BOYS' SUMMER CAMP AT NEW MILLS WILL BE READY FOR THE SEASON ABOUT JULY 1

To Be Known As Camp Bonaventure—H. J. Gilman and J. D. Littlefield of Cleveland the owners—Ideally Situated—Camp Buildings Large and Comfortable With Every Convenience—Boys' Assured Wonderful Holiday Under Proper Care—Camp Open To Local Boys.

An enterprise which will eventually mean much to the future of the Bay of Chaleur country is being undertaken this year at New Mills. This is the establishment of Camp Bonaventure, a summer camp for boys. This fine camp which is now nearing completion will be opened this year, being ready for the youthful guests with the coming of the summer holidays about July 1st.

Should Prove Popular

That this camp will prove very popular seems assured. It is expected that when camp opens this year some twenty-five of thirty boys will arrive at New Mills to spend their summer holidays at this delightful spot. While this number will be made up almost entirely of boys from Cleveland and other American cities, Camp Bonaventure is open to all and it is hoped that a good number of boys from Campbellton and other places in the province may take advantage of this opportunity for a well-conducted summer outing. In addition to the more youthful guests for whom Camp Bonaventure was primarily planned, the management expect to have as temporary visitors a considerable number of tourists who, having heard of this part of the country are anxious to spend a part of their summer holiday in the Bay of Chaleur country.

The Location

Camp Bonaventure is ideally located at a sheltered spot on the shaded shores of the Bay of Chaleur where every facility is at hand for salt water bathing, boating, fishing and other healthful outdoor recreation. Moreover, the camp is situated on a native forest, a collection of deciduous trees which form a fine natural camp. Being on the main line of the Canadian National Railway, between Montreal and Halifax, Camp Bonaventure is easily accessible from all parts of the country.

Up To Date

Camp Bonaventure has been planned with care by those who have a splendid knowledge of the requirements of such a camp. All arrangements are thoroughly up-to-date. The buildings are large frame structures with porches across the entire length and situated on a high bluff overlooking the bay. The dining-room and kitchen building is 72 feet long while the Dormitory is 174 feet in length. This latter building is airy and amply spacious having accommodations for the individual groups and their counselors and leaders. A large wash room with running water is also provided for and the spacious reading room is comfortably furnished having as an added attraction a large open fire place. The meals will be all that the healthy boy could desire and every comfort and convenience is thoughtfully provided for.

The Management

Another point which argues well for the success of Camp Bonaventure is the thoroughly competent management under which this summer camp for boys will be conducted. The owners of the camp are H. J. Gilman, formerly connected with the D. W. Hoegge Co. of Portland, Maine, and New Mills, N. B., and Mr. J. D. Littlefield of Cleveland, Ohio. Mr. Littlefield who is the Camp Director is nationally known in the United States as a worker among boys and the fact that he holds the responsible position of director of this new camp assures the prospective patron of the very best care of their boys. Mr. Gilman will, in all probability be the business manager of the new camp. Mr. Gilman is well and favorably known throughout the whole Bay of Chaleur country and his association with this new enterprise will doubtless be an important contributory factor to its success. Under the capable management of men of such ability this new camp should strongly appeal to parents everywhere who want their boys to enjoy a summer holiday under the most favorable and approved conditions.

For the boy who comes to Camp Bonaventure, a delightful country is assured. Every day will be a day of fun and games. There will be an Athletic Director in the great out of doors, and a swimming instructor at the camp and also a resident physician. At this new camp too every special trip to the famous Pesse Rock boys, both happily and morally so and Bonaventure Island, where they may be well shielded from the influence of the outside world.

OUTLOOK GOOD FOR TOURIST TRADE

Hotels of Bay Chaleur District Anticipate Busy Season—County Hotels Here Now Unexcelled.

According to information secured from various hotel proprietors throughout the Bay Chaleur district recently it would appear that the coming summer may see a very considerable increase in the influx of summer visitors to this part of the country. While last year established no records in the number of vacationists who remained here any length of time, the summer of 1924 brought a great number of auto tourists and motor campers and it is confidently expected that this season will record a tremendous increase in this class of summer visitor.

