The Evening Chit-Chat

By RUTH CAMERON

I have occasionally devoted and shall occasionally devote this column to telling some of "the other things" that women are doing in the world.

I hope to bring a suggestion to some of the women who have their living to earn and to whom none of the beaten paths appeal.

I wish any woman who is doing something out of the ordinary line of women's work would let me know about it that I may tell of it in this column.

"If I had my life to live over again I should take an agricultural course instead of a course in the normal school. Out-of-door work is much more healthy for the majority of women, and compared with school teaching, it is much more remunerative."

That's the conclusion of one woman who broke down as a school teacher and became strong and well as a "visiting gardener."

Being a "visiting gardener" means that she took full charge of gardens, planted them and kept them in shape. On a small farm of her own she raised young plants to sell to her patrons and also had something of a market garden. People who had summer homes in the country and wanted their gardens started before they came out from the city were some of her best patrons.

She hired two Italians as assistants and charged twenty cents an hour for her time and theirs.

In seven years she has made a good living and more than half paid for the place she originally hired. She believes there are plenty of oppor-

tunities in the suburbs of all large cities for such work.

Another outdoor occupation into which a good many women who are unable to stand the confinement of indoor work have gone is that of mail carrier. It may not be widely known but it is a fact that there are many women who are earning as much as rural mail carries as they would for school teaching in their respective districts.

Raising Persian kittens was the business into which one girl went to escape being a stenographer.

When she started in with one Persian kitten, bought with the money given her for an Easter hat, all her family laughed at her except her father. He said he thought staying at home and raising sable cats was much better than rushing off to town every morning to sit in an office and bang a typewriter.

Her kittens have sold as high as \$500 when suitable for show purposes. She seldom sells for less than \$25. She has had to study the subject deeply, and says it has also taken hard work and much time, but she makes as much as a stenographer and enjoys the work far better.

Raising cats might at first seem an unusual occupation but it won't when I tell you how one woman in Granby, Mass., makes her living. How would you like to have a thousand or more mice in your back yard. She has all of that, for she raises mice for a living. Mice, mostly, but also guinea pigs and rabbits. The mice go mostly to laboratories, but some are sold for pets. Rare breeds sell as high as \$200, but the laboratory kind bring much less.

The animals eat up immense amounts of vegetables and fodder and require great care. She says she works at least twelve hours a day, but she makes a comfortable living and is much out of doors.

Do any of these methods of earning a living appeal to you as preferable to the beaten paths?

Ruth Cameron

Silence!

The instinct of modesty natural to every woman is often a great hindrance to the cure of womanly diseases. Women shrink from the personal questions of the local physician which seem indecent. The thought of examination is abhorrent to them, and so they endure in silence a condition of disease which surely progresses from bad to worse.

It has been Dr. Pierce's privilege to cure a great many women who have found a refuge for modesty in his offer of FREE consultation by letter. All correspondence is held as strictly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Favorite Prescription restores and regulates the womanly functions, abolishes pain and builds up and puts the finishing touch of health on every weak woman who gives it a fair trial.

It Makes Weak Women Strong, Sick Women Well.

You can't afford to accept a secret remedy as a substitute for this non-alcoholic medicine of known composition.

HOUSEHOLD NOTES.

Nickle should be cleaned with whiting and ammonia.

Table napkins and table cloths should never be starched.

To keep flies away, plant a hop vine around the house.

Bristle brushes, if merely dusty, can be cleaned in corn meal.

A small broom made of stiff wire is convenient in cleaning skillets.

A weak alum bath is good for tender feet which suffer in summer time.

Keep a bag of sulphur in the bird cage to drive away lice in hot weather.

Salt sprinkled on a carpet before sweeping reduces the amount of dust that rises.

Cut glass looks clearer when washed in tepid water and brushed with a dry bristle brush.

To clean Japanese trays, rub a little olive oil on and then polish off with a flannel.

When next cooking asparagus, add a little rice. The dish will be found most satisfactory.

To polish stoves, use boiled linseed

oil on the steel parts. Rub well with a woollen cloth.

Ice cream becomes better if it is not allowed to chill before the can is turned in the ice.

When mosquitoes get into the house, heat a shovel, pour a teaspoonful of carbolic acid on it and burn.

