Fortunes in Flags.

The world will never have witnessd such a display of bunting as will stream to the wind on the day when Peace is actually declared, and the value of these flags will represent an enormous fortune.

Even ordinary flags are by no means cheap articles. The Union Jack, of full size, and made of silk, cost, in 1914, the sum of £25. It is worth to-day just double that figure.

The most valuable flag in the world is one that was made a good many all too well fulfilled.—N. Y. Tribute. years ago, in America, for exhibition stars in at the Chicago World's Fair. William Hohenzollern is a religious man. He reads the Bible. Perbaps, like most ignorant men, he is superstitious. If so, his kind friends in Holland might call his attenton to the curiously important part the number eleven has played in the history of the little drama in which he started out as the hero and ended as

the arch villain. The war came to an end on the eleventh hour of the eleventh day of the eleventh month. Turing to the eleventh verse of the eleventh chapter of the Bible we find this:

of thee, and thou hast not kept my covenant and my statutes, which have commanded thee, I will surely rend the kingdom from thee, and will give it to thy servant."

A curious analogy surely. The hard-headed will find it an odd coincidence of no significance. Wilholm Hohenzollern, brooding, with the faces of starving women before Lis eyes, the cries of children in his ears, his world dream shattered, his kingdom gone, and the shadow of his own doom hovering near, may see in 'he Bible verse a prophecy that has been
