

TO EXPECTANT MOTHERS

A Letter from Mrs. Smith Tells How Lydia E. Pinkham's Vegetable Compound Helped Her

Trenton, Ont.—"I am writing to you in regard to Lydia E. Pinkham's Vegetable Compound. I would not be without it. I have taken it before each of my children was born and afterwards, and it is a great help. Before my first baby was born I had shortness of breath and ringing in my ears. I felt as if I would never pull through. One day a friend of my husband told me what the Vegetable Compound had done for his wife and advised me to take a bottle home for me. After the fourth bottle I was a different woman. I have four children now and I always find the Vegetable Compound a great help as it seems to make confinement easier. I recommend it to my friends."—Mrs. F. H. SMITH, John St., Trenton, Ont.

Lydia E. Pinkham's Vegetable Compound is an excellent medicine for expectant mothers, and should be taken during the entire period. It has a general effect to strengthen and tone up the entire system, so that it may work in every respect effectively as nature intended. Thousands of women testify to this fact.

The professor drew himself up. "I am not interested in the careers of colored pugilists," he said, and continued to turn the pages and look at the illustrations of the various books on the shelves.

Six Recipes for Pickles and Other Delicacies

Watermelon Sweet Pickles. Cut the deep rinds of a ripe watermelon into inch-wide and three-inch long pieces, then pare of the green outside skin. Put the rinds in a crock and pour over enough scalding vinegar to cover and let stand overnight. Next day reheat the vinegar, pour it over again and let stand until cold. Drain off the vinegar and weigh the rinds. To five pounds of rind, allow 1-2 pounds of sugar. Pour over the vinegar again and add a large spice-bag. Boil gently, skim well, until the rinds are tender when pricked with a broom splint. Then skim them out and boil down the syrup until it is heavy and rich, adding a tablespoonful of cloves, a little broken cinnamon and a very thin slice of lemon with the seeds removed. Return the rinds to the syrup, cook until thoroughly heated through, then pack in a crock, can and seal. This pickle also keeps well in carefully covered crocks in a cool, dry room. Citrus melons, honey dew and the deep pink cantaloupe melon rinds may be done in the same way.

Daily Attention of Household Metals

For in spite of his dishonesty, laziness and deceitfulness, I can see but one future for myself. So what should I do? I should keep me from discharging my mother and becoming his wife. T. J. A. Straight thinking should convince this girl that in the long run it is character, not uncontrolled feeling, which makes marriage stable and happy. Emotion perishes. Character endures. A man once promised this to his co-workers as worthy of their serious thought: "Never resign when you are angry. Prove that you can stand correction and then if you must leave, make good before you do it. Then go in peace." In other words when human relations are strained, beware of your hot emotions. Let pride and resentment pass. Cool down. Postpone action. Think it over. Give reason, a chance. It would serve well many a girl and wife in her social and domestic relations. It would serve as well in love as in hate.

NEW AIR LINE TO OPEN SOON. British Government Announce Policy—From India to England in 74 Hours. London, July 27.—The revised airship scheme which the government has adopted in principle provides for the preliminary construction of one 5,000,000 cubic foot airship—a ship as long as the S. S. Mauretania—at Bedford, by a company with a capital of 600,000 pounds, of which the government will provide, 400,000 pounds, and the government will make a second similar loan on condition that an airship journey to India in 100 hours shall be inaugurated. Weekly service to India for three months shall entitle the company to each loan annually for three years. A subsidy of 250,000 pounds will be paid on the establishment of a bi-weekly service to India in which six airships shall be engaged. The construction of the first airship, which will be capable of carrying 150 passengers and ten tons of mail matter and will travel eighty miles an hour, will occupy 18 months. It is hoped that the journey between Great Britain and India may be accomplished in 74 hours, at a fare of about 70 to 80 pounds in an airship capable of making non-stop journeys of 2,500 miles.