A piece of beeswax tied up in a rag to rub quickly over the bottom of a hot flatiron, will keep it smooth.

A bosom board for fine shirts should be very smooth and but thinly covered; some advise a marble slab.

Do not put milk in the cut glass tumblers. Milk clouds glass so that

its original brilliancy cannot be restored.

Some persons keep their veils in condition by dipping them in alcohol several times and hanging them up indoors to dry.

Apply glycerine to a scald directly the accident occurs, and cover it up with strips of rag soaked in glycerine.

When next serving canned corn, add a sweet Spanish pepper, shredded, and heat it with corn. The flavor is delicious.

If the top of the kerosene lamp becomes loosened, it may often be effectively tightened by applying a little melted alum.

Weymouth.

Admiral Markham's Views on Dreadnoughts

New York, July 22.—Admiral Sir Albert Markham, British naval expert and Arctic explorer, arrived to-day by the steamship Adriatic, accompanied by Lady Markham and their ten year old daughter, Joy. Admiral Markham has come over to visit friends in this country and Canada.

Admiral Markham believes the limit has been reached in Dreadnoughts, and that the 20,000 ton battleship is the most practical one.

Electric Restorer for Men.

FERROVIM

A Tonic Wine, pleasant to take.

Gives strength

Makes new blood

Builds up the system

Throws off all weakness

A tonic to those recovering from wasting fevers and long illness.

Sold by all medicine dealers.

Davis & Lawrence Co., Montreal.

Nutritive Hypophosphites

When a person feels "blue"—"all tired out"—doesn't feel like doing anything—cannot concentrate his mind on his work—feels weak mentally and physically—doubts his powers—complains of poor appetite and sleeplessness—suffers from headaches—then his nervous system is run-down and demands a good up-building tonic. Nervous exhaustion is a modern disease, caused by too close attention to business, overwork, worry, devotion to trying family cares overstudy, etc.

Nutritive Hypophosphites forms the best nerve and brain food known, and have restored thousands of sufferers to health. Large bottle, \$1.00.

The more you trade here, the better you like this store.

Johnson's Boasts

Cost Seven Hundred

Chicago, July 19.—Jack Johnson will have to turn some \$700 of his wealth over to Cook County as a result of boasts following a recent controversy with George Little, his former manager.

Johnson at that time asserted, in disputing Little, that he had \$30,000 in the bank, a valuable auto, and diamonds worth \$15,000. The statement was printed and a copy retained by the county board of assessors.

Now he will be assessed on this amount of personal property. His profits of the fight of July 4th are not subject to the tax under the Illinois law, having been acquired since April 1st.

Rickard's \$20,000 Offer.

"Tod" in the Boston American says: After a conference at Los Angeles, Saturday, with Jim Jeffries, Tex Rickard sent this despatch:

"I will bet \$20,000 that Jack Johnson can beat any two men in the same ring. One man wants to go in just as the other man is through. I don't bar any one, and if it can be arranged I will put up a suitable purse."

TEX RICKARD.

That means that Jeff is out of it. Tex Rickard just now is the strongest Johnson booster there is in the world. I came down from Reno with the big promoter, and he said: "Why, the way Johnson played with Jeff was awful; he's as tricky as McCoy ever was."

The funniest thing that happened in the fight to me was when he let Jeff punch him in the stomach in one of those clinches. He just pulled his right hand away, leaving Jeff's left free, and then told Jim to punch him in the stomach. Jeff did, and then Johnson offered him a chance to punch him there again. Well, Jeff pulled his hand back to send in the other one, but like a flash Johnson upper cut him on the jaw.

"I don't think there is a man in the world who classes with Johnson, and the only man who will ever beat him is himself. If he takes care of himself he will retire a champion."

Johnson against Burns and Langford would be a hear of a card.

WIRE WOUNDS.

My mare, a very valuable one, was badly bruised and cut by being caught in a wire fence. Some of the wounds would not heal, although I tried many different medicines. Dr. Bell advised me to use MINARD'S LINIMENT, diluted at first, then stronger as the sores began to look better, until after three weeks the sores have healed, and best of all the hair is growing well, and is NOT WHITE as is most always the case in horse wounds.
