

## DUNLOP TIRES

### "Built-In" Safety

If the safety features of a tire are not recognizable with the naked eye, you will know soon enough that those features are not there when the car is on the road. Examine Dunlop Tires—"Traction" or "Special."

### Wedding Bells.

A quiet but pretty wedding took place at St. Patrick Church, City, on Tuesday, April 24th, when Mr. Michael J. Donovan led to the altar Miss Maggie Baird. The ceremony was performed by Very Rev. Father Renout. The bride looked charming in a dress of blue silk and hat to match and was attended by Miss Jessie Donovan and Miss Violet Byrne, sisters of the

groom and niece of the bride, respectively, who wore dresses of blue silk and white hats. The groom was ably supported by Mr. William Squires, cousin of the groom, and Mr. William Cavanagh, brother-in-law of the groom. After the ceremony the happy couple drove to the home of the bride's parents, Hamilton Avenue, where they will reside in future, and where supper was served and dancing kept up until the wee small hours of

the morning. The bride and groom received many useful presents which are too numerous to mention. We wish them many years of happiness throughout their wedded life.

### What a Gas Range Means for You, Mrs. Housekeeper.

The gas range is a muscle saver and a step saver. Think of the many tons of coal you used in that coal range, and how you have had to handle it all twice; first, carrying it up out of the cellar; then, from the kitchen to the ash barrel.

No more soot to wipe away; no more ashes to cart away; no more wood to fetch; no more coal dust; no more smoke and no more reason why the kitchen cannot be kept as clean and as orderly as the parlor. The gas range means just this.

Saves 50 Per Cent. of Kitchen Cares.

Half of the labor in the house is caused by dust from the coal range. Every time it smokes, no matter how good the draught may be, clouds of ashes rise and settle on the furniture. It Eliminates Hard Work.

Use a gas range and you will live better, you will play better, and you will work better because the use of the gas range eliminates the drudgery of carrying coal, ashes and the chopping of kindling, as well as the drudgery of cleaning up a lot of dirt, and, best of all, for the cook it makes it unnecessary for her to stand over a hot stove from two to three hours a day.
