EDITORIAL NOTES.

Mr. Mackenzie continues to improve. He will not likely take any active part in the present session by the advice of his phy-

We quite agree with a Barrie contemporary that Mr. H. H. Cook has " had experience in yndicates." He raised several, single-handed North Simcoe.

Mr. Blake claims that he represents the wealthy classes of the country, but next election we shall see him posing as the friend of the majority-the poor man. Of course by that time "circumstances" will "have anged."

There were giants in the Local Legislature from 1867 to 1875, and there are many good men there yet ; but on the whole there has been a sad falling off in the personnel. The abolition of dual representation was not an unmixed blessing.

The fact that when Mr. Mackenzie offered

better terms for the construction of the road than those now agreed upon Sir William P. Howland and his associates made no bid, is pretty good evidence of the bogus character of their present scheme.

The rumour that Mr. Paxton, M.P.P., will be appointed to the vacant shrievalty in the county of Ontario is probably correct. If he has not been a brilliant or over-scrupulous politician, he has at least been a faithful one, and deserves his reward.

It will not be good news for the opponents

of the Deceased Wife's Sister bill in this country that Mr. Gladstone has pledged himself to the promotion of a similar bill in Eng land, although holding out no hope in the present state of public business of immediate legislation.

It is rumoured that Mr. Pattullo's petition against the return of Mr. Sutherland for North Oxford will be withdrawn, because counter charges of corruption against the great disorganizer are being prepared. Tiger hunting is exciting fun, until the tiger turns and hunts the huntsman.

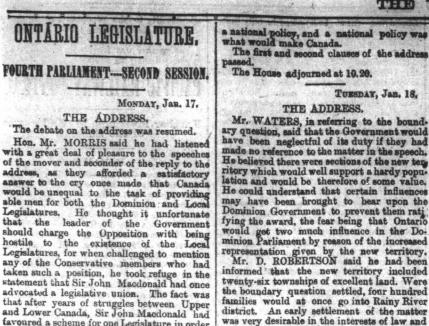

In a letter from Hon. Peter Mitchell on the Hind charges, Sir Albert Smith is called upon to do simply his duty, viz., to take the earliest opportunity of defending his honour against Mr. Hind's imputations. Nobody pute much faith in what Mr. Hind says, but hat does not warrant Sir Albert's sile

The Brantford Telegram avers that there is n that city a justice of the peace who is unble to write his own name. This is a dis grace to the province. As the member for South Brant appears to have nothing to do in his department, he might open a night-school and give his protégé a few lessons in penman-

United States papers oppose the Canada Pacific railway scheme with remarkable manimity. Our opponents are unfortunate, to say the least, in always having the sympathy of those whose interests are naturally ot Canada's interests. It was so at the time of the Pacific scandal, it was so during the N. P. agitation, and it is so now.

The St. Mary's Argus is in a bad way bout the Pattullo-Sutherland election case. It says that "a number of the best known men in the riding are involved in this matter. and some dirty revelations will no doubt be made before the thing is settled." The fact that "dirty revelations" should be made in a antest between two Reformers in a Reform riding does not say much for the purity of the party.

If, as the Globe argues, no bargain that the present Parliament makes with the original yndicate can be binding upon the country, it follows that no bargain which the present Parliament makes with any other syndicate can be binding. Yet Mr. Blake and the can be binding. Its making a bargain chief organ are in favour of making a bargain with the political syndicate organized by Col. Walker & Co. The mere statement of contention exposes its dishonesty.

