

Woman's Nerves

Give Warning of Approach of More Serious Trouble.

Do you experience fits of depression with restlessness, alternating with extreme irritability, bordering upon hysteria? Are your spirits easily affected so that one minute you laugh, and the next fall into convulsive weeping?

Do you feel something like a ball rising in your throat and threatening to choke you; all the senses perverted, morbidly sensitive to light and sound; pain in the ovaries, and especially between the shoulders; sometimes loss of voice; nervous dyspepsia, and almost continually cross and snappy, with a tendency to cry at the least provocation?

If so, your nerves are in a shattered condition, and you are threatened with nervous prostration.

Undoubtedly you do not know it, but in nine cases out of ten this is caused by some uterine disorder, and the nerves centering in and about the organs which make you a woman influence your entire nervous system. Something must be done at once to restore their natural condition or you will be prostrated for weeks and months perhaps, and suffer untold misery.

Proof is monumental that nothing in the world is better for this purpose than Lydia E. Pinkham's Vegetable Compound; thousands and thousands of women have written us so.

How Mrs. Holland, of Philadelphia, suffered among the finest physicians in the country, none of whom could help her—finally cured by Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—For over two years I was a constant sufferer from extreme nervousness, indigestion, and dizziness. Menstruation was irregular, had backache and a feeling of great lassitude and weakness. I was so bad that I was not able to do my own work or go far in the street. I could not sleep nights.

"I tried several splendid doctors, but they gave me no relief. After taking Lydia E. Pinkham's Vegetable Compound I soon began to feel better, and was able to go out and not feel as if I would fall at every step. I continued to take the medicine until cured.

"I cannot say enough in behalf of Lydia E. Pinkham's medicine, and heartily recommend all suffering women to try it and find the relief I did."—MRS. FLORENCE HOLLAND, 622 S. Clifton St., Philadelphia, Pa. (Jan. 6, 1902.)

Another case of severe female trouble cured by Lydia E. Pinkham's Vegetable Compound, after the doctors had failed.

"DEAR MRS. PINKHAM:—I was in poor health for several years. I had female trouble and was not able to do my housework alone. I felt tired, very nervous, and could not sleep. I desisted with several doctors. They declared me for my stomach, but did not relieve me. I read in your book about your medicine, and thought I would try it. I did so, and am now cured and able to do my work alone, and feel good. I was always very poor, but now weigh one hundred and fifty pounds.

"I thank you for the relief I have obtained, and I hope that every woman troubled with female weakness will give Lydia E. Pinkham's Vegetable Compound a trial. I have recommended it to many of my friends."—MRS. MARIA BOWERS, Millersville, Ohio. (Aug. 15, 1901.)

Will not the volumes of letters from women made strong by Lydia E. Pinkham's Vegetable Compound convince all of the virtues of this medicine?

How shall the fact that it will help them be made plain? Surely you cannot wish to remain weak, and sick, and discouraged, exhausted, and suffering from the derangement of the female organism, and Lydia E. Pinkham's Vegetable Compound will help you just as surely as it has others.

THE MARKET REPORTS.

Live Stock Fairly Active—Grain is Lower.

Tuesday Evening, Dec. 16.

The wet and sloppy weather prevented deliveries of produce on the street market to-day and no grain or hay was offered. Dressed hogs were quiet. Live stock unchanged, but dressed lambs were quoted higher at 90c to 75c per lb. Other prices are unchanged.

NOT DUE TO CLIMATE.

Catarrah is Found Everywhere.

Catarrah is at home anywhere and everywhere. While more common in cold, changeable climates, it is by no means confined to them, but is prevalent in every state and territory in the union.

The common definition of catarrah is a chronic cold in the head, which if long neglected often destroys the sense of smell and hearing; but there are many other forms of the disease, even more obstinate and dangerous.

Catarrah of the throat and bronchial tubes as well as catarrah of the nasal cavity and liver are almost as common as nasal catarrah and generally more difficult to cure.

Catarrah is undoubtedly a blood disease and can only be successfully eradicated by an internal treatment. Sprays, washes and powders are useless as far as reaching the real seat of the disease is concerned.

Dr. McVerney advises catarrah sufferers to use Stuart's Catarrh Tablets, because actual analysis has shown these tablets to contain certain anti-septic qualities of the highest value and being almost as common as nasal catarrah and generally more difficult to cure.
