

## NEW COLLEGIATE BUILDINGS.

The Committee appointed at the Annual Meeting in June last, to take steps for the purpose of raising funds for erecting a College Hall, Library, &c., have since that time held several meetings, and made some progress in the work entrusted to them. They have adopted a plan designed by Mr. George Lang, and are about making arrangements with him for the immediate prosecution of the work. They take this opportunity, however, of reminding the Alumni and friends of the College that they are still far short of the sum required for this purpose, and they earnestly beg that those interested in the welfare of the College will come forward with their subscriptions in aid of this most necessary object.

OCTOBER, 1861.
