ABOUT PUMPING ENGINES.

cision in regard to the pumping engines. Those of the ratepayers who were MANY of the excursionists from List present at the last meeting of the town opuncil must have been greatly struck wel were struck with the handsome apwith the discussion on the pumping en- pearance of Goderich, and enconimne gines which are required for the water- were passed upon our wide streets and works. It seems that a tender was subupon several of our handsome private remitted by the Gordon & Maxwell en- sidences and grounds. Exception, howgine Co., of Hamilton, Ohio, offering to ever, was taken to the unsightly closewell to Goderich two 20-inch cylinder beard fences which, in too many cases engines for \$7,850. Two other tenders surrounded the grounds, and more than were sent in at the same time, but after one visitor raised yoice against the relic engineer Chipman and councillor Hum- of fendrlism that was thus presented. ber had been sent to Ohlu to examine One admirer of the town and despiser of the make of the Gordon & Maxwell fences said, "you people in Goderich engines, and had reported favorably have more money invested in useless thereon, the contract was awarded to the fences then would benus a railway into Ohio firm. Since that time new light your town. In Listowel we have a good a come to the waterworks committee, town bylaw, and we are doing away with last Friday the chairman brought our fences in as short order as possible." report recommending that a 26- Here is a chance for some intelligent nder engine be substituted for gent municipal Reformer to get down to the 20-inch engines, on the good work. Fence the town cow in, that a saving of one-seventh in and open out the handsome grounds.

ment, we conseded that at the end of twelve years the unused engine would be as good as new, the facts are against it. It is well known to mechanics that an unused machine will not remain in good condition. A watch which is laid by without being regularly wound, will in due course become useless as a time keeper, and will eventually become of less value than another which is keep running constantly. The esme applies to every piece of mechanism that exists, and even the human frame—which, after all, is only a cunning piece of living all, is only a cunning piece of living machinery—is not exempt from the inar-media.

orable law of wearing out from lack of \$4.00 monthlies or weeklies with Th exercise. This being the case, at the Living Age for a year, both postpaid. end of twelve years we would have Littell & Co., Boston, are the pub-

Tickets and all information can be had from H. Armstrong, town ticket agent G. N. W.

Felegraph office, Goderich.

#### Photographed in a Flash

A novelty in photography has been introduced in Goderich by R. R. Sal-lows, in the taking of negatives at night by the "flash" system. Last Saturday evening at 9 o'clock sharp, THE SIGNAL climbed the stairway leading to Sallows' studio, corner of Montreal street and the Square, to see how the thing worked. When he got there he found he was to be one of the victims on the occasion of the victims on the occasion be one of the victims on the occasion. But he didn't object. The photo-artist made him hold up his chin, sit up straight, watch a corner of the door,

The able-bodied assistant came for-ward with a glass jar in which was the confident that the Goderich public will illumination compound in a state of re-generously respond, and they promise is widely known as one of the finest in pose. #### Goderich, 10th Aug., 1888

FROM CALIFORNIA. They Appreciate Him. Letter from a Former Resident of Godes ich

We are pleased to learn that Past Chief Patriarch, Philip Holt, of Huron Encampment, No 28, has been appoint-ed District Deputy Grand Patriarch of Independent Order of Oddfellows, hav-ing general supervision over all subordi-nate encampments in his jurisdiction. To the Editor of The Signal. SAN FRANCISCO, Aug. 5, 1888. I presume you will think me a long time in fulfilling my promise as to writ-ing you a line. It is now one year and

Grand Excursion

ing vou a line. It is now one year and four months since I saw you last, and in that time I have seen some grand and very interesting sights. My journey to this western world was indeed very tiresome, although 1 must confess I had an ex-ceedingly good time, and many a hearty laugh at incidents that occurred while travelling. I first located in Pasadena, Cal., which is one of the prettiest and most attractive little cities in the west, also a health resort for eastern invalids, being the higher part of the country. The Reave having proclaimed Wed-needay, the 29th inst., a civic holiday the Uniformed Encampment of Odd/ellows has chartered the magnificent steamship Wisconsin for a trip to Port Huron, leaving Godorich at 7 a. m. and Port Huron at 6 p. m. arriving in Goderich at 11.30 p. m. the same day. String and instrumental music will be a part of the programme. Tickets for the trip \$1.

Criminal Cases. A man named Johnston was commit ted for trial from Crediton, on Saturday

being the higher part of the country. This little city is literally covered with orange groves and all other variety of fruit that an eastern would desire to look upon, let alone devour. Seven miles north of this little city stretches out the last, charged with stealing eight sheep from one James Box, which he afterwards sold to one William Colville. Johnston, who is evidently a suspicious character, and who refuses to give his Christian name is now in jail, and will

Christian name is now in jail, and will elect to be tried next week. Edward Dawson, charged with ob-taining a suit of clothes by false pre-tences, and stealing a pair of stockings from Styles & Kent, merchants, Wing-ham, was committed to jail to stand his trial, last Saturday evening.

"God Save the

north of this little city stretches out the Sierra Madre range of mountains ele-vated to the immense height of 7500 feet above the level of the sea. In those mountains nature has formed immense canyons miles in length. I have visited canyons miles in length. I have visited two of the largest, respectively, Eaton's and Millard's. where I viewed two of the finest sparkling streams I ever be-held, with a fall of sixty and eighty feet respectively at the head of each. Oft-times sight-seers get lost in those can-yons. I proved to be one of the lucky ones. Now, coming down the stream, we come out on a large level tract of land, from which you can view the cecan at a distance of thirty miles, also several cities in the eastern portion of the State; at a distance of thirty miles, also several cities in the eastern portion of the State; then to the south we can gaze without the least difficulty on one of California's mest noted cities, Los Angelos, which is Pedro, thence by steamer along the rug-

Dr. M. Nicholson, the West street dentist, makes the preservation of the natural teeth a specialty. Gas adminis-

could throw sheet lightning and electric light into a dull uninteresting sickly tal-low candle flare. It didn't take a second, but it took a good negative, all the same -or rather, as good a negative as could be taken from the clear-cut features of THE SIGNAL. The only fault we find with the pro-

bition. The chair was occupied by Mr. W. R. Robertson, chairman of the league; and the following programme was presented: President's address; cess is that it takes the photograph more light, and we, being not of the kind who san travel on their beauty, are thereby placed at a disadvantage. But it's quick, light, and we, being not of the kind who san travel on their beauty, are thereby placed at a disadvantage. But it's quick, and novel, and a new sensation, and moet people like that kind of thing. The negative obtained was, we must confess, much more natural than any we ever had taken in daylight, and Mr. Sallows is to be congratulated on introducing the sys-tam to our town. em to our town. of Summer Night"; Queen"; benediction.