While many other parts of the Dominion are lamenting the lack of satisfactory hotel accommodation, the whole Bay Chaleur district has passed the stage where a complaint of this kind can be made. This part of the country is now unexcelled in this respect. With a good hotel at Metépédia, the northern entrance to New Brunswick, the Chateau Restigouche, the finest hotel in the Maritime Provinces, at Campbellton, good accommodations at Dalhousie, an excellent country hotel, Bay View Inn at Jacques River and splendid accommodations at the Gloucester Hotel in Bathurst, Northern New Brunswick is now admirably equipped to house and feed almost an unlimited number of summer visitors.

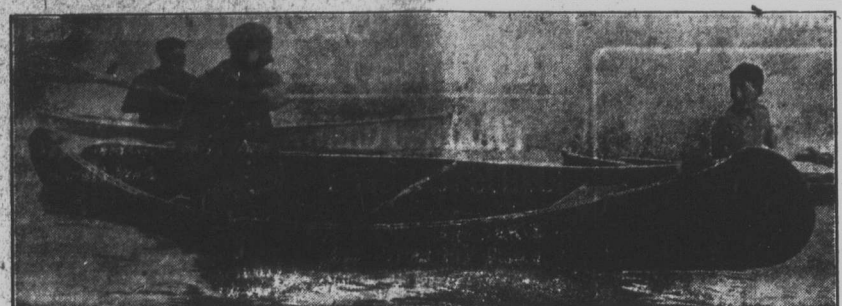

As the Bay View Inn at Jacques River the coming season promises a well-informed summer business. A large number of former visitors have already made reservations for the coming summer, inquiries from various parts of the country are still coming in and when this is added the transient trade, Bay View Inn will be the centre of a happy colony of vacationists this year.

On The Coast

In former years the traveller in the Gaspé Coast territory was sometimes a little fearful of what he might encounter along the coast under the name of hotel accommodation. Those who know the territory now know that this fear has been changed to anticipation of all the luxuries and comforts of home. The trip through to Gaspé constitutes a run of a little more than two hundred miles and there are now five good hotels along this route where the tourist may secure accommodation that is satisfactory in every respect. At Carleton Place, thirty miles from Campbellton, he will find the Wilfred Hotel where good meals and careful attention to guests are accepted as essentials. At New Carlisle, he may dine and lodge at the Carleton Hotel and enjoy the same advantages. At Percé he will have the best in hotel accommodation at the Percé Rock House where the table is even better than the average traveller expects. On reaching Gaspé, the end of the trip, one is assured of the best. No other summer hotel in the province of Quebec has won such distinction as that attained by Bakers

natural haunts, are also on the program of camp activities. The camp also has its own motor boats, seven in number, with an experienced man in charge and motor boat trips to all parts of the scenic Bay Chaleur are another great attraction at this new summer camp. In addition to these activities there will be camping and fishing trips galore as well as trips to pulp and lumber mills and various points of interest. All these excursions are highly educational as well as intensely interesting and all are properly conducted.

In addition to these healthy outdoor activities, such as baseball, basketball, tennis, swimming and other summer sports, the camp also has an excellent library of books and a well-stocked kitchen. The camp is also equipped with a large open fire place in the reading room, and a large wash room with running water. The camp is also equipped with a large open fire place in the reading room, and a large wash room with running water. The camp is also equipped with a large open fire place in the reading room, and a large wash room with running water.

ROYALTY GREET'S PLUCKY CANADIAN CANOEIST
Lieut. Smith paddled from Canada to New York, then took ship to London and paddled to Rome where he received a stirring welcome from rowing clubs, canoe enthusiasts and swimmers, to say nothing of the greeting by the Royal Family as he finished his record breaking trip on the "Yellow Tiger" in Rome.

NARROWLY ESCAPED VIOLENT DEATH

E. C. Burton Seriously Injured When Motor Truck Collided With Freight Train.

When a westbound freight train crashed into one of the delivery trucks of Gray's Wholesale at the McIntyre railroad crossing just below town at about 5:45 Tuesday afternoon Ernest C. Burton, driver of the loaded truck had a narrow escape from a violent death. As a result of the accident the unfortunate man is a patient at the Hotel Dieu Hospital where he is suffering from a fractured hip and several other less serious injuries.

