HALIFAX ARCHITECT TO PLAN A TOWN.

(Halifax Chronicle, May 21.)
Mr. A. R. Cobb, the well known Halifax architect, is to plan the new town of Humber, Newfoundland, and will leave on Tuesday next for St. John's to look over the situation. He is uncertain at present as to just how long he will remain in Newfoundland this trip. He may just make a preliminary survey in conjunction with Mr. Thomas Adams, the well known town planning expert, who is to plan the town, and may then come to Halifax and draw the detail plans and specifications, or he may find it necessary to remove his office and staff from here to Newfoundland for the summer. That question cannot be determined until he gets to Newfoundland, where Mr. Adams is to join him a little later on.

It was through Mr. Adams that the offer of the contract was made to Mr. Cobb, a marked distinction for a Halifax architect. The new town is to be built in conjunction with the big pulp and paper plant being located in its vicinity by the big English concern of Armstrongs, Whitworth and Co., and the probable population is estimated at about 2,000. The buildings to be planned and erected include dwelling, church, school, hospital and town hall.

Mr. Cobb was at work completing the revised plans for the Provincial Exhibition buildings and plant when he received word of the Humber contract.

FRESH FISH AT TWILLINGATE.

According to a message to the Assistant Collector of Customs from the Sub-Collector at Twillingate, the first sign of codfish for this season was seen here on June 5. James Churchill trapped six bars. He secured a further four bars yesterday morning, the fish being of good size. There are no reports from other portions of the coast.

MR. MORGAN'S RESIGNATION ACCEPTED

Mr. R. C. Morgan for some time past General Manager of the Newfoundland Railroad system, has resigned, and his resignation has been accepted.

THE HERBERT WARREN MISSING

The tern schooner Herbert Warren is now over 130 days out from Seville for St. John's, and grave fears are entertained for her safety. The vessel is owned by James Baird, Ltd. and was well found in every respect, having two suits of sails and was well stocked with provisions.

CACHELOT AND ABOT PURCHASED BY WIALING CONCERN

The Newfoundland Whaling Co., which is operating from Beaverton this season, has purchased the whaler CacheLOT, recently owned and operated by the Labrador Whaling Co., which concern is about to be wound up. The CacheLOT is now ready for sea, and will begin operations within the next week or so. The Company has also purchased the S.S. Cabot, from Messrs. Cashin and Co. This ship was formerly used as a whaler, and she is now being retro ready for the work. It is hoped the venture of the Nfld. Whaling Co. will be a successful one.—Daily Ews.

There is nothing more satisfying in life than work—if it's the kind of work you like. If you are continually happy. Of course, I don't mean you have to saw wood in your sleep.

Don't be afraid of failure. If you don't hit the bulls-eye on one kind of gun, try another. But keep shooting. I'll bet a hen don't get a bug every time she pees!

Miss Naomi Snow had a brief visit to Mr. Grace today.

OPENING OF THE HOUSE OF ASSEMBLY

Speech from the Throne Delivered by His Excellency Sir Wm. Allardyce.

The first session of the twenty-fourth general Assembly of Newfoundland opened at 3 p.m. Thursday when His Excellency Sir Wm. Allardyce, K.C.M.G., in the presence of both branches of the Legislature and a large number of visitors delivered the following speech from the Throne:—

Mr. President and Honourable Gentlemen of the Legislative Council: Mr. Speaker and Gentlemen of the Honourable House of Assembly:

On this, the first occasion of my meeting you in your Legislative capacity, I desire to extend to you my cordial greetings. Since my assumption of the Governorship of this most ancient Colony of the Empire, it has given me pleasure to associate myself with all your interests, and the welfare of Newfoundland will receive my earnest thought and solicitude.

On the twenty-fifth of April last, on the occasion of the marriage of His Royal Highness Prince Albert, Duke of York, it was my privilege, on behalf of the Government and people of Newfoundland, to forward to Their Majesties the King and Queen, a message of loyal and dutiful congratulations, and to his Royal Highness and bride, an expression of the fervent good wishes from this Loyal Dependency of the Crown. Gracious replies were received from Their Majesties and from his Royal Highness.

Looking at the world today, we are struck by the fact that the situation is making but slow progress. Action is followed by reaction, and the economic pendulum swings from one side to the other. It will be some years before comparative equilibrium is reached. These world conditions affect us seriously in Newfoundland. They influence the cost of the commodities we import, they depreciate the value of the products we export, they tend to increase the cost of living, to hamper development of trade, and to limit the avenues of employment. Although the rehabilitation of the world in its political and economic spheres is not proceeding as rapidly as had been hoped, it is evident that progress is being made, and we can therefore go forward to our tasks with cheer and courage.

The difference between the imports and exports at 30 June, 1922, showed for the first time since 1919 a balance in our favor. A larger quantity of Codfish was exported during the last fiscal year than during the previous year, though the value was less because of low prices in the foreign markets. During the season of 1922 more Vessels were engaged in the Bank Fishery, and the catch was forty per cent. larger than in the previous year. The result of the prosecution of the Seal Fishery this year was slightly below that of 1922.

