Heart to Heart

This is a department which is conducted for the benefit of our readers. The chief feature is the great variety of thought expressed. No contributions for this department are solicited, and none are paid for. They are all free-will offerings from the hearts of The Guide readers. It does not seem right that readers should be denied the privilege of perusing some of the letters which the editor receives, so they are here presented.

WISHES FOR SUCCESS
We wish you every success in the good work you are doing.—Alex. Boustinick, Lundbeck, Alta.

TRUTH IS NEEDED
I read your paper and I am glad to see there are a few "men" watching here and there who tell the truth and are not afraid to show to the faces of the politicians their misdeeds. Let us put them out of office if they don't do better.—Stewart G. Cole, Canfield, Sask.

HELPING US ALONG
I will hereby send you fifty cents for subscription to The Guide from now until January 1, and I wish you every success in your noble work.—John B. Carlson, Elbow, Sask.

STAY WITH IT
As I am a subscriber to your most valuable paper, I have seen many little sketches in regard to reciprocity and to think some people are so shallow minded as to call The Guide and The British papers and think they are the clearest and most straightforward I have ever had the privilege of reading, completely clear of politics on either side, and it is a shame for a man to say what we can see in print and so for reciprocity, certainly there is nothing else will do, with all other privileges the government will give us. Reciprocity forever and free immigrants and all of the other good things that go to help us support our country. Stay with your good work in The Guide. You cannot help but prosper; you have the people behind you.—L. J. Scheldt, Portage la Prairie, Man.

INFORMATION OF VITAL INTEREST
I fully realize the importance of your paper as the official organ of the G.G.A. It is a paper that should be in every farmer's home. Information on everyday topics that are of vital interest to the farmers is to be found therein, free from partisanship.—A. Mathews, Oakburn, Man.

DARES TO SPEAK THE TRUTH
I would like to say a word in favor of The Guide. It is the only clearest farmers' paper that we have seen. Its managing staff knows the needs of the farmer and they dare tell them even to government officials.—J. W. Commodore, Weyburn, Sask.

HELPING US ALONG
I desire to express myself in the good cause our paper is doing. Pay no attention to those who direct you to a different path.—The

only paper in Canada today that tells the workers the plain facts and truth. I have battled for it ever since I saw the first copy and am yet, and shall continue to as long as it stays on the side of right and justice.—R. Y. Woodford, Itasca, Sask.

NEED TRIED MEN
I feel that the people of Western Canada owe much to The Guide for the freedom of thought which it has handled the questions that are of vital interest to the common people of Canada. It has awakened the people to the need of more care in the selection of their candidates, and with the awakening has come the determination not to cast their people (ballot) before the voter but they turn and read them. In the past we have been content to stay at home and mind our farms while the party machine has selected our candidates to represent us in Parliament. The result is that we have let the Special Privilege class get steadily entrenched in Ottawa. So it is up to us to elect men who are staunch and true to our cause. Men who will at all times place country before party. Then, and then only, will we get a square deal. Then we will have Hudson's Bay route, free trade, government elevators, chilled meat and packing plants. The only protection Canada is in need of is protection from the greed of the Special Privileged classes. By quietly fighting we will soon win.—Merrill Stauffer, Hastings, Canada, Alta.

THOUGHT GUIDE A JOKE
When I first saw your paper I considered it more as a joke than anything else, but have changed my mind considerably since. I certainly admire the way you go after the politicians who are not properly doing their duty to their country and their constituents. Stay right with it, you have the sympathy and good wishes of the majority of the people in the West.

ED. TAYLOR.