When the accident occurred Burton, who had only been in the employ of Gray's Wholesale for a few days, was hurrying to Richardsville with a truck load of merchandise for merchants in that locality. Evidently the car had only mounted the track when the crash came for the loaded truck was hurled into the ditch on the same side from which it was approaching and lay there a jumbled heap of wreckage from which the driver was extricated by trainmen in an unconscious condition. The unfortunate man was placed aboard the van, taken to the depot here and then rushed to the Hotel Dieu Hospital with Dr. MacPherson, who had been notified of the accident, attending him. Burton regained consciousness before reaching the hospital and, although suffering considerably, has not again lapsed into a state of complete coma. At present it is feared that the unfortunate man might have sustained serious internal injuries in the crash but no indication of anything of this nature has been found and there is little doubt but that he will recover.

Discussion of the unfortunate occurrence has failed to disclose a logical cause of the accident. Since the railway line is open to view at this point it is presumed that Burton, naturally hurrying along with his last trip of the day, may have miscalculated the distance between the crossing and the approaching train and hastily concluded that he had time to cross. Mr. Burton who is a returned married is about 35 years old and an English girl while overseas. His former home was in New Richmond, Que., but he has been a resident of Campbellton for the past two or three years having come here in the employ of Mr. O. J. Klein.

SLAYER COMMITTED

SUICIDE IN JAIL
Springfield, Ill. June 2.—Mrs. Alexander Noyes, 51, confessed slayer of her husband, committed suicide by setting fire to her bedding in the county jail here, yesterday, making good her declaration that she would never enter a prison.

Hotel, internationally as the Tourists and Sportsman's Headquarters of the Bay Chaleur country, and no other hotel more richly deserves such enviable repute.

At these hotels too, the coming tourist season gives promise of being a busy one. One feature of the business this summer is that while many former patrons are returning for a holiday, a large number of reservations are being made by people who have never before visited the Bay Chaleur country.

GASPE CAPTAIN HIGHLY HONORED

Capt. J. E. Tremblay Made An Officer In The Royal Canadian Naval Reserve.

Captain Jos. Edw. Willie Tremblay, at present in command of the S. S. Caspasia, trading by the south shore between Montreal and Gaspé for account of the Canadian Steamship Co. Ltd., has been granted his commission as an officer of the Royal Canadian Naval Reserve. The order has been signed by Deputy Minister of National Defence G. J. Desbarats, and also by His Excellency, Baron Byng of Vimy, Governor-General of Canada and Commander-in-Chief of His Majesty's forces in Canada.

Captain Tremblay's commission was recommended by Commodore Walter Rose, R. N., Director of Naval Service, and the recipient has thus had a signal honor bestowed upon him, as there have been only two French-Canadian captains in the merchant marine to have received this commission and decorations for their services in charge of light cruisers on the Atlantic coast during the late war.

Captain Tremblay, although still a young man, is considered one of the most capable navigators on the St. Lawrence river trading to lower ports, and he is to be congratulated on his success in obtaining his commission.

TWO EX-CONVICTS WERE CAPTURED

Pair Captured by Chief Hopkins of Newcastle for Robbery at Shediac.

Newcastle, N. B. June 2.—Two ex-convicts, Albert Bugley, alias Walter McDonald, No. U-698, and Norman Phinney, alias Jud McGilvray, No. U-774, have been arrested here by Chief of Police Hopkins on charges of robbing J. E. White's store at Shediac, where some hundreds of dollars' worth of goods of various kinds were taken.

Chief Hopkins captured the pair single-handed while they were walking through the square in the centre of the town and only his threat to shoot on the slightest provocation together with the fact that they happened to be unarmed at the time made their capture without a running fight possible. Chief Hopkins identified his men by means of photographs obtained through the Maritime Penitentiary at Dorchester and recovered some of the stolen goods, also obtaining possession of an incriminating letter from the sister of one of the prisoners written from Stony Creek, Albert County.