The question of unemployment and the consequent distress among the people especially during the winter months, have caused my Ministers constant anxiety. These conditions are not peculiar to Newfoundland but are existent in well nigh every country. My Ministers have made an earnest endeavor to solve the difficult problem of unemployment by providing labour in connection with public works and other necessary measures. It is hoped that the crisis has been passed, and that new openings will shortly be provided to give all our men adequate employment.

Mr. Speaker and Gentlemen of the Honourable House of Assembly: The statements of expenditure and revenue for the last fiscal year will be laid before you in due course, and also the estimates for the several Departments of the Public Service, which latter have been prepared with due regard to economy and efficiency.

Mr. President and Honourable Gentlemen of The Legislative Council: Mr. Speaker and Gentlemen of The Honourable House of Assembly:

Since my ministers assumed office in 1919 they have been giving continuous attention to the question of the development of the resources of this Island. While the fisheries of Newfoundland are and will long remain the staple industry of the Colony, yet my Ministers are convinced that the time has come when a very special effort should be made to secure the industrial development of the interior with a view to relieving the burdens which are now carried by our main industry. The influx of capital, the building of a power station in the country by firms of high standing, and the profits which will be derived from turning our inland resources into money will materially increase our revenue and provide the means to meet the liabilities of the Colony without entirely depending upon the Fisheries. Proposals have been submitted by a powerful English firm for the development of the water power of Grand Lake and the Humber Valley, and the establishment of large Paper Mills and other industries in that vicinity. With the financial support of the Imperial Government, my Ministers after extended negotiations were able to give effect to their development policy, the details of which will be submitted to you for ratification. As the matter was of extreme importance, and time was an essential factor, a temporary arrangement was made under which the work was commenced at Grand Lake. Documents in connection with this temporary arrangement will also be laid before you.

My Ministers considered that the proposal in connection with the development of the Humber Valley was fraught with such far-reaching consequences, both to the future of this Island and the welfare of its people that it should be placed before the electorate. The House of Assembly was therefore dissolved in February last and an election called for the third of May. My Ministers have been sustained in their policy and can now proceed with confidence to the formal ratification of the proposed measure.

It is hoped to lay before you certain proposals for the operation of the Railway and its allied services to replace the agreement for temporary operation which expires on the 30th day of June instant.

With respect to the anticipated Gold-Rush to Labrador on the opening of navigation my Ministers have made the necessary preparations to maintain law and order, and representatives of the Departments interested will proceed there in due course.

In leaving you to the discharge of your duties I am sensible of the gravity of the questions which will come before you, and pray that, under the Divine guidance, wisdom and foresight may be granted you for the advancement and progress of our country.

Where does light go when it goes out?
What becomes of the hole when the doughnut is eaten?

If—

the ingredients printed on the label of your baking powder tin include Cream of Tartar—your cakes, biscuits and other foods will be more healthful and have a finer texture and taste.

That is one of the reasons why thoughtful women insist on

ELECTION PETITIONS FILED

Election petitions against the return of Messrs. W. H. Cave and R. Cramm, members for the District of Bay de Verde, were filed in the Supreme Court Wednesday forenoon. The petitioner is Mr. Alex. J. Garland of Lower Island Cove, A. B. Morine, K.C., has been retained as solicitor for the petitioner. The security of \$400 as called for by Statute has been paid into Court. The summons in the case of Mr. Cave was issued on the 5th inst. It is probable that the trial will take place before the fall of the year.—Telegram.

ANOTHER ACCIDENT AT BELL ISLAND.

An accident, which like two preceding ones may likely prove fatal was reported from Bell Island yesterday. The victim being Herbert Hammond of Portugal Cove, who while on duty looking after some cars of ore, fell between the cars and was badly crushed. Medical aid was summoned immediately and manager Archibald and Mr. J. A. McLean did all possible to alleviate his sufferings, but he has a very small chance of recovery. This is the third accident of this nature to happen in a very short time.—News.

Birthday of the King

Sunday, June 3rd, was the 58th anniversary of the birthday of our King.
His reign has been darkened only by the great World War which shook the very foundations of the Empire.
He has already reigned longer than his father, Edward VII, and as a monarch has a place in the hearts of the people which deepens as time goes on.
All through his reign he has been blessed with the companionship of Queen Mary, who has followed the pure and beautiful example of the great Queen Victoria.
And it may be said that no monarchs have been more loved than King George and Queen Mary.
And now as George V celebrates his 58th Birthday the heart of the Empire is united in the expression of its loyalty and congratulations and hope that for many years he shall be spared to rule the great British Empire.
May he be privileged to witness the emergence of the land he loves so dearly and serves so faithfully, from the dark clouds which came after the war.
May it come in his reign to witness the coming of a true and lasting peace for which the nation and the world are anxiously waiting.
We hear, from the lips of the millions who call themselves Britons this prayer
"GOD SAVE THE KING."
