

Frost & Wood Mower

It's a sure crop getter, because it embodies 80 years' experience of Canadian Hay Crop conditions.

The F. & W. Mower is sure to give you splendid service for many years to come. It is very easy on your horses, and it's so perfected mechanically that it is always ready for work, and rarely calls for repairs or adjustments.

Think what it means to look out at a heavy, and perhaps tangled hay crop, and be able to say, "My Frost & Wood Mower will go through that alright." Most mowers will cut a nice, standing crop but you don't always get that kind—your Frost & Wood, will handle the other kind too.

Take Our "Internal Drive" Gear, For Instance—

It transfers the power from the drive wheel to the cutter bar—it is on the inside, revolving in the same direction so that it never loosens, rattles or breaks its cogs. Heavy brass bushings are proof against years of hard wear while splendid roller bearings make light draft. The heavy, high-carbon steel cutter bar can be set in a second at any angle, and the knives continue cutting even when raised to clear an obstruction saving time and crop.

Too many good features to even list them here. Let us send you our newest folder on Frost & Wood Mowers, Rakes and Loaders.

ALPHA GAS ENGINE has angle bearings

This is the bed of the Alpha Gas Engine, showing how the main bearings are angled.

You can leave the caps off and still run the Alpha—because the thrust of the piston is on the frame itself, not on the caps or the bolts. The bearings don't need to be over-tight, and as they are made of highest grade babbit they will last for years.

Every other detail is worked out with the same care to make the Alpha reliable, easy to start and hard to get out of order.

Send today to nearest office for Gas Engine Book and learn how a first-class engine is made—you'll enjoy reading it.

Tell Your Dealer You Want

Shinn-Flat

and

Shinn's Cash Bond

Shinn-Flat prevents Lightning Losses. It enables the electricity in the building to gradually pass from the heavily charged ground into the atmosphere above the building—relieving the strain on the building caused by the attraction of the electricity in the cloud above, and removing the conditions that cause the Lightning Stroke.

Shinn's Cash Bond is issued by a large Bonding Company to the owner of every building protected by Shinn-Flat, guaranteeing that Lightning will not strike. This is the only company that covers the work of its representatives by a Cash Bond. Shinn-Flat is the only Lightning Conductor made in the form of a flat cable, which eminent electrical authorities all say is more efficient. It has 86 per cent more conducting surface for electricity than any round cable containing the same amount of material. Write for free booklet on Lightning, Cause and Control.

This Engine Will Cost You Nothing

You need an engine—get a Gilson on our new easy payment plan, and it will pay for itself. You have the work for it to do this fall and winter, help is scarce and high-priced—save yourself a lot of worry, and enjoy that "Feeling of Security" which is such a definite part of the staunch, reliable Gilson Engine.

Gilson Engines have long enjoyed an indisputable reputation for dependability, power, simplicity and economy. This year finds us with an even more attractive proposition for the discriminating buyer. Prices of everything you have been buying have been soaring, but by careful management we are able to furnish Gilson Engines at remarkably low prices. Write to-day for catalogue, price, and easy payment plan, stating what size you are interested in.