Chief Gunn, of Shediac, has taken the pair back to town to stand trial. It is believed that the two ex-convicts were members of the gang which has been committing breaks at Edmundston and elsewhere in the province during the past few weeks. Only a few days ago a store near Edmundston was burglarized and part of the same gang are believed responsible for that break.

This is one of a number of important captures which Chief Hopkins has made since coming to Newcastle.

FORMED NORTH SHORE LEAGUE

Campbellton Shicks And Outlaws Entered For The Series—Dalhousie and Bathurst Also Represented

At a meeting of representatives of Campbellton, Dalhousie and Bathurst Baseball Clubs held in Dalhousie last week a North Shore Baseball League was formed. Five teams are entered in the league, the number being made up as follows: Campbellton, two teams; Dalhousie, one; Bathurst one and East Bathurst one.

The local teams entered are the Campbellton Shicks under the management of E. W. Henry, and the Outlaws under the direction of Frank Roy. The schedule of games for the North Shore League series has not yet been drawn up, this having been deferred owing to the fact that local baseball field is not yet in readiness for an encounter. It is hoped however that this will be arranged for within the next few days. In all probability the opening of the series will take place toward the end of next week.

A. K. SHIVES DIED HERE SATURDAY

Son of Mrs. Kilgour Shives Succumbs After Long Illness Buried In St. John.

In the death of Alexander Kilgour Shives, son of Mrs. Kilgour Shives, which occurred here at the residence of his mother on Saturday morning at six o'clock, a wide circle of friends here and elsewhere are called upon to mourn the passing of one to whom they were much attached. The deceased who was in his thirty-sixth year had been an invalid for the past seven years except for a few months when he was enabled to be about. About 1918 the late Mr. Shives was stricken with rheumatism which was later rendered the more serious through heart complications. During the past year these attacks became more severe and on Sunday May 24th, he failed to rally from a more serious illness which he had been suffering from for some time previous to his death.

The funeral services were held at Christ Church of which the deceased was an honored member, on Sunday evening at eight-thirty o'clock, the Rev. A. Brook Humphreys officiating. The service was most impressive and very largely attended. The remains were forwarded to St. John on Monday morning's Maritime Express, accompanied by relatives and friends. Interment was made in Fernhill Cemetery, beside those of his father who died some years ago and his brother, Robert K. who was killed in the late war and whose remains were brought back to his former home for burial.

Besides his bereaved mother, the late Mr. Shives leaves to mourn two brothers, Arnold K. of Vancouver and Reginald K. of this town, and one sister, Mrs. W. F. Napier, also of Campbellton. To them the heartfelt sympathy of the community is extended.

BISHOP PRAISES CHURCH UNION

Ottawa, June 2.—There has never in history been drawn up a better basis of the Christian faith than that of the United Church of Canada, declared the Bishop of the United Church of Canada, addressing the annual meeting of the United Church of Canada here this afternoon. Bishop Brewster declared that the Reformed Episcopal Church could go into the United Church retaining its own organizations and practices. Bishop Brewster is authorized to appoint two members to serve with him as a committee to meet the Council of the United Church.

SOME INTERESTING FIGURES ON PUBLIC HEALTH WORK HERE

FINE DRAMA WELL PRESENTED

Dalhousie Convent Hall Filled To Capacity—The Programme

Dalhousie, N. B. June 3.—The spacious Convent Hall of Dalhousie was taxed to its full capacity on Thursday evening, May 28th, when the pupils of the Convent, who were different parts of the County of Restigouche, witnessed one of the most interesting historical dramas ever put on a stage in the Shiretown, "Patricia the Unknown Martyr" drama in five acts. The occasion was the feast of Rev. J. A. Hart, parish priest of Dalhousie. Seated near Father Hart, and occupying front seats, were his confreres, Rev. Wilfred Legacy, Bathurst; Rev. J. Trudelle, Jacques River; Rev. A. Sivret, Upper Chatham; Rev. Eugene de la Garde, Nash's Creek; Rev. F. Verret, Campbellton. Assisted by Miss K. Doyle, teacher in the Dalhousie public school, the play was most successfully played by the pupils of the Convent, who were frequently applauded.

