

while our young people, with endowments
with other talents have gone across the
border. The trouble is we have not
a full orbed development.

The Americans on a royalty basis ~~take~~
or a low price take our raw materials
across the border. Manufacture with
their labor and sell back to us the
finished product at a high price.

The man that thinks does ~~not~~ fault
the shrewd Americans, he faults Canada

The labor on the goods is in the U.S.A. and
in many cases Canada educated the boy
who expend labor in the U.S. on our

Canadian raw material and in addition
to this the profit from the sale of the
finished product goes to the U.S.A.

Has not an economic mistake made
our immigration policy worse than useless?

In October 1925 Regina Leader quoted
figures previous year. 586,000 came into Canada
and 572,000 went out.

How can we get population and Rep.
