

THE UNION ADVOCATE, WEDNESDAY OCTOBER 14, 1885.

N. B. Railway.

The winter time table of this railway commenced on Friday last. The flying Yankee, which is such a favorite with the travelling public has been discontinued, and the express now leaves the I. C. R. depot at 10.30 a. m. instead of 9.45 a. m. The night express for Bangor and points, which leave the depot at 8.30 p. m. in reference to improvements made in rolling stock, etc., the Woodstock General says—

The rolling stock and general equipment of the N. B. Railway are being added to and improved so greatly by Manager Gram and his official corps, that it now rivals in excellence of accommodation and comfort for passengers and freight traffic, the Intercolonial to the east, and Maine Central to the west. The new locomotives are superior machines, and the new coaches everything that the most fastidious traveller can desire.

That Tank.

The firewater should have the tank at the bottom of Street's hill looked to before winter sets in. If there is no use of having a tank there for fire purposes, then remove it, and place a spot and watering trough for the accommodation of those who depend on the water from the spring for household purposes as well as for watering horses, cattle, etc. For some time this tank has been open to enable persons to get water by dipping it out. This spring belongs to the town and is under the supervision of the firewater.

Bazaar.

The Bazaar in aid of the new Methodist Church in Chatham was held in the Chatham Skating Rink on Thursday last. There was a large attendance and the proceeds amounted to \$437. The World says—"The supper was excellent, and the fair was well attended, and many articles. The art gallery was well filled with pictures. The total receipts were \$437. This is a large sum to take in without the aid of lotteries or games of any kind."

Ashore.

Scholar "M. Lagun," built by Mr. E. Sinclair reported ashore opposite Three Rivers, on the south side of the St. Lawrence, on the 10th of September, and taken to Quebec. She sustained no damage and will at once proceed to Miramichi.

Our Roads and Sidewalks.—Mr. W. J. Miller has a deal of necessary work done on the roads and sidewalks about town during the past season and has concluded operations, having expended a large sum of money thereon.

Baking Powder.—On our 4th page to-day will be found a striking and instructive illustration of the comparative worth of the various kinds of baking powder now in the market.

Scott Act Repeal.—Frederick will vote on the repeal of the Scott Act on Nov. 12.

New Paper at St. Stephen.—The Enterprise, formerly of Woodstock, is now issued in St. Stephen, as a semi-weekly, on Wednesday and Saturday mornings.

Born.

At Newcastle, on the 9th inst., the wife of James Youngman, Esq., of a daughter.

Married.

At South Bay, on the 11th inst., by Rev. Isa. Wallace, A. M., Mr. ROBERT M. JOHNSON, and ANNA, third daughter of James Somers, Esq., all of South Bay, Northumberland Co.

At St. Margarets, Upper Bay du Vin, by the Rev. Father Boucher, Esq., of Lower Bay du Vin, Mr. JOHN HARRINGTON, Esq., and MARY JANE MURPHY, of Newcastle, Miramichi.

Shipping Intelligence.

PORT OF NEWCASTLE.

Oct. 8.—Bk. Jason, Olsen, 1,000, deals, G. Burdell & Son.

Oct. 8.—Sch. Viola, Geldert, New York, deals, G. Burdell & Son.

Oct. 8.—Onen, Nelson, Bourdeaux, deals, G. Burdell & Son.

General Intelligence.

THE NEWS CONDENSED.

The trial of Ferdinand Ward will begin on the 19th inst.

Mrs. Dumas, living at the Little Farm, Hall, Quebec, the other day gave birth to triplets, two boys and a girl.

Land within the limits of the city of London has been sold at \$640 per acre, or \$2,000,000 per acre.

A French transport full of soldiers has been forbidden to enter the Saint Charles on account of the prevalence of cholera on board.

No little excitement is caused at St. Albans, Vt., by the disappearance of Nelson Goodhue, a married man and father, and Nellie Lang, a highly respected young lady. They came to Canada.

James Burris, of Portsmouth, Ohio, aged 23, took arsenic to his chest and laid down on the levee to die. He was found, taken home, and pumped out successfully. All on account of a girl.

A medical journal states that a few handfuls of common salt thrown daily into wash-basins, goes far towards counteracting the noxious effects of the omnipresent sewer-gas.

A country visitor to the U. S. Treasury building walked into the elevator ignorant of its use, and when it began descending the shaft he assumed the tender, imagining that he had been betrayed into a trap and was being lowered into a dungeon.

St. Paul, Minn., Oct. 6.—Killing frosts extended south last night as far as Northern Missouri. This morning, early reports from Wisconsin and Nebraska and the south-west as far as Denver show a temperature of 29 degrees.

The cold wave is gradually creeping southward and reaching from the north-west. CHAMBERS PLACE, ONT., Oct. 6.—The Governor-General has arrived at the end of the C. P. Railway. The last forty-five miles he travelled by road, camps having been established from point to point by the company. The Rocky Mountain scenery is described as magnificent. The work on the gap is rapidly approaching completion.

It is stated that a new company is being formed in Quebec for the purpose of employing the falls of Montmorency as a motive power for all kind of machinery in factories, printing offices, etc., in this city. The power would be transmitted from the falls by electricity, and it is said that a large wheel has been secured for the new scheme.

The authorities of a London hospital have hit upon the novel idea of using their extra-ambulance for giving children and convalescent patients an occasional ride. This benevolent scheme has been found to pay well also, for the resulting improvements in health of the hospitalized patients has made it possible to give them an earlier discharge.

