the more important that you should have the other tried-and-true remedy for a torpid liver and bowels that don't act freely and naturally.

Take one pill every night; more only when you're sure it's necessary.

Colorless faces often show the absence of iron in the blood. Carter's Iron Pills will help this condition.

PLAYGROUND AT A SMALL COST

Rockwood Offers Excellent Opportunity — Association's Plans For Summer Work

A very interesting meeting of the executive of the Playgrounds Association was held last evening, with the president, M. Belding, in the chair.

Captain Mulcahy reported that the committee consisting of himself, M. Agor, H. H. McLaughlin and A. W. very had visited the six playgrounds and had nearly completed arrangements for the season's opening. He and A. W. were looking after the Carleton road, and the apparatus is being repaired and the pavilion repaired.

Mr. E. Day is looking after both the Alexandra and Bentley street grounds. Mr. McLaughlin and Mr. Agor are receiving assistance from Frank L. Peters in connection with the Aberdeen ground. The Centennial it will probably be necessary to remove the swings, which are now on ground connected with the 11 Brunswick street church. The Alexandra ground's apparatus is to be painted. The president reported that Engineer Atfield had taken levels at the Rockwood road and was satisfied that with the ditching, filling the bed of the old creek, and then ploughing, cross-ploughing, harrowing and rolling, a fine baseball diamond and half-mile running track could be provided at comparatively all cost, with excellent facilities for side "bleachers" if these should be needed. He will probably submit a report next week.

It was decided to hold a special meeting of the executive two weeks hence, invite the supervisors and assistants meet in conference.

The secretary, Mrs. W. C. Good, read from Winnipeg, asking the views of the association on the question of forming a National Playgrounds Association after the war. Mrs. Good was authorized to reply that the first effort form such an association was made the St. John organization when Miss Belding was president. In her

Soccer League Formed.

St. John is, after all, to have a baseball league this summer. Arrangements have already been made for a six-team league, to be known as the St. John Patriotic Baseball League. The following are the teams: Canadian Garrison Regiment, of West St. John; military headquarters, M. D. No. 7; 9th Siege Battery; Depot Battalion; Y. M. C. A., and the Y. M. C. I.

At a recent meeting preliminary arrangements were made and the schedule was drawn up, which will be announced later. The games will be played on the Exhibition grounds and at Sussex. Scheduled games with the depot battalion will be played alternately at St. John and Sussex. Lt.-Col. A. H. H. Powell and Major S. S. Wetmore have been elected honorary presidents of the league, with Mayor Hayes, T. H. Estabrooks and Commissioner T. H. Bullock as honorary vice-presidents. Lt.-Col. James L. McAvity is president, and Majors C. J. Morgan, P. W. Wetmore and G. R. Baines, vice-presidents; Q. M. S. G. W. Stegmann is secretary, with Staff-Sergeant O. B. Stevens, assistant secretary; treasurer, Lt. H. S. Murray; business managers, Lt. E. S. Cosman and S. S. Marshall, and a committee consisting of S. S. Marshall, Y. M. C. A.; J. Sergeant Brophy, military headquarters; Major Barnes, Depot Battalion, and Captain H. D. Warren, C. G. R.

Fall Killed Lichtenstein.

"Sol" Lichtenstein, a New York book-maker, either fell or jumped from the eighth floor of the apartment house where he lived, at 300 West End Avenue, early on last Thursday morning. A passing chauffeur saw the body drop on the eighth-fourth side of the building and blew a police whistle. An ambulance was summoned from Knickerbocker Hospital and the doctor pronounced Mr. Lichtenstein dead, both legs broken and the skull fractured.

When the patrolman arrived he found Mr. Lichtenstein dead in a bathrobe. With the aid of the chauffeur he carried the body into the apartment house. There it was recognized and the patrolman went to the Lichtenstein apartment. He questioned the maid and Mr. Lichtenstein's valet, and the former awakened Mrs. Lichtenstein, who on going to her husband's room found that the bed had not been slept in.

Mrs. Lichtenstein said she knew no reason why her husband should commit suicide, and was of the opinion that before he had intended retiring he had gone to the window in the sitting room overlooking Eighty-fourth street and in leaning out had lost his balance. The sill in the room is very low.

Dr. John Morris, county medical examiner, after an investigation said that Mr. Lichtenstein's death was accidental, although the police reported it a suicide.

Three years ago Mr. Lichtenstein retired from the track and a year later lost the sight of one eye, the other also being affected. Since that time his wife, who is younger, has been his constant companion.

Last Saturday Mr. Lichtenstein and his wife, went to the Belmont race track.

The Best All'Round Drink for the Family Circle

Red Ball

is delightfully refreshing and appetizing; that's why it is rapidly finding favor in hundreds of homes.

For all, from youth to old age, Red Ball is food and drink, being made from the finest garden-grown hops, Canadian and Dublin malt of the highest-grade, and pure artesian well water.

You'll enjoy the delicious pliant flavor of Red Ball, and once you've tried it, you'll always prefer it.

With the dinner meal, for luncheons of cold meat, chicken, salads, sandwiches, etc., Red Ball is an ideal beverage. Fine at picnics, auto outings, and at camp.

ALWAYS HAVE RED BALL AT HOME ON THE ICE. LET US SEND YOU A CASE—NOW

A DOCTOR ON WAR.

(Dr. Frederick Peterson, in the Century.)

"Though the physician in war remains neutral as far as his work is concerned, his thoughts are free, and his knowledge of the effects of body upon mind is such as to throw sidelights at times upon the origins of even such a world disaster as the present war. In certain persons a curious reaction from physical infirmities has been observed. Napoleon's (inordinate ambition and enormous egoism were probably exaggerated by the fact that he was physically small and insignificant. Tamerlane, who made himself master of nearly the whole of Asia, was lame, and, according to one of his biographers, 'deformed and impious of feature.' Pope, with his deformed body, became 'The Wicked Wasp of Twickenham.' Byron, doubtless spurred by his clubfoot, swam the Hellespont. The Kaiser, with his arm withered from birth; Treitschke, stone-deaf from childhood, and Nietzsche, with years of brain disorder leading to paroxysms were the unholy trinity of the new Teuton religion which has driven a whole nation into irresponsible fanaticism and almost wrecked the planet. King Richard III. exclaimed: 'Then, since the heavens have shap'd my body so, Let hell make crooked my mind to answer it.'"

Expert Swears Pathe Records Are Best.

An interesting bit of testimony, in a patent suit of large importance recently on trial in the Federal District court for the Second District of New York, had to do with the perfection of Pathe records.

Mr. Woodruff, an acoustician of nationwide reputation and one of the foremost authorities upon recording and pressing in the talking machine trade, testified under oath that, in his opinion, "Pathe records are the best samples of recording and music on the market to-day and excel anything else in quality."

Mr. Woodruff concluded with the assertion that he could not conscientiously testify otherwise and that he did not expect to profit in any way by his testimony.

The expert's testimony was of especial interest in view of the fact that the Pathe company had no interest in the legal proceedings in which he was a witness, as the company was neither plaintiff nor defendant and its interests would not be affected one way or the other by the outcome of the trial.

Saskatchewan province has been divided into eight districts under the highways act, and superintendents have been appointed.

It is stated that the annual consumption of coal by New York state breweries is half a million tons.