informed that the new territory included twenty-six townships of excellent land. Were the boundary question settled, four hundred families would at once go into Rainy River district. An early settlement of the matter was very desirable in the interests of law and order, and of immigration. In adverting to the school laws, he considered that the power of the inspectors had been curtailed by recent legislation. favoured a scheme for one Legislature in order to bring the troubles to an end, but the Conservative policy, finally adopted and carried to a successful issue, was a combination of all legislation. Mr. McLAUGHLIN said that gentleme the provinces of the Dominion, the local omy of each being preserved. Nothing opposite argued that it would be injudiciou to do away with the Senate at Ottawa be had occurred since Confederation to show that the Conservative party had any desire to destroy the autonomy of the provinces. In fact, how could the Dominion Parliament, cause it was a check upon wrongful legisla-tion, and upon somewhat similar grounds he objected to the reduction of the membership of this, as such a reduction would have a bad overburdened as it already was with busi ness, deal with the local interests of British Columbia, the North-West, Ontario, Quebec, effect. Mr. MEREDITH, referring to the stateand the Maritime Provinces ? If ever an atnent that the Dominion Government was tempt should be made to destroy the responsible for the non-population of the ter-rity west of Thunder Bay, said the blame legislatures of the provinces, all combine in resisting it. ties should should rest upon the Ontario Government. Mr. MOWAT said that it was the re-In referring to the speech of the Attorney-General, he said the hon. gentleman claimed too much when he said his Governfusal of the hon. gentleman's friends at Ot-tawa to confirm the award that was the cause ment had done more work than had any other of all the trouble, and he thought it was a rather cool thing for the leader of the Opposi-Government. Surely the hon, gentleman had overlooked the existence of the Dominion and tion to place the blame upon this Govern-ment. The Dominion Government had de-Imperial Governments, and he had, moreover, cast a slight upon the Ontario Governlayed in confirming the award, and it was questionable whether anything would be done ments which had preceded his Administra-tion. He (Mr. Morris) fancied that the during the present sitting at Ottawa to settle Government of Sandfield Macdonald would the question. Mr. HARDY said that the responsibe ranked at least on an equality with the present Administration in regard to the amount of work accomplished. As to the pility for the delay of the Dominion Governacknowledged return of prosperity, it was singular that the trade policy which had lone so much towards bringing it about had been ignored in the speech. Surely the Govcernment should have the good grace to acknowledge what was conceded by every one. In touching upon the proposal to hold alternate sessions, he said he was opposed to any scheme of biennial sessions, but favoured short annual sessions, and the com-mencement of real business on scene at the comvalid objection Biennial

