Examines the eyes without
DRUGS, DROPS or DANGER.
He not only finds the trouble, but
with his perfect optical machin-
ery he can grind the correct lens
to suit the most complicated
cases, and do it quickly.

There was a time when all com-
pound lenses had to be sent out
of the country for, involving a de-
lay of three or four weeks, but
that day has passed; an hour or
two is sufficient to produce any
lens that may be called for.
Prescriptions filled or broken
lenses replaced if you have the
pieces.
