Washington, Aug 19.—No general exemption of married men simply because of their married status, is contemplated by the war department in preparing for the proposed extension of draft ages, Secretary of War Baker declared to-day in a statement before the house military committee on the new administration man power bill.

Mr. Baker said his previous remarks on this subject had been misconstrued, and that married men who do not support their families and who are not engaged in a useful occupation, will continue to be called. "There are many married men in the country, who ought to go and fight as freely as single men," he added.
