THE PRINCE SUNBEAM 1866

The Source of Health,

STRENGTH AND VITALITY IS THE FOOD SYSTEM.

Dr. Chase's Nerve Food

ENSURES PERFECT DIGESTION AND ASSIMILATION

It matters little how much food you eat so long as the digestive system is not in condition to convert it into blood and nerve force.

When the nervous energy is consumed by disease or by excessive mental or physical exertion, the nerves and muscles which control digestion are unable to do their work and the food is allowed to ferment and become a burden instead of a benefit to the system.

DR. CHASE'S NERVE FOOD IS THE MOST RATIONAL TREATMENT FOR INDIGESTION AND DYSPESIA THAT WAS EVER CONCEIVED.

By forming new blood and creating new nerve force it strengthens and invigorates the nerves and muscles which control the flow of gastric juices and the contracting motion of the stomach which is necessary to digestion.

It would be impossible for any treatment to go more directly to the cause of trouble.

While revitalizing and re-energizing the principal organ of digestion—the stomach—Dr. Chase's Nerve Food also sharpens the appetite, enlivens the action of the liver and has a gentle laxative effect on the bowels.

MRS. E. J. FORSYTH, 62 Elm St., Toronto, says: "My trouble has been acute indigestion and severe attacks of headache, as well as nervousness, and at times spells of dizziness. After having thoroughly tested Dr. Chase's Nerve Food I can say that it has cured my stomach troubles, and, as a result, the other symptoms have also disappeared. I consider Dr. Chase's Nerve Food the best treatment for indigestion, as well as being a splendid general tonic."

Dr. Chase's Nerve Food, 50 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto. The portrait and signature of Dr. A. W. Chase, the famous recipe-book author, are on every box.

JAMES SMITH, W. D. FLATT, Manager. Hamilton, Ont.

THE SPICE OF LIFE.

Something you have known you ought to do for a long time. Stop dreading and dig into it, and see how foolish you have been.

If you can keep serene through little annoyances, you need never fear great trials. They may come, but you will always be prepared.

"Standing off" the thing you ought to do now, means that you may put twice as much time into dreading it as it would take to do it.

"Oh, my friends!" exclaimed the orator, "it makes me sad when I think of the days that are gone, when I look around and miss the old familiar faces I used to shake hands with."

How did you get your father to let you take painting lessons?" asked the first Chicago girl. "I couldn't get mine interested at all."

"Neither could I when I talked of paints," replied the rich pork-packer's daughter, "but when I called them 'pigments' he cocked up his ears."

Gladstone, once, appealing to Earl Granville as to how the latter had voted on a certain long-forgotten bill, was astonished by the reply that the matter had escaped memory.

"You have forgotten!" exclaimed Gladstone, "Why, it was only forty years ago!"

The old friends had had three days together. "You have a pretty place here, John," said the guest on the morning of his departure. "But it looks a bit bare yet." "Oh, that's because the trees are so young," said the host comfortably. "I hope they'll have grown to a good size before you come again. Then you'll see how much improved the place will be." And they shook hands with mutual affection and good will.

"Did you vote?" "Yes, but it won't count."

"Why?"

"Well, yesterday when I left the house my wife gave me a letter to stamp and put in the mail box. When I reached the polling place I took my ballot, went inside, pulled out a stamp, placed it in the circle, folded the ballot and saw it placed in the box. It was not until I had been at work a couple of hours that it dawned upon me what I had done. I just posted the letter now."

Frederic Remington recently met a young Englishman who is travelling in this country and is not averse to acquiring information. The subject of bucking bronchos came up, and the Englishman said:

"I've read that in riding those wild horses of yours the main thing is to keep cool. Has a good moral effect on the beasts, I've been told. Is it true that your riders sometimes roll a cigarette and light and smoke it while riding a vicious buck?"

"Oh, that's an ordinary occurrence," replied Mr. Remington, easily. "But when I was in the West if a cowboy wished to subdue a particularly dangerous animal, he would mount him with a razor, brush, hand-mirror and so forth, and while the creature reared and kicked, the man would proceed calmly to shave. That's when you get your fine moral effect."

A Boston entomologist, who has shown the toad to be one of the farmer's friends, said recently: "The toad has been misunderstood in the past, as much misunderstood as a certain friend of mine, who was taking a walking tour."

"One night he put up at a small country hotel. The next morning, at breakfast, the landlord said to him:

"Did you enjoy the cornet-playing in the room next to yours last night?"

"Enjoy it!" my friend sneered. "I should think not. Why, I spent half the night pounding on the wall to make the man stop."

"It must have been a misunderstanding," said the landlord, sorrowfully. "The cornet-player told me that the person in the next room applauded him so heartily that he went over every piece he knew three times."
