The conciliation meeting in St. George Friday night between the granite cutters and manufacturers did not change the strike situation. The cutters insist on an eight hour day, and will settle on no other basis. The manufacturers refuse to grant it. It is said that twenty-five cutters have secured work on the bridges on the T. F. Railway. An application for a charter will be made to the Granite Cutters' International Union. If this is granted the rate of wages will be considerably higher than is now demanded.

The Women's Guild of St. Peter's Church, Derby, held a sale of work and tea in the Temperance Hall Wednesday afternoon and evening. It was an unqualified success. Over a hundred and thirty sat down to tea, the waiters being kept busy from half past five till eight o'clock. The supper was an excellent one and the ladies have earned an enviable reputation as caterers. The amount realized will be about ninety dollars. The members of the guild wish to thank the members of the Churches not only for their material assistance but for their presence.

WOULD CONCENTRATE MISSION WORK.

At the 10th District Baptist meeting at Beaktown on the 23rd, a resolution introduced by Rev. P. J. Stackhouse provided the opportunity for a spirited discussion, that was enjoyed by all, and finally passed with only three dissenting votes. The resolution was: "Whereas the present system of a separate Home Mission Board for New Brunswick is unnecessary in that it multiplies extra machinery, involves extra expense, divides denominational work, and is contrary to the spirit of our convention plan, therefore be it resolved that it is the consensus of opinion of this Tenth District meeting that the time has come to take the Home Mission Convention and to thus consolidate the Home Mission work of the three provinces under one Board."

When the great Cole Brothers' Show comes to Newcastle on Thursday July 9 it will bring with it Prof. Chas. M. Timney's famous band of forty musicians. This band needs no introduction to music lovers for it has been heard in concert in every city of prominence in this country and Europe. Prof. Timney is not only a musical director of marked ability, but a composer of distinction, and his musical compositions have been produced by many to be far in the lead of Sousa's efforts. In selecting the members for his musical organization Prof. Timney picked men who were undeniable experts on the instrument assigned to each one, and there is not one member of this band who is not a soloist on the instrument which he plays. His experience of years in catering to the music-loving people of the world has taught Prof. Timney the selection of music most desired and the program he furnishes is strictly up-to-date and while many classic overtures and operatic selections included, popular airs are not forgotten. So great has been the desire to hear this band in concert that the management has arranged for a concert of an hour's duration which will be given in the huge menagerie tent prior to the commencing of each performance. Every one is aware of the fact that there is nothing so disgusting as miserable musical selections poorly rendered at a circus performance, but this need not be looked for at the great Cole Brothers' Show. The truth is the efficiency of this band of soloists adds to the enjoyment of the patrons.

Dr. MacMillan has returned and his office is now open for business as usual.

Now comes the season when people who cannot swim take the most appalling liberties with boats they don't know how to manage. It is they who fill the holiday weeks with the haunting sense of tragedy.

Men will always enjoy that measure of liberty they are suited for. Let the Dominion Parliament prove itself suited for liberty of debate; it is not rendering business impossible under it.

The King, says a London despatch, cares far more about what the people think than about what the aristocracy think, and feels the pulse of the public as the physician feels that of a patient.

Secretary Cortelyou received \$5,000 the other day from a man in Jersey City, and it was turned over to the "conscience fund." In the letter the man, who did not give his name, said that this made \$40,000 which he had returned to the government. He added that a few years ago he robbed the country of that amount.

This obstruction of business to preserve grossly dishonest voters' lists in Manitoba is a spectacle for all honest Canadians.

In London the fashionable hat is now eighteen inches high and seven feet in diameter. Of course London they ride on the top of the bus.

EDITOR'S MAIL.

Newcastle, N. B., June 30, '08. TO THE EDITOR OF THE UNION ADVOCATE:

Dear Sir:—Permit me to occupy sufficient space in your paper to refute the charge against me, as appeared in the last issue of the North Shore Leader, signed Ida Irving, stating that I had said I notified Miss Irving that I would not be responsible for the payment of her account for republishing bye-laws.

I beg to say that I never made any such statement; what I did say was that I had instructed the Town Clerk to notify Miss Irving along those lines, which he said he did, and he also verified it by stating it to the members of the Town Council at our last meeting, and I have no reason whatever to doubt his statement.

In conclusion I can only say that if the Editor or Proprietor of the North Shore Leader would display sufficient interest in our town affairs to send a representative to our Council meetings they could get the facts as they occur, and not, as they have done in the past, publish articles which are misleading to the public, and which are gathered principally from street gossip.

Yours very truly,

S. W. MILLER, Mayor.
