### They Contradict One Another.

The Daily News is apparently unable to reconcile the gross discrepancies we have exposed in the statements made by the Premier, the Minister of Finance, and the Daily News itself. and continues to maintain silence on

In the Manifesto which the Premier made at Burin last month and which was published in the Daily News, Sir Edward Morris declared that the Bonavista Branch, the Trepassey Branch, the Heart's Content Branch, the Bay de Verde Branch, the Bonne Bay Branch, the Fortune Bay Branch and the extension of the latter through the long peninsula of Burin were all to be paid for out of the money realized from the 1910 Rail-

We have, also, shown and it is not denied, that the Daily News estimate of \$15,000 a mile is an under estimate for not a cent is allowed for the purer not a cent is allowed for the value

of stations, piers, wharves, fences and other extras which are not covered by the charge of \$15,000 a mile, but orm the basis of a separate charge based on their fair value, and which the Government is called upon to pay

In estimating the total cost at \$5, 50,000, the Daily News includes the lonavista item as 88 times \$15,000 monthly. Bonavista item as 88 times \$15,000 or

We have already pointed out the glaring discrepancy between this as-sessment and the statement of the Minister of Finance in his last Budget Speech. Here is what appears in the official report of that Speech:—

"Really the public debt on the 28th of February last was not \$27,000,000, but about \$24,235,000, the railway contractor having been paid up to that day \$1,212,000, and the right of way arbitrations, etc., having cost \$80,000. The branch railway to Bonavista is now about four-fifths completed and will be finished early this summer.' Is it to be wondered that the Daily News has refused to undertake the job of reconciling this statement of the Finance Minister, with its own estimate that \$1,320,000 would pay for the whole branch, rights of way,

stations, wharves, piers, fences, fences and all extras. Is it to be wondered at that in view of the most extraordinary muddle of the Premier's financial statement at Burin that we have asked for a plain financial itemized statement of the actual expenditures on the several branches already under construction and an estimate of what remains un--paid for and what remains undone in connection with the Bonavista

e cost at \$5,250,000.
We have already pointed out, and it discrepancy between \$1,212,000 for four-fifths, and the \$80,000 right of way; and the Daily News' estimate of \$1,320,000 for the finished line, stations, rights of way, that we persis

n asking for particulars?

Does the Daily News realize tha its own estimate only exceeds Mr Cashin's \$1,292,000 by \$28,000, which is not near enough to complete the short Trinity Spur with stations, &c and which was begun recently?

How then could \$28,000 pay for the one-fifth of the Bonavista Branch of 90 miles which remained to be built last February, when the Finance Minister made his statement?

In view of these facts, it is up to the Premier and the editor of the Daily News to put themselves right with the public, whom they have so glar-

ingly misled.

In a conversation with Hon. E. R. Bowring, President of the Importers' Association, which the Telegram had this forenoon, that gentleman stated that if it could be found that there was any reasonable ground to believe the reports about the city which would go to indicate that dishonesty would go to indicate that dishonesty was apparent in the city stores, in connection with the big seizure of goods made from a house on Colonial Street, he thought it might be advisable to call a meeting of the Importers' Association to deal with the mat-ter, and to see to it that a rigid in-vestigation would be made in all the dry goods stores of the city. This, he believes, would be the means of weeding out and possibly putting an effect-ual check on crooked practices and would vindicate the character of the innocent, who may be under suspi-cion of wrong doing.

#### **Molasses Advancing**

Yesterday the price of molasses again advanced and is now quoted at 31 cents a gallon, which is the highest for many years past. Stocks in the city are very low and the price it is feared will be prohibitive to dealers later. The year's crop is all in and there will be no opportunity of augmenting the stock now held here. Special to Evening Telegram.

THE POET PHILOSOPHER

I am coughing, mother, coughing, itil my neck is out of joint, and I wish you'd bring the goosegrease, my worn bosom to anoint. I have coughed in ancient lingos, I have coughed in modern tongues, till my THE BAD India rubber larynx seems to telescope my lungs. I've COLD SEASON done ground and lofty coughing, all the plain and fancy kinds, till my coughing jarred the plaster and shook down the window blinds; I have coughed a counter-tenor, I have coughed a rumbling bass, I have coughed until my coughing blew the whiskers from my face. All the dope you've brought me, mother, simply fails to hit the spot; I have taken tons of tablets, demtjohns of liquid rot; I have drunk the tea you brewed me, worn a poultice on my throat, and the doctor has my savings and the druggist has my goat. Let us change the treatment, mother; give me goose or gander grease; rub it on my tortured larynx and perhaps I'll die in peace.

## **Must Use Cascarets**.

What glasses are to weak eyes, Cascarets are to weak bowels-a 10cent box will truly amaze you.

Most old people must give to the

owels some regular help, else they suffer from constipation. The condition is perfectly natural. It is just as natural as it is for old people to walk slowly. For age is never so active as youth. The muscles are less elastic. And the bowels are muscles. So all old people need Cascarets. One might as well refuse to aid weak eyes with glasses as to neglect this cate the owners, who are people per gentle aid to weak bowels. The bowels must be kept active. This is im portant at all ages, but never so much

as at fifty.

Age is not a time for harsh physics.

Youth may occassionally whip the bowels into activity. But a lash can't bowels into activity. But a lash can't of the old need is a gentle and natural tonic. #### Fire in West End.

An alarm of fire sent in at 7.25 this norning called the West End and central men to the central part of Alexander Street where a little box n the house of Mrs. Gosse had set fire to the window curtains with matches. The men from Parker & Monroe's factory were there before the firement and put out the fire which looked threatening as it ran up the window and burnt the curtains and blinds and was just catching the wall.
