Verna Sheldon won the second prize for her very graceful and artistic rendition of a very difficult selection, "The Sioux Chief's Daughter." Bertha Burton recited "The Fate of Virginia" and was awarded third prize. Vida Adams gave "The Last Hymn," and won the plaudits of the audience, introducing the singing parts with fine effect. Edna Carscallen always a favorite, recited "The Engineer's Story," and the redoubtable Heber M. Cockfield concluded the contest with the time-honored "Boadicea." The judges of the afternoon were Rev. Dr. Battisby, Rev. Rural Dean McCosh, and J. W. White, chairman. The school office was crowded during the day with applicants for the July examinations, and \$5 bills were heaped upon the office table. All applications must be in on or before the 24th of May. It is encouraging to mote that there is an unusually large class—some twenty in all—entering for commercial-diplomas. This is a tribute to Mr. Collins' inspiring and energetic work. Besides a good class for junior leaving (second class) and matriculation examinations, there are some strong candidates for senior leaving (first class) and honor matriculation, including two Blake scholarship competitors.

All reading notices of local an-nouncements must be received at this office not later than noon of the day on which it is desired that they ap-pear in The Planet.

PAYEMENT COUNSEL

To the Editor of The Planet:

To the Editor of The Planet:

It appears to me that the ratepayers of King street west will be making a very costly error if they put down a sheet asphalt pavement. The experience of Datroit should be ample warning. The cartoon in the Detroit Free Press very fully illustrates the condition of their streets using such a pavement. In the interest of the whole city, carefully investigate the matter, as its not a, work for this year, but for many years to come. I think Mayor Maybury, of Detroit, condemns sheet asphalt.

T. A. SMITH:

PAVEMENT.

Walter T. Piggott, Chairman of the Industrial committee, is in receipt of the following letter:— Mr. Walter T. Piggott, Chatham, On-

tario, Canada; tario, Canadal.

Dear Sir,—Your favor of May 8th
just received. We taken pleasure in
giving you all the desired information in regard to our work in Mont-

tion in regard to our work in Montreal.

We laid a sample of Asphalt Tiles in front of the Windsor Hotel some ten or twelve years ago, and they have given perfect satisfaction ever since, and are now in fine shape. On the strength of that record we got the Street committee last summer to lay quite a large sample of our Asphalt Blocks in front of the Grand Trunk Offices on Craig St. That pavement was laid about the first of November and is in first-class condition to-day.

was faid about the first of rovement and is in first-class condition to-day.

We can explain the Mayor's hostility to this. The present Mayor of Montreal (Cochrane) for a number of years has been closely identified with the Sicilian Asphall Pavement Co. and the Sicilian Asphall Pavement Co. and has used his best efforts to prevent any Asphalls Blocks being laid in the City of Montreal, for purely personal reasons. This is well known by the public at large and is no secret. Of course the price of all our blocks delivered in Montreal, after paying a 20 per cent duty is higher than sheet asphalt, and consequently, we do not expect to be able to ship large quantity. expect to be able to ship large quantities of our Blocks from our works at Hastings-on-Hudson, N. Y., but we hope after the sample laid there has been down a year or so, that we will be able to secure contracts sufwill be able to secure contracts sufficiently large enough to warrant the erection of an Asphalt Block plant in Montreal. We have laid large quantities of Asphalt Blocks in Quebec during the past five years, and the present Mayor, Mr. Parent, is well known all over Canada as being a very upright and strictly honest man, and one of the foremost political leaders in the Province of Quebec. The City of Quebec laid Sheet Asphalt several years ago, but concluded it was

City of Quebec laid Sheet Asphalt several years ago, but concluded it was too slippery, and they have been laying Asphalt Blocks exclusively for the last four or five years, though the cost has been not less than 50c. a square yard more than sheet asphalt. We are laying large contracts in this city, amounting to about 200,000 square yards, which is mostly petitioned and paid for by property owners, in spite of the fact that our pavement costs from 25c, to 50c. a yard more than sheet asphalt.

Should you like any more information in regard to the kinds of pavement used and the wearing qualities of same, in this part of the country, we shall be glad to furnish you with such.
