

engaged in searching his premises for smuggled liquor. It appears that Rowe gave them permission to enter and search his house. During which they discovered two barrels of liquor containing 47 gallons of liquor. These Rowe refused to permit them to carry away, and the officers perceiving this, he assaulted them with a cudgel, and also several pistols, threatening to shoot them. Mr. Griffith, one of the officers, received a cut on the head and one on the arm, when he drew a pistol from his pocket and shot Rowe in the arm. Rowe and his wife, and a man named Moore, living at Black River, who also assisted the officers, were afterwards arrested, and an examination was held yesterday before the Police Magistrate, when the parties were committed to goal to take their trial. As the court is now sitting, we suppose the case will be brought up in a few days, and in the meantime we shall offer no comments until the matter is brought before the court.—16.

**Mechanics' Institute.**—On Monday evening at the Rev. Mr. Wislart entertained a large audience, with an excellent lecture on *Invention*. This Gentleman has the happy faculty of interesting his hearers in any subject he undertakes, and although on the present occasion he left altogether unnoticed or passed over many of the great inventions which brought forth the great inventions of the world, he yet produced one of the best lectures ever delivered in the Institute, and which appeared to gratify all who heard it.

Mr. Wislart will lecture next Monday on *Prejudice*, and we anticipate another rich treat for our citizens.—St. John N. B. Courier, 12th.

**THE WATER COMPANY.**—The advantages which have attended the introduction of water into this City, composed as it is, in a great measure, of wooden houses, are too obvious to require any comment at the present time, as independently of the benefit to the health of the community that a plentiful supply of water is, it has been very frequently the means of preventing fires assuming that serious aspect which they otherwise inevitably would have done, and which, of late, have been generally checked at the commencement.—No doubt a considerable deal of this may be ascribed to the very efficient state that our Fire Engine Companies are gradually progressing to, having attached to their engines some of our most active and energetic young men, each of the different companies seemingly emulating one another in their exertions to be first at the scene of danger and to put a stop to the devouring element. Our object in alluding to the subject at present is to point out that with all these advantages, when a fire occurs at night, the danger that attaches to the present system of shutting off the water during the night, which is the time that fires most frequently occur at this season of the year, owing to stove and fires being more resorted to at present than at other periods,—more particularly should the fire happen to take place in some of the high-er portions of the City, where the wind is generally stronger, and where the water takes a much longer time to reach, than in the lower part of the town, for without a supply of water the activity of the Engine Companies is thrown away to a certain extent. This could very easily be remedied by a number of fire engines and others being generally in motion, subsisting together the small sum of Thirty or Forty Pounds, the amount of the expense being met by some of the parties for the relief of the Water Company's affairs, to defray the additional expense that the Company would be subjected to, for the purpose of keeping the water on all night.

We trust that some measures will be taken immediately to carry this out, as it cannot be expected that the Water Company can do any more than it has already done for the public without some increased support, and the sum required at present is a very small one, compared with the amount of the sum which would be required to keep the water on all night.

We learn from the above we learn with regret that the Directors of the Water Company have refused the offer to supply the supply of water in the City on the 1st May next, as it is quite impossible for them to continue it under present circumstances. They have not yet been able to raise the sum of £100,000, which was subscribed for the purpose of their exertion to supply the water in the City, and they are in the midst of raising the sum of £50,000, who have already contributed £25,000, and they are only one of £25,000 more to be able to supply the water in the City, and they are in the midst of raising the sum of £50,000, who have already contributed £25,000, and they are only one of £25,000 more to be able to supply the water in the City, and they are in the midst of raising the sum of £50,000, who have already contributed £25,000, and they are only one of £25,000 more to be able to supply the water in the City.—17.

**Robbery.**—A daring robbery was committed last evening at the premises of Mr. J. G. H. in the street. The value of the property stolen was estimated at £100, which the thieves carried off in a gold box. Congress will unquestionably take some action on this subject, and make honorable mention of the generous conduct of this officer. He staid by the burning ship seven days, and it is through his humanity and perilous efforts that so many were saved from certain destruction.—New York Journal of Commerce.

**Prince Edward Island.**—A Public Meeting was held in the Market House last evening, at which the Committee of a new Society for the protection of Agriculture, Manufactures, and Commerce, submitted their Report, embodying the Constitution, and recommending the officers for the first year. The Report was received unanimously. His Excellency the Lieutenant Governor has consented to become Patron of the Society, and Professor B. B. of King's College, is chosen President. It was understood that the objects of this Society might, it is to collect and disseminate information upon Agriculture, &c., and hold a Provincial Fair annually. It is not intended to protect home industry by advocating restrictive measures.—Fredericton Anacanth.

**PRINCE EDWARD ISLAND.**  
The Chapel of the Wesleyan Methodists of this Town, as an incident of the Loyalty which has ever distinguished that body, was put into mourning on Sunday last, on occasion of the death of her late Majesty the Queen Dowager.—Gazette, 12th.

**PRINCE EDWARD ISLAND.**—It is said that Peninsulars will be enrolled and formed into local companies, under the command of an experienced officer, for service in this colony. This arrangement, if carried into effect, will completely put a stop to the desertions which are continually taking place from the detachment stationed in the Island.

