New York, July 30—Officials of the New York stock exchange today said that the closing of the exchange had not been considered, because of the threatening conditions in Europe. The exchange yesterday experienced one of the most severe tests in its history. In commenting upon the stability of the market, H. G. S. Noble, president of the board, said that "the fact that the New York stock exchange stood alone with a free and unrestricted market for securities, is a tribute to the sound condition of American finance."

There is little danger of industries in this country suffering because of the threatened general war in Europe, according to employers in some of the large manufacturing trades.

At the opening of the stock market here today prices again broke sharply. Losses ranged from two to six points in Canadian Pacific, the weakest feature. A rally of one to two points followed the first decline, after which another elling movement ensued, carrying prices below the opening, and in several important instances, under yesterday's low. There were many transactions for cash, uggesting some of the extreme necessi-

Tomorrow the Imperial has a week-and bill of equal merit. The big piece this time is to be a howling comedy in two reels called "The Trunk Mystery," by the Lubin Co. bullding a new Metropole to replace the old.
As most people were under the, impression when they contributed to the fund that twenty thousand dollars were required for a new building, and twenty thousand dollars were actually, raised, may I ask what is to become of the surplus after the Evangeline home has been adapted?

The public gave the money and they have a right to know if the facts were misrepresented.

Yours truly,
PRO BONO PUBLICO.
Feb. 28th. 1914.

Major Taylor of the Salvation Army said the present plans for the new Metropole and Evangeline Home would result in a much better building than could be secured by the erection of a new one. "The new Metropole will be more valuable and larger than any new one we could erect," he said, ""and in addition we will be able to continue the J. D. Seeley, fifty-one shares.

Q.—Did you pay any money for this stock?

No Money Paid
A.—No money was paid for any or these certificates.
Q.—Were they not paid for by the arrangement of a contract with the M. & N. B. Power Co., held by Mr. Thomas?
A.—That agreement never went through. At that time the railway was to be electric, but that plan was abandoned.

through. At that time the railway was to be electric, but that plan was abandoned.

Q.—But was not that agreement the consideration?

A.—Yes, 250 shares of it.

Q.—Then, as a fact, no consideration passed for the transfer of that stock?

A.—It seems to be all here in the stock book again, except Mr. Hannington's.

Q.—How did they get there?

A.—Mr. Gould's was returned in October.

Q.—How an ewe certificate issued to Mr. Gould on April 10, 1912 for fifty shares as No. 1 in the new book to replace the old certificate?

A.—Yes.

Q.—How about your stock?

A.—Mine was issued, for fifty shares, on April 10, 1912.

Q.—Why did the substitution take place?

A.—The payments must have taken place before this time, the cash book would show.

The cash book was produced, but showed nothing, and the witness said that the books in New York would show.

Q.—You paid for your stock in cash?

A.—Yes; \$5,000, about December, 1911.

Q.—Have you any record of that?

A.—I think there is a bank book which might show those deposits.

Q.—What happened to that stock?

A.—I sent it to Mr. Gould.

Q.—Did you ever receive your money again?

A.—Not in cash; for the railway company stock I got 2,000 shares of the construction company. The railway stock carried the others.
