ASSIST UNEMPLOYED BY MEANS OF TARIFF

U.S. Manufacturers Strongly In Favor of Protection
CHICAGO, Sept. 29.—A demand for the immediate enactment of an adequate protective tariff bill was voiced tonight in resolutions adopted by more than 1,000 manufacturers from over 18 states, who attended the national conference of state Manufacturers Associations.
"The remedy for unemployment is more work in our factories," the resolutions declared, "which is not to be expected as long as a large portion of our industries are paralyzed by the failure of Congress to complete the pending tariff legislation."

BOSTON EMPLOYERS INVITE TROUBLE

An advertisement for conductors and trainmen for service on the Bangor and Aroostook Railroad in the event of a strike of train crews was published in morning newspapers at Boston. It read: "Wanted—Conductors and trainmen for services on the Bangor and Aroostook Railroad in case of strike, vice-president of trainmen's organization having been quoted in press as stating there would be an immediate strike if the members so wished, which seemed practically certain."

Trade Union Membership Shows Immense Total

Geneva, Sept. 28.—Statistics just published by the International Labor Office show that the total membership of trades unions in Europe, except Russia and the Balkans, and in Canada, South Africa, Argentina and Peru, now exceeds 22,000,000. The United States trades unions are not included. The metal workers head the list with 4,600,000 members; the transport workers come second, with 3,000,000.

TRIDENT enclosed gear train construction does not decrease the efficiency of the Trident Breakable Bottom. The protective compound, having a lower freezing point than water, still further reduces the likelihood of damage to the gear train. Exhaustive tests under service conditions have proved these statements.

Flooring That Wears

There are few floors that are subject to greater vibration than those in our Sheet Metal Factories, yet they show no effects of the strain. This is because they are covered with Rock Mastic Flooring. Rock Mastic is elastic and resilient, so does not crack easily and is dust and damp-proof. Rock Mastic will withstand heavy traffic and the constant vibration from heavy machinery. Prices and particulars gladly given upon request.
