Carrington today: New York, Sept. 24—Noon.—Liqui ation. New York, Sept. 24—Noon.—Liquination is very much in evidence in the stock market today, and this fact might as well be accepted first as last. One cannot ascribe the present condition of stocks to short selling or manipulation. There is something more to it. Bearish operations in the face of excellent conditions are usually likely to prove a boomerang. The market, since the opening ing, has been nervous, depressed and altogether under the influence of an adverse sentiment. The only specifically bad influence at the opening was the lower London prices. The tractions lacked backbone, and specialties are weak. The sentiment of traders is that 1.8 Steel. com. 17%

WHIST PLAYERS COMINGIARE SHORT OF PEACHES

Big Tournament Likely To Be Big Demand From Detroit Is Af-Held on Thanksgiving.

Woodstock, Aylmer, Chatham, St Thomas and London Witl Play.

Mr. J. G. Wallace, a prominent member of the Canadian Whist League, was in the city today, with a view to making arrangements for the holding of a tournament here on Thanksgiving Day. Mr. Wallace has been at Aylmer, St. Thomas, Chatham and Woodstock within the past few days, and whist players who live in those places are ready to send representatives here, and it is thought that as this is the most central western point, if the tournament is held anywhere it will be in London. There are a large number of good players here, and it is Mr. Wallace's intention to endeavor to wake up interest in the western sec-

tion of the province. The games will be played on the Howell and Compass system, and the Oddfellows' Hall will likely be the place selected as the scene of contest. Definite information in regard to the matter will be received in a short

last year. The reason for the jump in prices is given as the failure of the Michigan peach crop, which this year, owing to the wet weather is the smallest probably ever known in that state. Michigan buyers are as a consequence flocking to Canada, and yesterday one firm shipped to Detroit 4,000 baskets, bought in the Leamington district at 40 cents, f. o. b. at the depot. Thus, although Canada has a good crop this year, the shortage in Michigan, and the big demand from that state, is keep-

Owing to the continual wet weather, Canada's crop is of a rather mediocre quality, the skins being spotted and the fruit being anything but first-class. Peaches, however, are raking in dollars for the growers this fall.
