WITH THE FARMERS A GOOD HINT.

In connection with the discussion regarding the management of the Edmonton Exhibition in future, so as to place it on a paying basis if possible, George Harcourt, deputy minister of agriculture, has drawn the A GOOD HINT.

sible, George Harcourt, deputy annister of agriculture, has drawn the attention of the Edmonton Board of Trade to the way the Toronto Exhibition is managed, as being a good hint for Edmonton. The Toronto a train load of eattle on the Chicago a train load of cattle on the Chicago at the control of the ship-

Cochrane and Jumping Pond dis Stockmen have given it as Amid the many expressions of opintheir opinion that the presence of a Chicago competitor in the country ion, which the public press is secur-ing day after day from visitors to

to fill their steamship contracts.

There is keen competition amon with no cause for extravagant laudations, but who is making a tour of various stockmen for feeders as higher prices are generally excepted west that he way be as well acqueinted with this part of the Danimion of Canada as he is with the before the next cattle crop is ready for market. More farmers are now buying cattle for winter feeding than This man is Hon. Nelson Monteith, ver before in this province. A great many two-year-olds are being picked p for that purpose.

Mr. J. McCoig, of Edmonton, an en-

ex-minister of agriculture for Onta-rio under the Whitney government. Mr. Monteith has made a brief but mest observant tour of the west as husiastic sheep man, having an infor as the coast and visited Edmon-ton on Tuesday on his return to his terest in a sheep ranch at Leth-bridge, is preparing a bulletin for the Alberta Sheep Breeders' Association on the sheep industry of the pro-vince K He believes that by systemfarm near Stratford, Ont. While is the city, Mr. Monteith called of Hon. W. T. Finlay and Mr. Gen Harcourt at the Parliament build atic work in directing the attention of settlers to the breeds best adaptings, the latter of whom was a class mate of his at the Ontario Agriculed to his province new interest might be aroused in an important branch of the live stock industry, which at pre-sent is rather on the decline. It is well known that Mr. Monteith does not place much stress o

CATTLE BUSINESS IN DANGER. the activities of public life. He feels that there are greater enjoyments in Toronto. Dec. 8.-The most seriou life than aspiring to fame and maknase of the live stock business The pleasure that the Eastern Canada today is the recer management of his farm gives him outweighs all the fascinations of puboutbreak of foot and mouth disease in Pennsylvania and Washington, and lic office. Mr. Monteith indicated the ever-present possibility that this state of mind in the course of disease may spread to other places, and to wider boundaries. At the presentative. It occurred in giving his sent time the affected districts are unimpressions of the west der the strictest quarantine, and this fact prevents the transportation o

"What I notice most about the west," said Mr. Monteith, "is the all stock yards, where, in fact, the disabsorbing desire on the part of every-body to make money. Wherever I ease was first noticed, have been closed, and shipments through there are go, in the railway car, at the hotel, or on the street, I hear of propositions that are under way and of how much money certain individuals have made on a deal in real estate or on crop returns. This of course is typical of a new country, but as time pelled to ship via Canada, and must

cal of a new country, but as time pelled to ship via Canada, and must goes by the people must pay more send their cattle by way of St. John attention to the aesthetic side of and Halifax, as the Montreal ports their nature or they will miss the large move closed. They have accordingly spoken for all the available transfer and this brings the steamship space, and this brings the export trade of Canada for the present "A consequence of the desire for money is the enormously inflated values that are given to property and even to the necessaries of life. Especially is this true in British Columbia where living is very expensive and where values for fruit and farm large are up in the clouds. The level leaving American ports and carrying American ports and carrying amounts are considered. lands are up in the clouds. The lev-clling period must come, when the west will assume a more equable po-sition and when land can be bought for its commercial and not its specu-lative.

