

WIFE INFORMED OF DEATH OF HUSBAND, MISSING 12 YEARS

Advertiser Dispatch Brings News to Mrs. Elias Rice.

SEPARATED LONG TIME

Mr. Rice Went West 30 Years Ago—Leaving Family Behind.

In a special dispatch to The Advertiser from Winnipeg today the news was received that Elias Rice, now generally known as "Dan" Rice, had died at the residence of Alex. Anderson, near Homewood, Manitoba. This news was conveyed by The Advertiser to his wife, Mrs. Rice, of 25 Wharfedale road, who had not seen her husband for 30 years or heard of him for twelve years.

Mrs. Rice says her husband left her 30 years ago to go west and take up land, the intention being that he should make a home for her and her five young children. For nearly 30 years she lived from him periodically, but he never announced that he was ready to welcome his family in the west. At length letters ceased to come, and she gave up hope of seeing him again. About fifteen years ago Mrs. Rice came to London and has lived here continuously since then.

Mrs. Rice told the facts to The Advertiser in a steady voice, but towards the end of the interview her eyes became wet. She showed no resentment against the man who had left her without even a letter for so long, only remarking: "He was good to me while with me, and he is dead."

Two of the children whom he left in Ontario have died, but one son and two daughters survive—George of Sarnia, Mrs. Bert Wiltshire of 327 Waterloo street, city, and Mrs. Benjamin Holby of Belmont.

The Winnipeg dispatch reads as follows:

"Elias Rice, known as 'Dan' Rice, for 30 years a resident of Canaan, Manitoba, and died today at the residence of Alex. Anderson, near Homewood, Manitoba, from heart failure after only half an hour's illness. Rice was a building contractor and erected some of the finest houses in London in Southern Manitoba. He was doing some work at Anderson's at the time of his death. He was 66 years of age and had been married for 30 years. His wife and three daughters live in London, Ont."

AUDITORS' SALARIES TO COME UNDER HOT FIRE

Ald. Asplund Thinks All Can Be Brought Under \$5,000.

The functions of the city auditor, his assistants, and the salaries which all should be paid, will be discussed at some length by the finance committee at the next session.

Ald. H. B. Asplund claims that the centralizing of the audits will cost the city \$4,500, and would cover all the work.

The amount actually paid Frank G. Jewell and his assistants last year was \$5,000, and the increases advocated by the board of auditors would bring the amount up to \$5,375.

The plan of Chairman Philip Pocock would still further increase the amount to \$5,600.

"That is manifestly absurd," said Ald. Asplund. "We can have the work done for all spending bodies for \$5,000, including the London and Port Stanley."

ORGANISTS' CLUB HAS ENJOYABLE EVENING

An event much enjoyed by a large and representative gathering of the church organists of the city was the second meeting of the Canadian Organists' Club, held Monday evening in the studio of P. G. Killmaster, Queen's avenue.

The program was arranged by the host, Mr. Killmaster, and included a paper on "The Mission of the Church Organist and Chorusmaster in the Community," by Mr. Killmaster; a paper on "The Equipment of the Organist," by Mr. Morris, and a series of "Tone Pictures," by Mr. Mitchell, illustrated by a Bach prelude and fugue, and a Mendelssohn sketch.

One of the interesting features of the evening was the manner in which discussion was entered into following each paper.

Refreshments were served at the close of the program.

The club has been invited to meet next month at the home of Mr. Weir, organist and choirman of the Cathedral Church, who will be assisted in the preparation of the program by Charles E. Percy and Clarence Gilmore.

LONDONER APPOINTED

W. J. Ellison Made Treasurer of D. S. S. and A. Railway.

W. J. Ellison of Marquette, Mich., a former Londoner, has been appointed treasurer of the D. S. S. and A. Railway, and Atlantic Railway. Mr. Ellison is a grandson of the late William Love of this city, and a nephew of the late John Love.

"Mr. Ellison is one of the most popular officials of the South Shore in this city," says the Daily Mining Journal of Marquette. "He is a man of high position to the office of treasurer was received here with general satisfaction."

Mr. Ellison started with the company as office boy, and has worked his way up by hard and efficient work.

CERTIFICATES PRESENTED

Graduates of St. John Ambulance, Nursing Division, Given Diplomas.

Certificates and medals were presented at a meeting of No. 4 Nursing Division, St. John Ambulance, in its rooms at the corner of Talbot and Dundas streets, Monday night. Mayor H. A. Stevenson was to have made the presentations but was not able to attend and the certificates were given in his stead by the lady superintendent, Mrs. Swindall.

