School Holfdays.

We have heard many opinions expressed by teachers as to the interprewith teachers did not distinctly state the number of weeks, six could be taken. In S. S. No 9, Brooke, popularly known as the tea-kettle section, where the somewhat notorious Stonehouse investi-gation took place last fall, the contract, irawn up after the usual form, made no definite stipulation as to duration of holidays. Miss Hastings, the teacher, was notified by the trustees to commence her school at the expiration of four weeks from the commencement of the holidays, but having the impression that six could be taken, she dismissed her scholars with the statement that school would not re-open until the 18th of August. The trustee at once determined to make a test case of the affair if necessary, and sending the agreement to the Minister of Education, they asked for his opinion. The reply, which has been laid before us, distinctly states, that unless the agreement with teachers contains a special clause naming the number of holidays, the trustees have power to open the school on Aug. 3rd. Miss Hastings, very wisely, complied with the request of the trustees and with the request of the trustees and with the request of the trustees, and her school is now open. We refer especially to this case, because it seems to settle a disputed point between many teachers and trustees. - Ex.

MURDER AT OTTAWA.

An Old Man Beaten to Death on His Wed

One of the most horrible murders known in the annals of Ottawa's history was committed on Thursday morning in Mount Sherwood, a southern suburb of the city. The tragedy was enacted about two o'clock in the morning, but nothing was known of the bloody work until about seven, when THE DISFIGURED RODY was discovered on the roadside, just outside the city limits, by a farmer on his way to market. The particulars are as follows: For some time past James Wetherall, aged 70 years, a widower, and Margaret Dougherty, a widow, aged 50, had been keeping company with each other, the outcome of the intimacy being a matrimonial union, which was legalized on Wednesday night at the residence of a Mrs. Cooper, where the widow had been visiting, by the Rev. Mr. White, Presbyterian minister at Rochesterville. When it was ascertained the small boys of the place gathered to the gether, and, armed with pots, pans, thorns, etc., catculated to produce discordant sounds, began to demonstrate. They kept up a perfect pandemonium; for several hours, after which the leader confronted the aged bridegroom and devented the conforted the aged bridegroom and devented the conforted the aged bridegroom and devented to produced at the land at a certain Indeature of Mortgage, which will be produced at the time of sale, octained in a certain Indeature of Mortgage, which will be produced at the time of sale, which will be produced at the time of sale, which will be produced at the time of sale, which will be produced at the time of sale, which will be produced at the time of sale certain Indeature of Mortgage, which will be produced at the time of sale, which will be produced at the time of sale certain Indeature of Mortgage, which will be produced at the time of sale, which will be said to the time of sale control of the privation, and the sale of t opened at \$1.20\frac{1}{2}; October corn at 59\frac{1}{2}c.; September pork, \$17.78c.; September lard, \$11.67\frac{1}{2}.
