Fearful Vengeance Visited Upon a Negro by a Mob.

'Memphis, July 22 .- The jail of Shelby county, within the city limits of Memphis, was broken into by several hundred men at midnight and Lee Walker. a black man, aged 22, was strung up to a telegraph pole a few hundred yards from the jail. Afterwards his body was near by.

Wild disorder reigned about the jail as the mob gathered to wreak vengeance. The gate of the south wall of the massive structure was forced in with a bar of railway iron, used as a battering ram on the shoulders of the men, and after several attempts squadrons of men crowded their way within the walls. 1871 he was elected a bencher of the Sheriff McLendon was struck over the head with a chair within the jail door, and he was carried upstairs, placed in bed, and received medical attention. At 2 o'clock this morning his mortal remains were only ashes among the embers of the funeral pyre, upon which

Within the past week he made four attempts to commit rape, two being successful, one victim being a small colored girl three and a half years old, who was badly lacerated, and the other a married woman of his own color. Green Goods Active. Chicago, July 24 .- Probably on the

principle that when legitimate currency is scarce the time is ripe for a liberal dis tribution of counterfeits. Numerous "green goods" men in the east have resumed operations, and are flooding the mails with letters to various people in western points offering bargains in counterfeits that according to their statement the best bank clerks or experts cannot tell from the genuine. Apparently the fraternity has numerous agents or representatives in the west through whom it is furnished with names, as in nearly

every case communications are addressed to people that have recently arrived from some foreign country and are looking about for some opening in which to invest their small capital. Prospective purchasers are guaranteed a net profit of ten to twelve hundred per cent., according to the amount they buy. The letters plausibly set forth that there is nothing wrong in the business because the government has millions of the people's noney uselessly and unjustly locked up in the treasury. Despite the fact that the gang is compelled to make use of the United States mails in the furtherance of its nefarious schemes its letters are so cunningly worded that even if arrests were made it would, in the opinion of lawyers of experience, be difficult
