

as far as this college is concerned. Alterations in the College building were made, providing separate dissecting rooms, cloak rooms, reading rooms, etc. A few of the lectures on certain subjects are duplicated, thus to some extent mitigating what heretofore has been considered an objectionable feature in the co-education scheme.

### MATRICULATION.

According to the Medical Act of 1879, in order to register a diploma in Medicine in the Province of Quebec, and to obtain a license, it is necessary that all students must pass a preliminary examination before the examiners appointed by the Board, or produce a certificate of having passed an equivalent preliminary examination before a College or Licensing Board, recognized by the "Provincial Medical Board," elsewhere than in the Province of Quebec. It is also absolutely necessary that students shall attend at least four full six-month's sessions at College, and of these they are obliged to attend the first session during the first year succeeding the obtaining of certificate of qualification to study. The student before obtaining a diploma must have been engaged in the study of Medicine for a period of not less than four years after having passed the preliminary examination. Students who intend practising in other Provinces of the Dominion should pass the Matriculation examination accepted by the several registering boards of these Provinces.

Students intending to practice in Ontario are required by the Medical Council of that Province to pass their preliminary examination before commencing the study of Medicine. Those having the degree of B.A. and Matriculants of any University, and of most of the Medical Colleges and Boards in Her Majesty's Dominion, are exempt from this examination in this University. The B.A. degree is now accepted by the College of Physicians and Surgeons of Quebec. Students who do not desire the license of either Province must pass the Matriculation examination of this University, or present a certificate of an equivalent examination before a body authorized for that purpose, if not otherwise qualified as above indicated.