mencement of real business as soon as the House opened. A Parliament of sixty members would be ample to carry on the business of the province, Mr. WOOD moved that on Thursday the the more especially as, according to the opinion of the Attorney-General, legislation The House adjourned at 5.10 p.m. was almost exhausted. were still more objectionable than alternate sessions; they were not adapted to the re-quirements of the country, and allowed the Government to escape public responsibility for too long a time. to the Lieutenant-Governor, praying that he will cause to be laid before this House copies of all correspondence between the Executive Council of the province of Ontario or any member thereof, and the Privy Council of Mr. YOUNG (Brant) said he did not rise to make a general reply to the remarks of the hon. member for East Toronto. So far as the oundary clause in the address was concerned the leader of the Opposition seemed to see in the clause an interference with the Dominion Canada or any member thereof, respecting the award relating to the boundaries of the province of Ontario, which may have taken place since the opening of the last session of the Legislature of Ontario. His reason for Government, but it was a guestion in which the people of this province were directly in-The action of the Dominion Government on the matter was a direct violation f the arbitration, and the inference to be making the motion was the answer made by drawn was that the people of this province could not get justice from the gentlemen at Ottawa. He read the eleventh parathe Premier when he asked for informati on the subject. It was important for the House to know whether the Government had endeavoured to ascertain the views of the Government at Ottawa on the matter, or graph of the speech with consider-able surprise, and it appeared to him that it was not in accordance with constitu-tional government. He looked upon the paragraph as a "feeler." The people of this province were a practical people, but to have whether it had been discussed. The proper way to arrive at an agreement was an inter-change of views on the question between the two Governments. Mr. MOWAT said that the observaernor open a session merely to pass supplies he thought would not appear to them as a wise proceeding. The House had no power to adopt biennial session (86 sec. B. N. A. Act.) They had the power to alter man had had ample information as their constitution, but they had not the power to do so as the law exists at the present time. Do our requirements call for only one session in two years, and would it be in the motion, which in its amended form was car. ried. public interest to meet only at such periods ? He did not think that the business of the SCHOOL BOOKS. Mr. LAUDER moved for an order of the House for a list of all the school books an-Legislature would be smaller in the future than it had been in the past, but the feeling thorized and in use in the Public Schools he had was that Legislature in the future would tend to increase instead of diminish. Ontario on the 1st day of July, 1867, with the retail price in each case. A list of all school books that have been authorized at If they only met once in two years the sitting would have to be prolonged, Mr. LAUDER considered the application of the word "feeler" applied to the 11th different times for use in Public, Grammar, and High Schools of Ontario since the above date, specifying the name of the author in each case, together with the retail price of the same. Said last mentioned list to indi-cate those text-books now authorized and in clause of the address, a most appropriate word, and one which could be applied with advantage to other clauses of the address. There was no policy forshadowed in fany of the clauses save the lith, and as the organ use. He moved for the return owing to the dis satisfaction there was in the country owing to the numerous text-books in use, and he would like to know if there were any grounds of hon. gentlemen opposite, and the hon. member for North Brant, had attacked the for complaints, as there had been consider-able talk about the authorization of some of paragraph, how would the hon. Commissioner for Public Works, who had voted for the the books. The return would be a long one, but it would be interesting. Mr. CROOKS said he would shortly be in clause, like to abandon it, and how would he appreciate the snub he had got? So great a cry had been made regarding the boundary award that one would have supposed it was the in-tention of the Dominion Government to give away the termitory to the west of Thunder a position to place before the House a revise list of the books in use. It would appear that the branches included only the ordinar Bay to the States or Russia, or some other grasping power, but he did not think that there was anything to be alarmed about. The question could be easily settled! Was not the territory concerned in the boundary question part of the Dominion, and did it not enjoy the privileges which other territories onjoyed? Then, what was there to complain of. The only argument for hurrying a settlement was, that law was in an unsatisfactory con-dition. The new territory, if acquired, would cause us a great deal of extra expenditure, Bay to the States or Russia, or some other branches of an ordinary Engl dition. The new territory, if acquired, would cause us a great deal of extra expenditure, The House adjourned at 4.30. and unless increased revenue could be derived from timber dues, there was not much advantage to be gained in acquiring the terri-tory. The sixth paragraph, referring to REPLIES TO ADDRESSES. Mr. HARDY presented the replies to ad-resses from this House to the Queen and the Parliament buildings, was a curious one, because, while the House had no information Marquis of Lorne. The business being exhausted, about half an hour was spent in an interchange of "chaff" across the floor. Mr. WHITE then addressed the House in on the subject at all, the paragraph thanked his Honour for the information given. As to the school system, the public in the rural sections were most dissatisfied with its worksections were most dissatistical with its work-ing. It was complained that the system was expensive, while others complained of the re-peated changes in school books, and on the functions and powers of the superintendents French and Mr. Springer in German. The House finally adjourned at 4 p.m. and inspectors. Mr. HAY admitted that there was a gen-LICENSE OFFICERS IN LAMBTON. eral feeling of discontent in the country at Mr. GRAHAM asked whether it was the the increased expense of the school system, but contended that the people had the control intention of the Government to continue the services of the License Commissioner and Inof this matter in their own hands, and should spector for the current year in the county of Lambton, owing to the Scott Act taking Mr. CALVIN (Frontenac) introduced the subject of the abolition of taxation. He said effect in that county on the first day of May that one-third of the property in the province is not assessed, and there was no law by which a cent could be collected upon it. If this was what is called Reform, then he didn't next, and if so, from what source will their expenses be paid. Mr. HARDY said the Government had under consideration legislation respecting this matter, which, when submitted, would exwant any reform, All the property to which plain the intentions of the Government. he alluded was the property of rich men, and the poor two-thirds paid the taxes of the rich, one-third. He had been upon the ex-LAND IMPROVEMENT FUND. Mr. HAY moved for an address to the Mr. HAY moved for an address to the Lieutenant-Governor, praying that he will cause to be laid before this House a return of any correspondence or papers which may have passed between the Government of Ontario and the Government of the Dominion in res-pect to the land improvement fund. In making the motion he metered to the origin of the fund, as derived from the sale of school and Crown lands. a certain proportion of emption committee, but he had been voted sown by men who wished to keep the poor poorer and the rich richer. He was not preared to assess a church or tombston he was prepared to tax bonds and stocks which paid a heavy income. He would bring in a bill proposing such a tax. He had a list in his desk of about \$40,000,000 exemptions. A house was valuable, and a piece of wild land and Crown lands, a certain proportion of which was to be applied to the local im-provement fund of the municipalities in which the lands were located. Under the was valuable as taxable property, but the bank stock which paid 10 per cent, went untaxed. Before the inception of the National Policy by Sir John Macdonald they had bankruptey and hard times. He had lived in the United award relating to the matter, the proportion of the Province of Ontario was fixed at States for forty years, and he had noticed that when the Democrats got office they lowered the tariff, and hard times immedi-stely followed, but when the Republicans same into power they, put the tariff up, and the courty because many states the tariff up, and \$125,000. It was some time since the awar had been made, and the various localitie entitled to the distribution were anxious to know when they would be paid, and were blaming the Government for the delay. Mr. CREIGHTON said the Dominion Govthe country became prosperous again. The golicy which had made the United States was ernmont had paid the interest on the a