At the close of the drama, Miss Margaret Synette read a beautiful address in English to Rev. J. A. Hart, which was accompanied by flowers. In a brief speech Rev. Father Hart thanked the Rev. Sisters, pupils and all those who attended the splendid entertainment for the honor done him, and congratulated the pupils on the great success of their acting. He delighted all the pupils when he announced that it was his wish that the pupils be given a grand concert.

The following is the program of the entertainment which drew such a large audience on the evening of May 28th, and repeated with an additional drama in French on Tuesday evening, June 2nd, to a good house. In view of its importance as an ameliorative factor in the present community life no branch of health activity is deserving of the sympathetic interest and generous support of citizens generally as that of Public Health work. Despite this no work is carried on so quietly and receives so little recognition. This is true in Campbellton as well as elsewhere and for that reason the Health Nurse's pleasure in presenting from time to time a few facts and figures which should serve to illustrate the value and indispensability of this work which is so faithfully carried on here under the auspices of the local Red Cross Society.

Perhaps nothing is more eloquent of the value of this work than the fact that since Public Health Work was undertaken here the infant mortality rate has steadily decreased. In 1920 this was placed at 25.5; in 1923 at 15.4 and last year at 13.6. Although the local hospitals, doctors and others associated with the Red Cross all greatly contributed toward the success of this work, public health activities after all centre about the Public Health Nurse. Campbellton is fortunate in this respect for since the work was first begun here we have always had a competent person in charge of this department. The present Nurse Miss MacPhail is no exception. Coming here well equipped with practical experience for the work she has performed her duties in a most satisfactory way.

The following figures cover the period of the past six months and serve to illustrate this branch of the work as it is carried on in Campbellton. Number of visits, 1048; inspection of school children 3560; school inspections with Medical School Inspector 1350. The above visits are divided as follows: Tuberculosis 112; Organization, 103; School Visits, 200; Infant Work 633. In addition to this much needed dental work of a very important nature has also been done among school pupils.

Duties Of The Health Nurse
The duties of the Public Health Nurse are many and varied. They embrace School Work, Child Welfare Work and Prenatal and Maternity Work. While the public health activities are promoted by the Red Cross Society the public health nurse is under the direction of the Department of Health receiving her instructions from Miss Maclejohn of the Health Centre at St. John, N. B. Any citizen is privileged to call the assistance of the health nurse and this alone is a feature which has done much to place public health work in great favor wherever it was inaugurated.

The School Work is a most important department of the Health Nurse's activities and in view of the great number of cases treated among school children there is evidently enough work in this field alone to fully occupy the time of one nurse throughout the year. Besides the actual defects, many of which would prove serious if not attended to in youth, that are found among school children a valuable work of health education is carried on by the health nurse. Visiting the different class rooms at regular intervals the Health Nurse gives "health talks" to the students. This implanting in youthful minds the essentials of healthy living is heartily endorsed by medical men everywhere.

This education work however is not confined to the schools. On all her visits to homes throughout the town the Health Nurse is always on the lookout for dangerous or unhealthy conditions which may prevail. Advice along the lines of hygiene, sanitation, proper ventilation and a number of other matters vital to the health of the community is always cheerfully given for the asking and in this way the Public Health Nurse is constantly preaching the gospel of health.

Milk In Schools
The system of free milk in the public schools was re-established here this winter, some thirty children being thus supplied with nourishment of which they were badly in need. The benefit of this work has made itself apparent for in some cases undernourished children have shown an increase in weight of five and six pounds.

Benefit To All Classes
are under the impression that only those who are unable to contribute towards health work are deriving the greatest benefit. Records kept by the Red Cross however tend to dispense with this as merely an illusion for the cases treated have come from all classes.

Booklets
Have you seen the Acrostic Box of Mobs Chocolates? It certainly is an interesting novelty.
Each package contains one of a series of booklets. Each booklet has four Cross Word Puzzles.

Booklets are numbered so that you can see them through the wrapper and not get duplicates.
They say there's a great deal of fun, after presenting the chocolates, for the two of you to solve the puzzles together.