**Mechanics' Institute.**—The Hon. Charles Young, President of the Institute, delivered the opening Lecture on Wednesday evening last, at the National School, "On the Perfection of the Deity, as displayed in the Planetary System." T. Heath Haviland, Esq., took the Chair.

The Rev. Mr. RAND will lecture next Wednesday evening on "The History of the Indians."—16.

**DISSOLUTION OF THE ASSEMBLY.**—His Excellency the Lieut. Governor of P. E. I., we perceive has dissolved the General Assembly, and has given orders for the issue of Writs for the election of a new House, returnable the 1st of March next. The P. E. Islanders we imagine must have been taken by surprise, by this Proclamation. So it is—and so it will be.—to the end of the chapter. Let them, in the mean time, do their duty, and all will be well.

There were built on the Island during the past year 83 vessels, whose tonnage amounted to 11,826 tons, being an increase over the year 1845, of 1,191 tons.—Review.

**UNITED STATES.**  
**FAVORABLE POSITION OF THE NICARAGUA QUESTION.**—*Herald,* Jan. 6.—The British Minister has had a long and successful negotiation with the U. S. Secretary of State upon the subject of his mission. The Nicaragua question will no doubt be amicably settled, and the right of way for a canal will be guaranteed both to the United States and Great Britain, and Sir Henry Lytton Bulwer will view Mr. Cayley as acting on the coast of Honduras, respecting Tigre Island, &c.

**COMPLIMENT TO A GENEROUS SAILOR.**—Capt. Cook, in the English barque *Sarah*, who had on board large quantities of goods, the officers on board the ship "Caleb Grimshaw," is daily expected to arrive at this port. In the Board of Aldermen last night a vote of thanks for his heroic conduct, was ordered, and the freedom of the city is to be presented him in a gold box. Congress will unquestionably take some action on this subject, and make honorable mention of the generous conduct of this officer. He staid by the burning ship seven days, and it is through his humanity and perilous efforts that so many were saved from certain destruction.—New York Journal of Commerce.

**ADVERTISEMENTS.**

**ADVERTISEMENTS.**—Not inconsistent with the professional character of our Paper, inserted on the following terms:—A square of text, first insertion, 3s. 6d. and each subsequent insertion, 2s. 6d. Larger advertisements in proportion. Notices on the usual terms. Yearly advertisements inserted on moderate terms. The price to be fixed according to their size and frequency. As this Paper will circulate extensively through all parts of Nova Scotia and New Brunswick, and in Prince Edward Island, it will form a desirable medium of advertising. Advertisements not limited will be continued until ordered out, and charged accordingly.

**STAR LIFE ASSURANCE SOCIETY, OF LONDON.**  
Capital Stock £100,000 Sterling.  
Chief Office, 44 Moorgate Street.  
TRUSTEES:  
James Hunter, Esq., Compton Terrace, Islington.  
Frederick Milford, Esq., Banker, Nicholas Lane.  
Thomas Sands, Esq., Liverpool.  
Chairman of Directors,  
Charles Harwood, Esq., F.R.S.  
Recorder of Shrewsbury.  
Dy. Chairman, John Josiah Buttress, Esq., Agent for Nova Scotia.  
DANIEL STARR,  
Medical Examiner, R. S. Black, Esq., M.D.

The Agency of the above Company has been in operation in this Province about 4 years, and has made considerable progress, without yet having a claim, the rates are generally lower than any other London or Scotch Company, and the proportion of profit divided among the assured greater by far than any other, being 10 per cent, 10 per cent to the Stockholders, rendering it at once both a Stock and mutual Society without any risk to the assured; their first Bonus declared in May last were in some cases over three per cent annum on the amount of Policy. And on two Policies at this agency on which three annual premiums only had been paid, the Bonus added was over 62 per cent on the amount paid in, the mortality among the lives assured by this Society were found to be 21 per cent, less than had been calculated for. The above are facts in favour of the "Star" which cannot be controverted, and should be recommended to the favourable consideration of all parties intending to insure. Policies effected on the participating principle allowed to engage in the payment of 3 annual premiums, (twelve days allowed for the renewal of Policies after becoming due, and Policies expired on day or day within six months, if the parties be not then impaired and the payment of a small fine—a credit of one half the premium when amounting to a certain sum, may be obtained for the first five years. No extra charge made for crossing and from England in Steamers, or first class sailing vessels at any season, advising the Agent of the parties intention. Policies are sent out by first steamer after arrival of Proposals. The office of the Society of this Province is held at Wesley's in particular, is requested to the favourable terms and privileges offered by the Society above enumerated. It is admitted by all that it is the duty of every person having property or interest in it to provide for their families by insuring their property so to do, and in no way can this be done so factually or cheaply as by paying according to their means a sum annually on a Life Policy. It is admitted that a person who has property in the world and children, and so very much interested in the life and health of which we have recently had many sad proofs, that delay in these matters is exceedingly dangerous, the only time to apply is while in health. Applicants will receive every information and attention to their requests by the Agent in Halifax, who furnishes all necessary Blankets, and Medical Examination, &c., free of expense to the applicant. All communications by mail must be prepaid.
