

SPRING.  
'Tis not the murmuring voice of spring,  
That stirs my heart and makes me sing,  
'Tis not the sunshine rippling o'er  
That floods with light my chamber floor,  
But 'tis that long, long years ago  
When all the world was blushing so,  
When hawthorns bloomed and violets grew  
My heart beat soft with love for you.  
And now when spring-time comes again  
With rainbow wreath and pattering rain,  
Sweet hope,—nursed by the voice of spring,  
Says—sometime we may meet again.

A Yankee grocer, being solicited to contribute to the building of a new church, promptly subscribed his name to the paper in the following manner: "John Jones (the only place in town where you can get eleven pounds of good sugar for a dollar), twenty-five cents."

Mr. LeBlanc, sailing master of the Government steamer "La Canadienne," and three of the crew were drowned on Saturday at the mouth of the Grand River, Bay Chaleurs.

A good story is told of Hon. David D. Buell, well known on the Pacific coast. One day he went to a bootblack's stand, and seated himself in the chair and elevated his feet. The boy stood on the sidewalk, looking in speechless wonder at the feet displayed. After sitting a while Dave spoke to a friend who was beside him, saying:

George, where the deuce is that boot-black? I've been here half an hour waiting to have him come to black my boots.

Here I be, sir, said the boy, coming from behind the boot.

I didn't see you, said Dave.

As a stout old lady got out of a crowded coach the other day, she exclaimed: Well, that's a relief, anyhow! To which the driver, eyeing her ample proportions, replied, So the ladies think, mum.

Why the Valve Jar is Superior to all Others for Preserving Fruit.

1. Because it is the only one in which the contents can be securely fastened, and cooked while thus secured, without risk of an explosion.  
2. It is the only one that is Automatically Sealed, therefore, the only Self-Sealing Jar in the market.  
3. It is so simple that no skill is required to use it successfully.  
4. It is securely fastened when placed in the kettle, and being immersed, the fragrance of the contents is confined in the Jar, a more perfect vacuum produced and the handling of the hot jars entirely avoided.  
5. It is well known that fruit jars which are closed with rigid fastenings burst by fermentation, and the effect upon the closet and surrounding walls is well understood by many housekeepers.  
The Cover of the Valve Jar being a perfect safety valve makes an explosion impossible, and entirely obviates every difficulty that exists in other fastenings.