national policy, and a national policy was what would make Canada. The first and second clauses of the address due the province, and the municipalities should be entitled to this interest when a

should be entitled to this interest when a ettlement was made. Mr. WOOD said there would be no objec-tion to the motion, so far as the return was made. The correspondence of last session had been very small, because the question turned upon the settlement by the Dominion. If frequent applications would have led to an early settlement they would have been made. He admitted that the payment to the munici-palities ought not to be much longer delayed. He hoped next session to be in a position to divide the money. The interest allowed by the Dominion would be paid to the municipalities. The motion passed. TUESDAY, Jan. 18. THE ADDRESS. Mr. WATERS, in referring to the bound-ary question, said that the Government would have been neglectful of its duty if they had made no reference to the matter in the speech. He believed there were sections of the new ten ritory which would well support a hardy popu-lation and would be therefore of some value. He could understand that certain influences may have been prought to hear unce the

The motion passed. The House adjourned at 4.10 p.m.

MONDAY. Jan. 24. CLOSING OF THE DEPOSITORY.

Mr. HARCOURT enquired when the deository, in connection with the Education Department, is expected to be closed. Mr. CROOKS said that practically the Breton.

depository was closed now, and no further vote would be asked for the institution ex-cept what would be necessary to pay three months' salary to the clerks required to work off the old stock.

THE SUPERVISION OF MECHANICS' INSTITUTES.

Mr. HARCOURT asked whether it was intended to take away from Public School Inspectors the supervision of Mechanics' In-

Mr. CROOKS said it was not the intention of the Government to alter the duties in-posed by the present law upon Inspectors in relation to Mechanics' Institutes. They would, however, be required to make fuller eturns.

SCHOOL VACATIONS.

Mr. WATERS moved for a return show ing the number of rural school sections which have taken advantage of the late amendment to the School Act respecting shortening the summer vacations. Mr. CROOKS said he had no particular nformation on the subject, but his impression

was that the number was very few. The re-turn would, however, give the information. The motion passed. The House adjourned at 4 p.m.

THE CATTLE PLAGUE.

Evidence of an Expert Before the Senate Committee-Disease Imported from Eng-land.

ment in confirming the award rested upon the friends of the Dominion Government in this WASHINGTON, Jan. 25 .- Prof. Low, Cornell University, appeared before the Senate committee to consider the prevention House, because they had failed in their duty Senate committee to consider the prevention of cattle plagues. He stated that two bulls and eight heifers on the steamship France, from London, were suffering from foot and mouth disease. The lung plague has appear-ed in Queen's county and Yonkers, making the disease almost as widespread as before any agitation led to State interference in New York in protecting the province from robbery. Al-luding to the question of holding sittings of the House every alternate year he saw no to it. Many members spoken upon the question, but none had ex-pressed any tenable objection to it. The remaining clauses of the address then

CLUTHE,

House resolve itself into a Committee of Supply, and a Committee of Ways and Means, he province on Tue sday :--WEDNESDAY, Jan. 19, County. Warden. THE BOUNDARY QUESTION. Mr. MORRIS moved for an address

Like all sensible men, Mr. Scott, M. P. for Selkirk, has no respect for petitions that are otten up to order, and for a purpose. He ays that thousands of signatures could be ion of the honourable gentlemen of the position. There is no necessity for taking trouble. Politically, those gentlemen need to be given rope enough and they ill finish themselves

