RAISED RAILROAD RATES TEND TO INCREASE BUSINESS USE OF AUTOMOBILE

Even more general use of the automobile for business trips than heretofore is the condition foreseen by Mr. Miller representing J. A. Pugsley & Company, local Willys-Overland dealers, as a result of increased railroad fares. "Even when figured out on a purely dollar and cent basis, travelling by motor car, at least as far as the moderate-sized five-passenger car is concerned, is cheaper by rail," said Mr. Miller. "And on top of this there is the immense saving of time that the automobile effects in getting from town to town without regard to time-tables, and the quickness with which it takes you from place to place in town. "Thousands of people are coming to realize every day the time and energy-saving advantages of the automobile in their daily work. That's why I look forward to a constantly increasing use of the automobile in business," J. A. Pugsley & Company, 45 Princess street.

Young Man: How can you serve your country? Fight, if you may, but if that privilege be denied you, you can still serve effectively and honorably in that great army of skilled workers without which Canadian industry would be helpless. You need technical training. Ask or write for information—The International Correspondence Schools, No. 8 Sydney street, St. John, N. B.

Gideon Bibles.

It is said there are 850,000 Gideon Bibles in American hotels. We applaud the fine motives of the Gideons, but our observation is that if you want a Bible to last 9,000 years and then be in a state of perfect preservation just put it in a hotel room occupied by the casual sojourner—Houston Post.
