AGENTS FOR THE HERALD. TRAVELLING AGENTS. J. Thomson, Toronto, Ontario...

THE WEEKLY HERALD. CHASLES L. LUGGIE, Editor and Proprietor. FREDERICTON, N. B., MAY 11, 1882.

ATLANTEAN. The reading world of the United States is greatly agitated over the question of ancient American civilization...

When the Spaniards came to Central America they found the Aztec civilization thoroughly established, and boasting many centuries of duration...

REASONABLE VERY. The Monitor Times takes exception to the publication by the Globe of the opinions given by its subscribers upon the tariff...

HOME POLITICS. If any paper in the city can be supposed to be in the secrets of the Attorney General, it is the Farmer...

There never was a line in the political history of the Province just before a general election when there was less excitement...

—The interest in the Jennie Granger murder at New Haven continues unabated...

—The New York Mercury discusses the "music of the spheres," and comes to the conclusion that it is a real thing.

Commercial Independence. The London Daily News, discussing Sir Alex. Galt's mission to France, says that it sees in the claim put forward by the Colonies that commercial treaties should be negotiated in their interests with regard to the demands of Great Britain, the entering wedge of the disintegration of the empire...

When the Liberals pointed out that the result of protection would be to weaken the ties between Canada and the Empire, the Tories said that, in this matter, the interests of Canada were first to be considered, and that Great Britain would have to take care of itself.

Commercial independence of Canada, which the Hon. Mr. Blake advocated when he moved his resolutions relating to treaty-making is something which the near future has in store for Canada. It is something contemplated by the freedom of tariff-making conferred on Canada, and by the appointment of Canadian Commissioners to England...

The bill to alter the election of judges of Ontario is one of the most extraordinary measures ever introduced into a legislative assembly. It is intended to alter the mode of election of the Judges of the Ontario courts from the present mode of election by the Governor in Council...

Mr. Fraser has gone to Ottawa. Such an announcement is not an unusual one in these latter days; nevertheless it has an interest of its own just now. Formerly our politicians used to fret and fume over government from Downing Street; and we have heard protests loud and deep over the interference of the colonial office in our affairs...

Some Reasons for Staying at Home. A gentleman who has lately returned from Manitoba expresses the opinion that the country is a very desirable one to settle in in many respects; but he adds that if a man has a thousand dollars and proposes to go farming, he can do better, or at any rate quite as well, if he stays in New Brunswick and makes a new farm...

THE REDEMPTION BILL. The bill to alter the election of judges of Ontario is one of the most extraordinary measures ever introduced into a legislative assembly. It is intended to alter the mode of election of the Judges of the Ontario courts from the present mode of election by the Governor in Council...

Mr. Wilson has informed the public, by a circular, that he will be a candidate at the ensuing election for the House of Assembly. He simply announces this fact, and asks for support. He has as yet given no expression of opinion upon the questions exciting the local political arena...

THE "FARMER" AND MR. BURPEE. The Farmer goes into heroes over Mr. Charles Burpee's evidence before Dr. Jorjo's Committee. The tenor of the article may be judged from the fact that it begins with a complaint that Mr. Burpee sells his hay and closes with a panegyric on W. E. Perley. The Farmer is careful not to dispute any of Mr. Burpee's statements, but contents itself with saying that the knowledge of agriculture is very backward. Mr. Burpee made his comments in the hearing of the public, and with the full knowledge that he would have to answer for any error before the bar of public opinion...

THE PURCHASE OF HOSE. Alderman Simmons speaking as a Bronze Statue of Moral Suicide. After many days, Ald. Simmons makes reply to the article in the HERALD respecting the purchase of hose for the City Fire Department from the Gutter Percha and Rubber Manufacturing Company of New York and Toronto. It was foreshadowed in the Farmer, in which paper it is published, that it would be a "complete vindication," but the shadow belied the substance which now lies before us...

Ald. Simmons states that we accused him of "receiving a commission on the recent purchase of hose, and also of receiving 20 cents per foot, on purchase of small hose, by reporting to the City Council the cost at \$1 per foot, the actual cost being 80 cents per foot." This is a lie—or if the Alderman would prefer something more polite but equally untrue, it is meaning the two statements contained in the above quotation are ingenious fabrications. In the article in the HERALD it was stated that "there seemed to be something rotten in the City Council" and that the Alderman had been "harmed" by the scandal in connection with the recent purchase of hose made by the Fire Committee, with which there would seem to be considerable dissatisfaction among the citizens...

And what is the "foregoing effect" he speaks of? It is merely some very nice talk on the question, and contains but one statement bearing on it; that is as follows:—"I hardly know how to contradict such a statement." We don't suppose he does. The last letter, which is very much of a piece with the others, is from Mr. T. McElroy, the manager of the Gutter Percha and Rubber Manufacturing Company in Toronto, and is dated at that place on the 22nd April, 1882. This gentleman says he has read the article in the HERALD, and pronounces the "malicious statements therein contained as false and untrue."

Mr. McElroy, the manager, says that he has read the article in the HERALD, and pronounces the "malicious statements therein contained as false and untrue." He says that the Rubber Company, through him, supplied this city for a number of years without paying any one a percentage either directly or indirectly. No one denies this, and no one has said that he did. In reference to the late sale of hose he says:—No percentage or commission has been paid, given or promised, either directly or indirectly, to Alderman Simmons or any other person, and the price of hose for the small fire hose is \$1.00 per foot, not including couplings. Every transaction has been without any commission, percentage or other private inducements from this Company or its Agents.

Fire at Rose Hall. About 11 o'clock yesterday morning a fire was discovered in the conservatory attached to the house on Waterloo Road, commonly known as Rose Hall, and occupied by Mr. John W. M. Ruel, of the Customs Department in this city, and family. When the fire broke out there was no one in the house but Mrs. Ruel, who has been in poor health for some time, and her daughters. One of the young ladies happened the horse and driving out to inform her father of the fire and gave the alarm. The City Hall bell rang shortly after eleven and the fire department turned out promptly. There was a sharp gusty breeze blowing and by the time the engine arrived on the scene the fire had been extinguished and the conservatory and other outbuildings in the rear were a casing mass of flames and the house, which stood on the street, was on fire in half a dozen places. The engine was soon got to work pumping water from the river, and streams from it were put on the fire; while one of the hand engines was employed. The firemen turned their attention at once to saving the house—a two-story building with peaked roof—as the outbuildings were already nearly consumed. In the meantime a large crowd of people had gathered at the scene and many willing hands were found to help Mr. Ruel and his family in saving their household furniture, the greater portion of which was got out in a more or less damaged condition, as the house was some time getting well ablaze. The roof caught in the rear, and at the eastern and westerly ends, and in spite of the efforts of the firemen, who worked well, the whole top of the house was in a blaze at 12.30. At one o'clock it was seen that nothing could save the house from being a total loss, although the firemen were playing on the ruins until a late hour in the afternoon.

The building was insured in the Northern Insurance Company (Mr. John Black, agent), for the sum of \$2,000. Mr. Ruel had no insurance on his furniture, and is quite a heavy loser by the fire. He usually had a fine garden, and lost a nice conservatory in the fire, together with some 100,000 young cabbage plants. Mrs. Ruel, who has been sick for some time past, was removed by Mr. George J. Bliss' residence, and in the afternoon Mr. Ruel moved his family into the Vasaroor cottage on St. John street. Rose Hall—it is best known perhaps by this name—belonged to the Shore estate, the representatives of which are Miss Shore and Mrs. Forsyth, who are now residing in England. If B. Rainford, Esq., is the representative of the estate in this city.