Minnesota has just passed a law under its establishment of the death penalty. Seven years ago a law was made to leave to the jury the decision whether the convicted murderer should be killed or imprisoned for life. The jurors invariably chose the latter punishment, irrespective of the atrocity of the crime. Then the plan of letting the Court designate was tried with no different result.

A Special from Green River, Wyoming says—"Some testimony of a startling character is given to the Grand Jury to-day which was calculated to throw new light on transactions at Rock Springs, Wyo."

ing the recent riot there. Rev. Timothy Thirdway, Congregational minister, who resided at Rock Springs with a family during the recent riot, made a sworn statement showing that the Chinese set fire to their own houses in order to prevent white men from robbing them of their money, which was buried underneath their dwellings. Subsequently events have shown that this was the case, for as soon as the Chinamen returned to Rock Springs they commenced excavating underneath the ruins, and in one instance over \$4,000 was found.

A CENTENARIAN DEAD.—There died at Portage River, in the parish of Hardwicke, Northumberland, on Saturday, the 29th Sept., Ellen Martin, wife of Louis Siple, in 88th year of her age, and on the following Friday, the 2nd inst., her husband, Mr. Louis Siple breathed his last. Mr. Siple has for years been considered to be over 100 years of age; the last census that was taken he gave his age then as 112. He was a native of Portugal and before he came to America had quite an eventful life. He has at different times been an inmate of English and French prisons a prisoner of war. He had been in different naval engagements and showed scars that he received in battles in which he had been engaged.

The millinery shop recently opened on Oxford street by Lady Granville Gordon has already become an established success. The initial patronage of the Princess of Wales set the fashion towards the aristocrat shop, and now a "Gordon bonnet" is strictly en vogue with a certain set. More recently a distinguished student of Gorton exchanged munitions for mantle making, and opened an establishment in York place, Portman square, near the Bedford College for Ladies, which is doing a good business. Other higher class women are following suit, and they are receiving support, in the hopes of securing an independent position for themselves in the world. This is a consolidation of a number of lectures which Dr. Hingston has delivered to select audiences. It will be interesting to Canadians to learn that Dr. Hingston's investigations have resulted in a verdict which gives Canada the highest place among the nations, in point of health, with patriotic pride.—Dr. Hingston looks for the development of the very finest of races on the Canadian soil.—Mail.

NEW YORK, Oct. 5.—Miss Lucinda Allan, who claimed that she had just arrived from Scotland, was arrested on Friday morning by Policeman Dooley, of the Congress-street Police Station. She was charged with the possession of a bottle of liquor, which she had drunk about half a pint of the liquid. She became very sick when placed in a cell, and was removed to the Long Island City Hospital, where the regular remedies for alcoholism were administered. She claims to be a sister of the late Sir Hugh Allan. Her brother-in-law she stated, was Captain of the steamer St. Patrick, of the Allan line of steamers. Miss Allan stated she had run away from home and left her husband. His name she would not mention. She also said she had no intention of committing suicide, but took the alcohol to cure a headache. She had a purse which contained a large amount of money. Miss Allan came to Brooklyn from Boston last week.

ANOTHER BANK DEFAULTER.

HALIFAX, N. S., Oct. 7.—A genuine sensation was created here to-day by the news that P. C. Clarke, cashier of the Union Bank of Halifax, was a defaulter to the bank and had been dismissed. This was confirmed to the Gazette correspondent in an interview with directors of the bank. The deficiency is over \$33,000. The directors were hoodwinked by false balance sheets which reached over a series of years. The directors had perfect confidence in Clarke and both were greatly surprised and shocked, at they at deception and fraud, and that a dishonest attempt had been made with some of the leading Halifax families and has been trusted official in the Union Bank for about five years. His friends have given security for the deficiency and it is probable he will escape prosecution. He has been living very high for some years past, but this was explained or apologized for on the ground that his wife had a private income. The Union Bank directors are Hon. W. J. Stairs, Hon. Robert B. Williams, Hon. John Gibson, George R. Anderson, Martin Black and J. A. Moore. The authorized capital of the bank is \$1,000,000, but only half that amount is paid up. The reserve is \$400,000, in which the defalcation will make a pretty big hole.

A DYNAMITE OUTRAGE.

ORANGEVILLE, ONT., Oct. 7.—About one o'clock last night our citizens were aroused by two loud explosions, which occurred within a few minutes of each other. On investigation it was found that a dynamite explosion had been made to wreck two private residences in town, one occupied by our newly appointed Magistrate, Mr. F. Munro, and the other by Mr. Thomas Anderson, Provincial Constable. The cause of the outrage appears to be the commencement of prosecutions against violators of the Scott Act by these officials. The front doors of both houses were blown in and all the glass in the windows broken. Fortunately no injury was sustained by the occupants of the house except the natural fright caused by the explosions. Great indignation is expressed on all hands against the scoundrels who committed the crime, and a public meeting, called by the Mayor, is to be held this evening to give expression to the indignation felt, and to adopt prompt measures for the detection and punishment of the guilty fiends.

Quitting Parties are very popular and are held every night at the new hotel. The power would be transmitted from the falls by electricity, and it is said that a large wheel has been secured for the new scheme.

The authorities of a London hospital have hit upon the novel idea of using their extra-ambulance for giving children and convalescent patients an occasional ride. This benevolent scheme has been found to pay well also, for the resulting improvements in health of the hospitalized patients has made it possible to give them an earlier discharge.
