IMERICAN VIOLATIONS OF THE TREATY OF WASHINGTON. Our American neighbours appear to think that treaties are more honoured in arbitron than the observance. In help wing to thom, subject to valuation of the present our concession core of this

But as regards our newly ad-mitted Provinces the case is very much atronger than in the instances of Ameri-can acquisition which we have cited. For, when the first four Provinces was con-federation after the layer of common re-port and noteriety that off British North America was expected to join the Oon-nummation the whole scheme was from the beginning devised and built up-furthermore, the lakery exports of the Provinces ince admitted, also of Merry of the first four Provinces.
