Best for Butter

Windsor Salt will make money for you in two ways. It makes better butter—richer, tastier. As it dissolves quickly, and works in easily and evenly. It cuts down your salt bills, because it is absolutely pure, and requires LESS to properly season the butter. The first trial will prove this. Your dealer has Windsor Salt or will get it for you.

THE I. H. C. MANURE SPREADER

lays claim to superiority of design, construction and actual spreading ability. It employs the well-known and reliable chain drive, applies power from both rear wheels, thus avoiding all side draft and uneven strain on machine and mechanism. Can be thrown in or out of gear while in motion with absolute safety, as there are no gears to break by sudden meshing. Steel tracks for apron and the three sets of apron rollers insure free, easy motion and freedom from buckling. Apron speed regulated to ten different feeds—Three to thirty loads per acre. Changes in feed made instantly while spreader is in motion. The I. H. C. Spreader is the only one with a single lever controlling perfectly every operation of the machine. It is the only spreader with a vibrating rake which serves to level the most uneven load and results in perfectly even distribution. Solid steel axles. Front wheels out under—can be turned in its own length. Steel wheels, broad faced tires, with traction lugs on rear wheels. Unusually strong all over, and of exceeding light draft.

The I. H. C. Spreader spreads all kinds of manure rapidly, evenly and perfectly. It matters little if manure be strawy, chaffy, packed, caked, wet, dry or frozen, this machine will tear apart and distribute it upon the land evenly. It will handle fine, composted manure for top dressing in the most perfect manner, and even the presence of corn stalks in the manure does not prevent the excellent quality of its work. It is the greatest labor saver of the age. Made in three sizes, 24, 35 and 75 bushels. Our nearest agent will supply you with printed matter, prices, etc. See him before buying, or write nearest branch house.

We have lengthy lists of choice improved and wild lands in the Edmonton and Vermilion Valley districts that are rapidly rising in value with the advent of railways into Central Alberta. Many of these lands are situated near new C. N. R. town-sites. Money invested now will double in a few years.

We also handle city property extensively. The city is developing rapidly, but on a sound basis. Much property here has doubled in value within a year. It will likely do so again.