Mr. Montieth was impressed with The railroads are also co-operating the wonderful agricultural outlook with the government for the preven for these provinces. He was surprised at the small percentage of have decided not to carry American land under cultivation and at the cattle from the Western States which proportionately large areas that can be brought under the plow. In his opinion the department of agriculture has a problem before it, as so sures for the prevention of the entry of the control of the c much of the work to be done is ex-perimental by reason of the compar-Canadian exhibitors at the C Canadian exhibitors at the Chicago atively light rainfall here. In Onta-rio the rainfall is 42 inches, while in from going there by the fact that,

Alberta it is only some 20 inches in the year. On this account principles of agriculture which apply in Ontario do not apply to this province. New principles must be evolved. Alberta is only in the experimental berta is only in the experimental trongles in research to experimental trongles. In the show, they would have to be held in quarantine. Only one exhibitor of sheep. James Robertson, of Milton, got through with his pens of show sheep, and will have some difficulty in returning. Every precaution possible is being taken to guard against the spread of the disease. Meanwhile live stock interests will suffer more or less un Another thing about the west that comes under my observation, such time as the authorities are able said Mr. Monteith, "is the little at- to suppress the disease and stamp is tention that is paid to the news from out in a satisfactory manner. The the east. The impression I have introduction of such a disease is noth-gained is that you cut loose from the ing less than a continental calemity.

FARMERS' EDUCATIONAL

H. A. Craig, Superintendent of Fairs and Institutes under the department of agriculture, has returned from Washington, D. C., where he partment of agriculture, has returned from Washington, D. C., where he attended the annual convention of the American Association of Institute Workers. To a Bulletin representative Mr. Craig stated that the matters under discussion were of great importance to the organization work of Farmers' Institutes. It was pleasing to note that Alberta is well to the fore in agricultural education in comparison with much older communities, and has been adopting the most advanced methods in connection with advanced methods in connection with ing capital at a low rate.

In Australia for years the govern-

ment has made it easy for farmers to borrow money needed on their land—box, where he will be present at the at long time and low interest. meeting of the executive committee of Alberta Fairs Association on De-

Watrous Booming.

Real estate dealers report very large sales in Watson's lots and the analysis of the water of the inland salt lake, which has shown it to be their arrival in this city they were possessed of very valuable medicinal held by a Mrs. O. F. Hunn and H. L. this province as to its wonderful means a ½ cent per pound more to them for their beef ctatle. Scarcity of cattle across the border is compelling the Chicago export shippers to come who comes with no axe to grind, feet; this discovery is of the utmost importance to the district and this new city, springing up with a rapidity unusual even for Western Canada is now thoroughly equipped. The G. T. P. men are buying lots and are

evidently intending to make their homes there, owing to its conven-ience, as the central point between Winnipeg and Wainwright Eastern Excursions Mr. Duff says that the excursion traffic to the east has been exception ally heavy this year, and the weather has sent a large number of people back to Europe for the five allow. Every train leaving for Chicago and St. Paul during the last ten days has been packed. The G.T.R. are doing a big business in steamer passage via Portland, New York and St. John.

BLACKMAILERS ROUNDED UP.

Chicago, Dec. 9.—For some time past wholesale blackmail has been levied by the Knights of the White Death, but owing to the tears of their victims, have not been exposed. Em poldened, the blackmailers tried their hands on Assistant Chief of Palice Schuttler, and Dr. Gehrmann, who recently killed a burglar, the latter receiving two letters alleging that the dead burglar was a member of the city. Naturally they were not intimidated, and the appointed rendezvous, which was the confessional box of the R. C. church of St. Jar-

SASKATOON STABBING AFFRAY

Drunken Brawl Results in Serious Injury to Horse Dealer. Saskatoon, Sask., Dec. 9.-In wa appear to have been a drunken squabble over money matters a mar pamed Sparks, a farmer a few mu from town, starbel a local is see dealer named Matter in four or five places. The affray took place about 7.30 tonight in the Windsor hotel bar, where the two were drinking. They had a few words, clinched, and in a flash Sparks drew a jack knife and slashed at McEwen, cutting him in half a dozen places. The worst stab, or at least the one that bled most, was a long gash in the head. The doctor was called in at once and Sparks taken to the cells, while the doctor attended the injured man, who will recover, although he lost a large quantity of blood. McEwen is a great big burly man and must have crushed his assailant had he been perfectly sober.

And thanarer, that ma since September. Since Saturday Inspector Fox has released eight patients from the smallpox hospital and four quarantined houses. There are three or four houses now under quarantine but these are expected to be lifted some time this week.

