The practical side of science is reflected in

PATENT RECORD

A monthly publication of inestimable value to the student of every day scientific problems, the mechanic, the industrial expert, the manufacturer, the inventor—in fact, to every wide-awake person who hopes to better his condition by using his brains. The inventor, especially, will find in The Patent Record a guide, philosopher and friend. Nothing of importance escapes the vigilant eyes of its corps of expert editors. Everything is presented in clean, concise fashion, so that the busiest may take time to read and comprehend. The scientific and industrial progress of the age is accurately mirrored in the columns of The Patent Record, and it is the only publication in the country that prints the official news of the U. S. Patent Office and the latest developments in the field of invention without fear or favor.

There has been a lot of hay out and housed during the last week. The most of the hay is a very heavy crop. Fall wheat and rye have been out. Some of the farmers have also harvested their early sown barley and report a very heavy crop. Some pieces of spring wheat and large fields of oats will average 5 feet in height. A few pieces of pieces of peas have a great growth.

Miss P. Halladay met with what might have been a serious accident while riding along the street on her bicycle the other day. She met a horse and in trying to get out of the way the horse ran into the bike, and got his leg caught some way so that the horse dragged the bike and girl some distance. The surprise is that the girl got off with but few scratches and not much damage to the bike.

PRESIDENT DOWSLEY ILL

At Frankville on Saturday evening, 19th inst., the directors of the Kitley Agricultural Society met in Wickware's hall. After having assembled it was noticed that something was wrong; the business did not seem to go on as lively as usual, on account of the illness of the genial president, "Uncle" David Dowsley, for whom every member of the board has the profoundest respect and sympathy in his prolonged illness. The following resolution was put and carried, and a copy sent to Mr. Dowsley:

Moved and resolved:

"That this Board learns with regret of the illness of our esteemed president, Mr. David Dowsley, who for the last fifteen years has filled that important position with so much satisfaction, both to his fellow members of the Board and also the many patrons of our fair. We sincerely hope to see him on hand at our annual fair in September and enjoying good health.

REAPERS FOR NORTH-WEST.

In connection with the arrangements for bringing the harvesters into the West, says a Winnipeg despatch, Hugh McKellar, chief clerk of the Department of the Department of Agriculture, has made the following statement:

"The question of supplying harvest hands each year to assist farmers in Manitoba and the Territories to gather their great crops is a serious question for consideration. The harvest hands of 1900 and 1901 are now in many instances owners of land in Manitoba today, and they themselves want extra help to garner their crops. The ever-increasing demand for help will continue for years. Farmers in many parts of the province are already asking for men, and asking what the local Government is going to do to supply them. The Department of Agriculture is taking active steps to secure all the information possible about the number that will be required, the same as was done in past years."

Last year 200,000 were wanted; over 18,000 came, and before the season was finished 4,000 or 5,000 more could have secured employment. Present indications are that as many, or even more, will be required this year.

The wages to be offered have not yet been fixed, but will probably be from \$26 to \$40 a month, and may go higher for the hired men before the work is done. Of course board and washing go with this wage.