A demonstration of first aid work was given by some of the members and after the meeting, banquet and refreshments were served. The presentation was made by a number of the party.

Certificates were presented to Miss Mitchell, Miss Duff, Miss Horshaw, Miss Clark, Miss Rans, Miss Wright, Miss Sykes, Miss Simcox, Miss Stevens and Miss Smith.

Medallions were given to Mrs. Thompson, Miss Daisy Thompson, Miss Nell Thompson, Mrs. Swindall and Miss Needham.

NEWS

INSPECTOR A VISITOR—Provincial Inspector of Libraries W. O. Carson was in the city today.

BOARD MEETING.—The board of education will meet this afternoon. Other than routine business, there is little to come up.

LIEUTENANTS FOR GUARD.—Each guard at Queen's Park will be accompanied by the addition of a lieutenant in the future.

WANTS STREET IMPROVED.—Ald. Wilson is after the council to improve Oxford street from Richmond to Talbot. It is in very bad shape, but will be improved properly.

CITY GIVES HIM ROADBED, RAILS AND TERMINALS?

All Sir Adam Figures On Is New Investment.

RETURN OF 2 PER CENT

This Is Financial Result To City of Another Million Invested.

According to the best information of the London and Port Stanley report, the road paid about 2 per cent on the amount of money invested in electrification, after the bonded indebtedness had been taken care of. To pay even 2 per cent on the amount of money the city paid for the railway prior to electrification would mean that the surplus would have to be increased to \$40,000, but there is certainly no thought of money coming to the citizens. If the losses sustained by the road were taken into account the deficit would be heavy.

The old debt of the commission, which was \$1,250,000, which at 2 per cent would yield \$25,000.

Two Per Cent on Money. The electrification of the road means, as interpreted by the commission, that the citizens are getting 2 per cent for their money invested on the road's reconstruction. It would draw at least \$100,000, a loss of approximately \$100,000. Had the city invested the money that could have been realized from the railway, if sold at \$700,000, and the money invested in electrification, it would have yielded \$100,000, instead of \$14,474, about which such great claims are being made at this time.

Ignore Old Investment. The electrification of the road means, as interpreted by the commission, that the citizens are getting 2 per cent for their money invested on the road's reconstruction. It would draw at least \$100,000, a loss of approximately \$100,000. Had the city invested the money that could have been realized from the railway, if sold at \$700,000, and the money invested in electrification, it would have yielded \$100,000, instead of \$14,474, about which such great claims are being made at this time.

MR. JUSTICE LENNOX, WHO PRESIDES OVER ASSIZES IN SESSION

He was born at Inverlath, Simcoe County, Ontario, on February 28, 1850, son of William and Marie Lennox. He was educated at the Public Grammar School, and called to the Ontario bar in 1877, and created a K. C. in 1903. He was president of Simcoe County Law Association in 1910, and elected to the House of Commons for South Simcoe in 1906; re-elected 1908, 1910 and 1912.

In 1910, while in the House of Commons he moved for appointment to the bench, to secure a revision of the audit act.

Mr. Justice Lennox bears the distinction of possessing one of the most remarkable memories of any judge on the supreme court bench. Those who have attended court during the Mike Tancrand trial witnessed an exhibition of memory which has rarely been equaled.

Mr. Justice Lennox has practically committed all that mass of difficult evidence to memory, and during his charge to the jury, lasting one hour and twenty minutes, did not find it necessary to refer to his notes at any time.

His clear and lucid exposition to jurors of some of the technical points in law tends to facilitate matters for the jury in reaching a verdict.

In the conduct of cases before him Mr. Justice Lennox has shown himself to be a fair and just judge, and his decisions are always given with a minimum of delay.

Mr. Justice Lennox has practically committed all that mass of difficult evidence to memory, and during his charge to the jury, lasting one hour and twenty minutes, did not find it necessary to refer to his notes at any time.

His clear and lucid exposition to jurors of some of the technical points in law tends to facilitate matters for the jury in reaching a verdict.

In the conduct of cases before him Mr. Justice Lennox has shown himself to be a fair and just judge, and his decisions are always given with a minimum of delay.

Mr. Justice Lennox has practically committed all that mass of difficult evidence to memory, and during his charge to the jury, lasting one hour and twenty minutes
