 The Moncton Times informs us that...
 on Thursday that a stock list for the...

 in a short time. The company will have...
 a capital of \$400,000, of which at least...

 A part of the capital will be subscribed...

CURIOSITIES OF TRADE.
 Some of the movements of trade are...
 really curious. One would suppose that...
 Europe would have enough to do to feed...
 itself. Nevertheless, it is sending onions...
 cabbages and potatoes to this continent...
 and Normandy, France, is exporting...
 apples to New York. Another curious...
 fact is that American flour, purchased...

 has been re-shipped to New York, where...
 it sold for a higher price, freight both...
 ways included, than could be got for it...
 at Havre.

Worthy of Attention.
 The heir of the Touchy estate has returned from Boston, and purposes removing off his lands at Lower Napin, all the railway sleepers, hemlock, pine logs, spruce logs, smelt poles and everything that will make cord wood, etc. All this material he proposes taking to Boston, where, he says, good figures can be got for them. He also says we are all asleep in Miramichi, wasting our time and giving away our lumber for nothing. He appears to be an intelligent person and among other things he says we have trade enough to keep five vessels of from 70 to 90 tons each, employed in carrying railway sleepers, lumber and bark to Boston alone.

 The erection of a Spool Factory was commenced in Newcastle about five weeks ago by Mr. William Russell, which will be ready for business in the course of a couple of months. Mr. Russell has a brother engaged in the time clock business in Chatham, and we are pleased to learn that he manufactures a large amount of time which returns him handsome profit. We hope these energetic men will succeed in the enterprises they have in hand.

Wooden Ships.
 The New York Maritime Register contains the following item:—"There seems to be quite a demand for wooden sailing ships. The Germans are in the market for second hand vessels but can find very few, and it is reported that there is now but one wooden sailing ship for sale along the Eastern Coast. This will be somewhat surprising to many, but it is a good indication that sailing vessels still find profitable employment."

Worthy of Attention.
 The heir of the Touchy estate has returned from Boston, and purposes removing off his lands at Lower Napin, all the railway sleepers, hemlock, pine logs, spruce logs, smelt poles and everything that will make cord wood, etc. All this material he proposes taking to Boston, where, he says, good figures can be got for them. He also says we are all asleep in Miramichi, wasting our time and giving away our lumber for nothing. He appears to be an intelligent person and among other things he says we have trade enough to keep five vessels of from 70 to 90 tons each, employed in carrying railway sleepers, lumber and bark to Boston alone.