Ald. Manarer, chairman of the city health committee, stated that the extra mildness of the disease had at first creatly handicapped the department because cases had afterwards come to his notice that persons had been out mingling with others who had symptoms of smallpox but had been so mild that they news from India that there was prospect of an enormous crop, Argentine offerings were tair and cheaper, and apparently the reaction was the content of the city was a constant. 7.30 tonight in the Windsor hotel bar, where the two were drinking. crushed his assailant had he perfectly sober.

Wall Street Has Fast Finance. New York, Dec. 9.—The Wiscon Central directors discovered too that D. D. Mann, of MacKenzie Mann, builders of the Canadian Nor thern, was in town, and knowing that he would deny their report of the proposed sale to the Canadian and beat him to the tickers with made me prouder than ever that I am a Canadian. There is a wonderful future ahead of our country, in the exploiting of our fisheries, our minerals and our soil. The best brains that the country can produce brains that the country can produce brains that the country can produce will be exploited by the produce brains that the country can produce brains the produce brains that the country can be connected with state brains that the country can be connected with state brains that the country can be connected with state brains the country can b The man who is negotiati ment was made today that the four payments would be crowded togeth ster's he capital of the national bank is to be \$9,000,000, and it can he capital of the national so as to get them all out of the treasury before June 30. There is use an amount equal to its capital out of the reserve funds in the govhigh finance, frenzied finance, and now, Wall street, has fast finance

Franco-Canadian Agreement. Canadian Associated Press.
Paris, Dec. 9.—The Customs Conmittee of the Senate have listened the further statement by M. Cruppi minister of commerce, on the Franc Canadian agreement. The committee while expressing itself as equally de ous with the government to eq clude a commercial agreement with the country which is bound to France by so many traditions and memorie refused to commit itself with regard to the important points of the agreement. They advanced grave objections to which the minister replied. M. Cruppi will amplify his

hint for Edmonton. The Toronto fair is managed by the city in the same way as any other department. In a recent issue of the Toronto Globe a report was published regarding the affairs of the association, showing what a pronounced success this system of management was having. The fire satisfaction with the results of profit this year from the fair held in Toronto last summer was between \$43,000 and \$50,000. During the past six years the City of Toronto has received from the exhibition a total profit of about \$290,000.

Minnipeg to Wainwright. The trains will leave Winnipeg at 8.30 a.m. on Monday. Wednesday and Friday and

on the promise of positions as cashier in Chicago restaurants, and that on Hinson, supposed to be a lawyer. Finally they were taken to Crown Point, Indiana, where they were orced to marry two Chinamen. Point. Upon the offer of their husbands to

pay them \$500 for any white girl that they could persuade to present hersel as a candidate for a Chinese mar riage, the two girls say that they brought their sister from Chicago and were preparing to sell her to a Chinaman. The case is to come up before Municipal Judge Pinckney, who it is expected that further details of well-laid plan of traffic in white girls will be exposed.

CANADA'S TRADE EXPANDS. North of England, According to

Trade Commissioner's Report. Ottawa, Dec. 7 .- J. A. Chesley. nadian trade commissioner at apetown, reports to the Trade and commerce Department that last year South Africa imported 288,297,636 bounds of flour, valued at \$4,178,660. Of this Australia supplied 241,000,000 pounds; Canada sent 1.449,119 pounds. worth \$5,163, as against 3,607,250 Ccicago Gang Succeeded in Extracting \$25,000 From Unimidated Victims.

Worth \$5,168, as against 3,607.250 pounds, valued at \$11,514 in 1906. The bulk of importation is of wheat, our grain only being needed for mixing

grain only being needed for mixing Surposes.

The trade of Canada with the north f England is growing in a remarkable nanner, according to a report which commissioner J. B. Jackson has sent from Leeds to the Department of Trade and Commerce, Mr. Jackson states that a few years ago there was 12c to 12%c. practically no direct business done with Canada from the north of England, and all the Canadian produce which was sold there was disposed of

as American. Now, however, Mr. Jackson says: "The progress of Canada and of Canalath, was watched and two suspects dian affairs in general ere followed who ventured there were shadowed to here with such close interest that in who ventured there were shadowed to their lairs. There, it is claimed, a large amount of incriminating correspondence was seized, which showed that \$25,000 had been drawn from intimidated victims. The police refuse to give details or the location of the gang's lair, pending the rounding ap of several incriminatedcmfwyp wyp of several of those incriminated. seeking the use of the word Canadian to aid them in the sale of goods."