The Opposition press persists in saying that e syndicate is composed of "Sir John's iends," There is not a Conservative in the pany so far as we know, a fact which hows that partisanship was not a factor in he bargain; but the members of the new dicate which the Opposition support are I Reformers with one or two exceptions, a act which does not relieve their proposition m the suspicion that it is a political dodge

The challenge of the Opposition to the Govnment that the syndicate agreement should submitted to the people is as absurd as the der of the second syndicate-each knows at its offer is impossible of acceptance. But a test is deemed advisable, Reformers can t do better than prevail on Sir Richard rtwright to pick up the gauntlet Mr. Kirk trick threw down the other evening. Both nese gentlemen are Kingstonians, but as ingston returned a Reformer in 1878 the ces are in Sir Richard's favour.

The Montreal Spectator has not a very high opinion of syndicate No. 2 : "The new syndicate for building the Pacific railway is no way a credit to itself nor to the coun-Its inception was due to the exigency Opposition in the House ; it was ined to strengthen Mr. Blake's position, ended to strengthen Mr. Blake's position, nd for that purpose the unpardonably dis-conest and blundering trick was played of putting names of gentlemen on the list who ad never been consulted, and who at once lenied any complicity in the worse than nestionable business. That stamped it at ace as a mere political device, got up to ake capital out of."

The Grit members of the Ontario Legisla ire are devoting most of their time to the assion of the N. P., the boundary queson, and the railway syndicate. Of course ey have the excuse that there is a dearth of icial business, but they have the alterative of admitting that fact and going home. "hey might as well consider the Irish queson or the Boer insurrection as matters ap-rtaining to the province of the Federal Adistration. In the language of a homely expressive Westernism, these wordy en should not "bits off more th ey can chaw.'

The commercial papers take no stock in the w syndicate. The Journal of Commerce -"Whatever may be the respective its of the old and new propositions, it is ar that the Government, which took the ponsibility of signing the contract with the st syndicate, had no option to procure its ign office. tion by Parliament or to res have no desire to impeach the motives of e subscribers to the new syndicate, but our nviction is that there are few people in Ca-da so credulous as to believe that, if the pyernment had advertised for tenders in Caa, they would have received the offer ich has been just made. On the other id, it must be sufficiently obvious that, by ling to obtain offers in answer to a form vertisement, the Government would have terially weakened its hands."

EPPS'S COCOA.-GRATEFUL AND COMFORT-FRIDAY, Jan. 21. ING.—"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our break-fast tables with a delicately flavoured beverage which may save us many heavy doctors bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of sub-tle maladies are floating around us ready to attack wherever there is a weak point. Wo may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."-Civil Service Gazette, Sold only in markets labelled Fazette. Sold only in packets labelled JAMES EPPS & Co., Homeopathic Chemists, ondon, Eng." Also makers of Epps's Choc late Essence for afternoon use. 101 - 35

> Photography can give us only the images of the flowers, but in Murray & Lanman's Florida Water, chemistry has preserved their aromatic essence. It is literally the bottled breath of the most fragrant products of the richest floral region in the world.

Those requiring a good sewing machine, equal in every respect, and superior in many, to machines manufactured in the United States, are requested to examine the Wanzer. It runs so lightly that 5 oz. weight will turn it. Possesses all the latest improvements, and is nickel-plated and finished in the latest tyle. The cabinet work is superb. Price within the reach of all. Toronto office, 82

dow of the Phoenix Hall elothing house, breaking it into small pieces, The animal was badly cut up by the glass. Loss, \$125; uninsured. All the employes of the Levis and Kenne

bec railway have commenced the new year by taking a solemn pledge against the use of in-toxicating liquors. The clergy of Levis and other parishes have largely aided in this work, and it is the intention of the directors to support it to the utmost of their power. At the Carleton, N.B., Municipal Council a resolution was passed directing the warden

and secretary-treasurer to memorialize the ion Government to enact that fines collected under the Canada Temperance Act be paid into the county where collected instead of being handed over to the Receiver-General. The Executive Committee of the Dominion
