TWO ENGINEERS TO **INSPECT RAILWAY**

(Continued from page 1.)

thought the city should level down the bank back of the wall and use the earth for filling in purposes. When completed he says Hamilton will have one of the finest breakwaters on the continent and that the uses to which the reclaimed land can be put are almost unlimited.

The members of the Markets Committee, after making the annual inspection of the property controlled by those departments, yesterday afternoon, unanimously agreed that a new police station was badly needed to replace old No. 4 on Napier street. This dilapidated old building is in a terrible state, and said to be beyond repair. Unless a new building is erected, it is said, it will be impossible to make the proposed division of the police force. Just where money for a new station is coming from if the tax rate is to be kept down is puzzling the aldermen. They were satisfied that No. 3 station was in as good shape as it was possible to put the present old building in, although it is by no means what the aldermen would like to see it. Chairman Nicholson says that every year money seems to be getting scarcer, and he thinks it will be a case of taking the build by the horns one of these days and building two new stations. The aldermen also inspected the new patrol station on Mary street, and were greatly pleased with what they saw there.

At the jail they found everything in hip-shape, and decided to make some mall repairs. There are forty-seven risoners in the castle now. Governor prisoners in the castle now. Governor Ugilvie told the aldermen that the stone pue was the best thing Hamilton had to keep down its free boarding list during winter months. Some of the aldermen expressed surprise to find the old men allowed to roam at large. "You couldn't chase them away with a shot gun," said one of the turnkeys.

The aldermen also inspected the market convenience, decided to make some improvements there, and gave the caretaker a hint to be more gentle with callers. The occupant of the old stables at No. 4 station will be notified to vacate.

Parks Commissioner Pain was elected chairman of the Parks Board at the organization meeting held yesterday afternoon. Commissioner Wild was nominganization meeting held vesterday afternoon. Commissioner Wild was nominated for the position, but declined. There
was very little business to transact. Ald.
McLaren appeared and explained how
things stood regarding the west end properties which the Board is securing in
connection with the mountain drive and
park scheme. It was decided to make
application for the land controlled by the
Government west of James and east of
Queen street, and the local members will
be asked to use their influence. It was
announced that Judge Teetzel had made
a donation of \$1,000 to the scheme. Commissioner Lees stated that it would cost
\$120 each/for freight for the pair of buffalo the Board is thinking of securing
for the Dundurn Zoo.

City Engineer Barrow has received from Engineer Sothman, who is employed by the city as the expert on the pump tenders, his report on the amended tenders. Mr. Sothman names three offers to choose from. These are the Worthington pump, John McDougal Company, Montreal; Canadian General Worthington pump, John McDougal Company, Montreal; Canadian General Electric Company, Toronto, and the Bufalo company. Although the latter's figure is still lowest, the engineer points out that it has failed to fulfill some of the requirements, one of which was to give the names of places that were using its pump. The Buffalo company is rather annoyed that it was not notified of the last meeting, and has asked to be informed when the tenders will be dealt with, so that it may have a man here.

The project to construct an electric railway from Dunnville to Wellandport and thence to St. Ann's, connecting with the Michigan Central, Wabash and T., H. & B., is being revived. Philadelphia capitalists are expected this week to look over the ground, when it will be learned what assistance they expect from the municipalities interested.

Colonel Gibson is still in Ottawa in connection with the Radial bill, and the meeting which it was expected would have been held to-day to deal with the proposition from the Street Railway Company had to be postponed. It is not expected that the company will forward the proposition until Colonel Gibson is here, as he is desirous of attending the meeting.

The Mayor, City Clerk and City Solicitor, who are in Toronto to-day in connection with the conference of the executive of the Ontario Municipal Association with the Government, will probably have a talk with some of the authorities about the Board of Control, the power control of the second of t question and other matters

The special committee to consider appointing a plumbing inspector meets this evening. To morrow afternoon the special committee re the proposed shelter for children meets. The power committee will also meet in the afternoon and the Sewers Committee at night.

The Sewers Committee will meet to-morrow to open tenders for sewer pipes and other supplies.

HOSPITAL'S BENEFITS.

HOSPITAL'S BENEFITS.

In connection with the Children's Hospital benefits it is announced that the insurance men will occupy front seats at Bennett's Theatre this evening. On Saturday night the employees of the Hamilton Steel & Iron Co. will be out in force, and Miss Lewis looks for a crowd of 600 or 700. Next Monday night the members of the City Council will occupy the boxes. Towards the end of the series Miss Lewis will have four amateur nights. March 16 and 17 will be merchants' nights, when she would be glad to have representatives from each and every store in the city present, no one or other of the nights. The Canadian Club will be there on the evening of March I, and this will be one of the most important nights of the series. cines.

TIGERS BACK.

Dr. Carr Thinks Hamilton Will Win To-morrow Night.

The Hamilton hockey team arrived home from Collingwood shortly before noon to-day. President Carr said the team was in hard luck, but that the home team was in nard luck, but that the home team won on their merits. The Tigers did not arrive at Collingwood till 7.30, and being hungry they ate a big meal, and immediately went on the ice. Under these conditions they could not be expected to play to their form.

Joe McMahon, the team's trainer, said:

Municipal Association Wants Change of Date.

Toronto, Feb. 13.-The executive of the Municipal Association waited upon Hon. J. W. Hanna, Provincial Secretary this morning, with regard to a numb of recommendations as to the Municipal Act. It is proposed that the municipal elections be held earlier each year, in order that they may not interfere with Christmas and kindred festivities.

A very enjoyable sleighing party was held last evening. A jolly crowd, numbering about thirty, drove to Dundas, and on their return went to the home of Mr. and Mrs. Hansel, 564 King street east, where games were indulged in after which light refreshments were served. The party broke up in the wee small hours, all having spent a very enjoyable evening.

Bioodhound Tracking in England.

The most recent case of the successful official employment of the bloodhound in the public service was that of the lost girl, Miss Campbell, in Ayrshire, a year or so ago, when the Provost of Gatehouse sent to Mr. George Oliphant, Secretary of the Bloodhound Hunt Club, for three hounds were three days at work on the scent, in most difficult and treacherous country, and succeeded in carrying the search party to the edge of a pool, at which they threw up the search, and from which on its being dragged the body of the missing girl was recovered. Ballooning for Health.

The balloon cure for tuberculosis has been recommended by Christian Beck to the Paris Neademy of Medicine. The patient would make daily ascents and would secure the health-giving advantages of the altitude of mountain resorts, with perfect freedom of the air cens from bacteria and all mineral and vegenation on the summer mountain resorts of Switzerland. The height of ascent can be adjusted to individual needs, and it is believed that the constant change of air in "aerotherapy" must have very favorable effect.
