It stands afar midst happy, sunlit fields. A little farmhouse, brown and old.

With ancient, ivy-covered, buttressed walls, And straw-thatched roof of gold; And I, a wanderer from the dusty

Grown weary of its heavy ways. Wistful, from off the hot white road, look down

And long for the old days. For ther thee nights were blessed with quiet sleep,

The days were filled with happy And there the skies seemed ever blue, and there

Was time for peace and prayers While youth and laughter, joy and hope, and love Sang in my heart a happy song.

Ah mel a song that's hushed forever-The crowded streets among.

And now I stand and gaze, with heavy heart, Across dear fields in longing sore, To where another woman, happier

Looks from the low half-door. Oh, little farmhouse, old, and brown and sweet. I wake when all the world's at

And think of you, and long for the old peace And the untroubled breast!

Scotland's Crown.

So long has Scotland been united to England, so long is it since James Bridge. of England, became James of England, that we have grown to almost forget that Auld Scotia had ever been an independent kingdom. When we read the story of the Stuarts, or that of Bruce, we feel like Total marks 1400. Pass 840. when we are enjoying the historical romances of the Waverly series. Yet Scotland had its royal house, its King, and its crown. Holyrood is yet there in all its antique and venerable grandeur; the royal family has gone down into history; and the crown slone remains to remind us that once there reigned a royal line in the "Land of brown heath and shaggy wood." The ancient crown of Scotland is still preserved in the Castle of Etinburg. It is said to lege, 885. have been made for Robert Bruce. It consists of two circles of gold, the 881. upper and narrower circle is surmounted by crosses and gem-incrusted imitations of flowers. The lower ring, which is the head band, is adorned from end to end of the golden band with large precious stones of different colors mostly in their unpolished state. Above are two arches of gold, which unite and are surmounted with the historic "cross and ball." When the Stuarts became kings of England they took the trouble of going to Scotland to sea themselves, for a few moments, upon the celebrated "Stone of Scone," and to have King Bruce's diadem pressed upon their royal heads. Charles I. declared his intention of removing the Scottish crown to England, so that such ceremonies could be carried out at home but the Scots soon convinced him that it would be an infringement upon their rights, so the King had to go to Elinburgh, as others had done before his time. In about the year 1652 or 1655, the wife of a Scotch preacher, named Granger, stole the crown of Scotland, as well as all the royal insignia. At

The following item is clipped from a Catholic American exchange:

A fearful result of blasphemy was witnessed in Chicago last week. Tulian Renfro was stricken dumb immediately after daring God to prove His existence by visiting this affliction upon him.

Renfro is a Southerner, coming from S reveport, L3. He roomed with Et. L. Crosse, J W Burke and I La Crosse, all of whom are devout Catholics. Rinfro souffed at their belief. He went to their Courch with them and listened to the sesvices. The priests at the Holy Name Cathedral talked to him at the request of his room-mates but without avail.

"I am a practical man and I have come here to study medicine," said Renfro. "I do not believe in that which I do not see and which is not demonstrated to me conclusively." Taesday night the four young

men engaged in a game of cards in their room. When they had tired of the sport and were about to retire, the old discussion arose.

"If there is a God let Him show me." laughed Rinfro. 'Lat Him strike me dead. Nr, I will not ask And yet in the matter of restorso great a proof, for I would not live to demonstrate his existence. Let him make me deaf and dumb. Then I will believe".

A moment later Ranfro fell to the floor. Dr O G Draper was called, and he found that Renfro had lost
