SALT

DESTROYS

Weeds and Insects!

A HEAVY dressing of salt is the most effectual means of exterminating weeds and insects. Autumn applications are strongly recommended for this purpose. One thousand pounds per acre is necessary to destroy wireworms and deep-rooted weeds. We have a few cars of first-class refuse or land salt on hand.

FREEMAN'S THREE-PLY READY ROOFING

Great Reduction in Prices. Send for Price List, etc.

Parliament Buildings, Toronto,
October 20th, 1898.

THE W. A. FREEMAN Co., 57 Ferguson Ave., South,
Hamilton, Ontario:

Gentlemen,—Nine years ago I purchased from you a large quantity of material known as Freeman's Ready Roofing, with which I roofed the north half of my barn and two sheds, 63x20 each. This year we re-painted this roof and found it in excellent condition. A shingle roof put on part of the barn two years before was badly in need of repair. I shall hereafter use your ready roofing on all my out-buildings.
Yours truly,
(Signed) F. W. HODSON.

The Farmers' Binder Twine Co., Ltd.

BRANTFORD, ONTARIO.

Take this medium of impressing upon the users of twine the importance of not buying a single pound outside of their agents, for the harvest of 1899, if this co-operative movement of three thousand farmers is to be held in existence for future competition. There is no necessity to say anything further. Every intelligent man in the country understands the importance of this advice, and if they have not already found it out, the sooner they get there the better for themselves.

THIS is the Company that sold you, as farmers, their entire output of last year (1,500 tons of twine) at HALF what others were charging.

ROCK SALT for horses and cattle. Per 100 lbs., 70c., or 500 lbs., \$3.00, Toronto. Cash with the order. Also in car lots.
