—A very pleasant time was spent last evening in the lecture room of the Dundas Street Center Methodist Church, when the Epworth League of Christian Endeavor gave a social evening to its members and the young people of the church. A short programme was rendered, consisting for the first part of soics by Misses Gunn, Bremner and Dalvi recitations by Messrs. E. Deunis, Dr. Ziegler and F. W. Daly, and a reading by Mr. L. Keenleyside. The second part of the

programme was somewhat novel, being a series of important speeches. Two minutes were allowed for each speech—a card with the subject being handed to each speaker as they came forward speaker as they came forward in response to their name. Two bouquets were presented at the close, one to the party making the best epecch, and the other to the one making the poorest, a vote being trken by the audience to decide. Between 150 and 200 persons were present.

Business for the County Council.

Some interesting items of business will be disposed of at the session of the County Council which starts on Tuesday. A county clerk and a jail surgeon are to be appointed, and there are a number of aspirants to each position. The Lieutenant-Governor-in-Council has given permission to county councils to request that one magistrate for each county be appointed, and this matter will come up for discussion. The county engineer has not heard of any large bridges having Leen washed out by the flood, although many small ones and culverts have been swept away.

The River Receding.

the flood, although many small ones and culverts have been swept away.

The River Receding.

The river is falling steadily, as the sediment along the banks shows. No further damage of a local nature is reported. An immense amount of driftwood has been coming down, a fact which would indicate a washout somewhere above. A large portion of a bridge was seen floating last night. It is reported that the dam at St. Marys gave way. An Ingersoll dispatch says: "Quite a number of farms in this section are completely flooded, and it will be some time before it will be possible to do any work on them. In town some anxiety was felt for the welfare of the mill ponds and property lying adjacent to them. Sofarthey have withstood the pressure except Buchanan's, which gave way during the afternoon, although doing no very great damage. The Thames was never known to be swollen as high as it was to-day, although there is now some abatement. It is reported that several bridges in the country were washed away—one near Beachville and one near Putnam—and the roads are impassable."
