THE LONDON STRIKE.

London, Oct. 30.—The strike of the Street Railway employees is the overshadowing topic of interest in all circles to-day. Even in the churches in several cases the relations of employers and employees formed the topic of discourse, and prayers were offered that right and justice may prevail and violence be avoided. Manager Carr had an interview with President Everett over the long distance telephone, and the latter, who is in Cleveland and says he has not time to come to London instructed Mr. Carr to continue the fight against the men, spending \$50,000, if that sum should be necessary. Mr. Carr said he was prepared to carry on the fight until the crack of doom. If cars did not run in the city for the next ten days, the public would be glad to have them again, he thought. He could, if he chose, keep the cars in the barns for ten days, and in that time, he said, public sentiment would be turned in their favor. "No cars will run to-day," the manager said yesterday in reply to a question. "We will not run a car until we are assured of police protection. We have asked for it, but have not yet had a reply." The manager said they expected to run cars on Monday, but only in the event of police protection being assured. No cars started yesterday.

Four cabloads of men came in from Montreal yesterday morning and were taken to the car barns on Lyle street. Between 1 and 2 o'clock in the afternoon a mob of about one thousand, gathered around the barns, shouting "scab" and throwing stones and stale eggs through the windows. It is positively asserted that there was no attack until one of the 'new importations' appeared at the window flourishing a pistol. As a result every window in the barns and the company's office on Lyle street was smashed. Writs were issued by the city for a mandamus and injunction to compel specific performance against the Street Railway Company, requiring them to comply with provisions of the by-law to operate their lines. A reply was received from the company's solicitor that it was impossible to do so. Other legal steps have been taken against the company to enforce the by-law or otherwise have the charter cancelled. The company's solicitor states that the city will be held responsible for all damages caused by the mob.

Report from some of the wheat-growing sections in Ontario indicate a very rank growth. So much so is this the case that there is a danger of there being too much growth before the winter sets in. The fall wheat sown in August is likely to suffer the most, as the recent rains have caused a very rapid growth of the plant, and in some cases the wheat stock is beginning to shoot out. In cases of this kind it is considered advisable to pasture the crop and keep the growth down.
