Economy of Ford Service WEAR is unavoidable even in the best car, but certain parts wear out more quickly than others. There is no need of scrapping your car because the piston rings have seen their day, because the platinum points of the vibrators are worn out. Probably the rest of the car is as good as new. Medical men agree that the human body is renewed, cell by cell, every seven years. You can do the same with your Ford Car and prolong its life at minimum cost by replacing worn parts from time to time.

Ford service has been the means of doubling the lives of hundreds of Ford Cars, and cutting down the cost of motoring. The fact that a Ford Touring Car, which costs \$690, f. o. b. Ford, Ont., can be purchased part by part separately for \$917 is ample proof of the economy of driving a Ford Car.

It will pay you to have your car overhauled during the winter months. 700 Canadian Dealers and over 2,000 Service Garages supply genuine Ford parts and prompt repair service. When buying, choose a Ford, and take advantage of the economy of Ford service.

James Thayer, Dealer, Aylmer

McClary's Pandora So well known as to have become a Canadian institution is this grand working Pandora.

Glass oven door; tested thermometer; an oven so evenly heated that even the beginner can bake well with it. Grates work smoothly; reservoir is enameled and may be removed for cleaning. There is a lifetime of satisfaction in the Pandora.
