

The Acme Motion Picture Projector

Will project 10 x 12 foot picture. Equipped with fireproof safety magazine. Takes 1,000 foot reels of standard film. MOTOR DRIVEN—FAN COOLED

The Dynelectric Electric Light Plant

Weighing only 200 lbs., will give 900 watts of electricity. This equipment works with excellent results for motion picture projection.

The above equipment is identical with that used on the tours of Canadian Forestry Association's Cars.
