For You—a wonderful Book on Farm Drainage—FREE!

Do you know you can take as much crop off 100 acres properly drained as you can off 200 acres not drained and save half the labor? It's a fact. Do you know that proper, inexpensive tile drainage assists pulverization—lengthens the season prevents surface washing—makes your land lighter to work—prevents drought and increases the quantity and improves the quality of your crops? Why not have us send you, today, free of charge, a very interesting booklet on this subject? Much to learn—nothing to pay. Don't neglect anything that will help you grow better, bigger crops. Proper drainage means as much as two dollars in your bank account for every one that goes there, now, and the Government lends you money for the tile if desired. Write us today. Mention this paper. Your book is waiting.

ESSEX FARM SEED CORN

Why has corn grown from Essex Farm Seed Corn won more prizes in Field Competition in Canada than all others combined? This is not an accident. There is a reason and the reason is this: Corn with vitality does the growing. Corn with breeding does the yielding. Vitality is maintained to the highest degree by a seed corn house—the largest in the world, which are built with the one idea of maintaining vitality. Essex Farm Seed Corn breeding means the same thing to corn as a wonderful yearly milk and butter record does to a dairy cow. Some one of the following five varieties grown here will be what you want to insure a bumper 1915 crop.
